

How to Upload, Download Videos to YouTube on iPhone?

Sometimes you want to upload your favorite videos from your iPhone to YouTube. The first way you think about it is to cut the video from your phone to your computer or Laptop and upload it. However, this is quite time consuming. The following article will show you how to upload videos to YouTube from your iPhone device.

How to **Upload, download** your favorite **videos** from your computer, Laptop to YouTube is quite simple. But how to **Upload, download** your favorite **videos** from iPhone to YouTube? The following article The Network Administrator will introduce you two extremely simple ways to **Upload and download your videos** from your iPhone to YouTube.

Method 1: Download, Upload videos from iPhone to YouTube quickly with Camera Roll

Step 1:

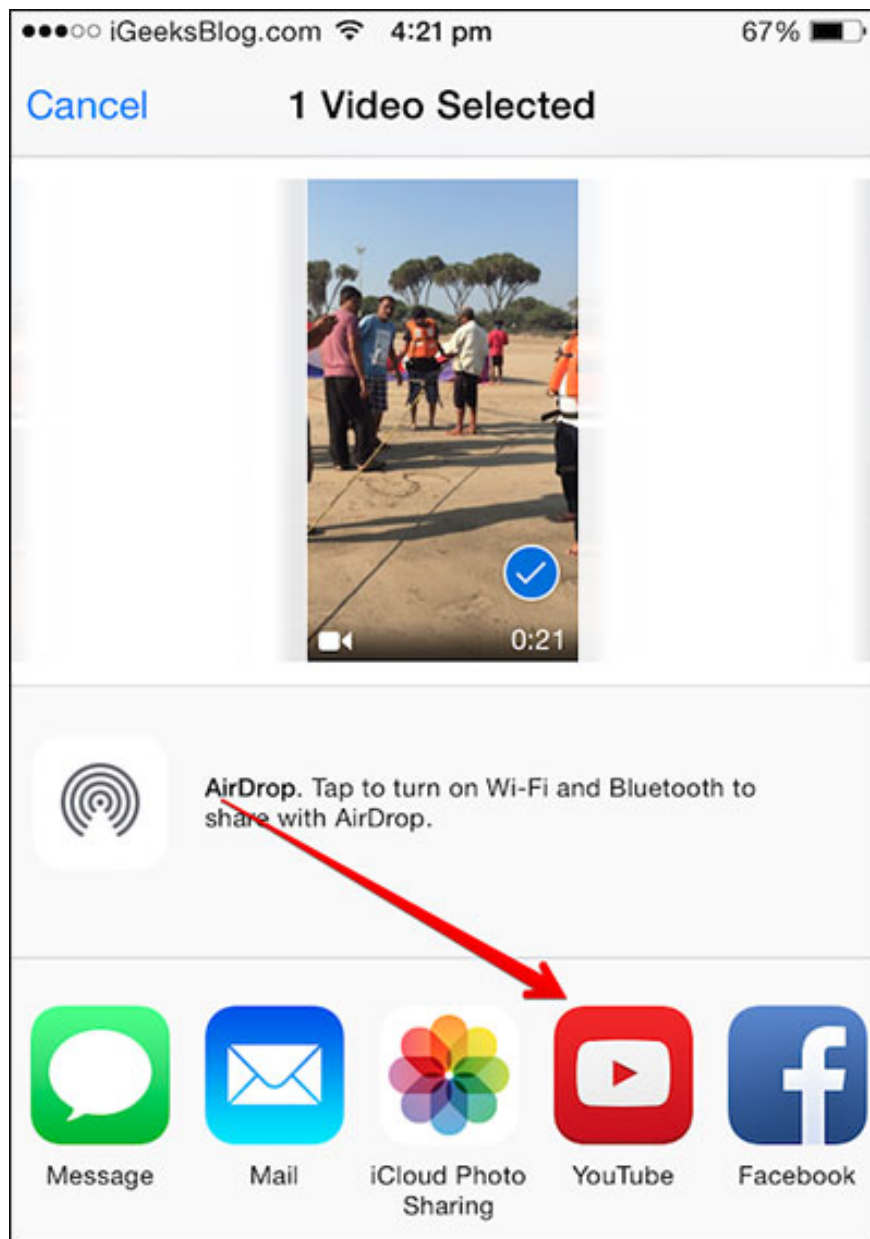

Go to **Camera Roll** to select the video you want to upload.

Step 2:

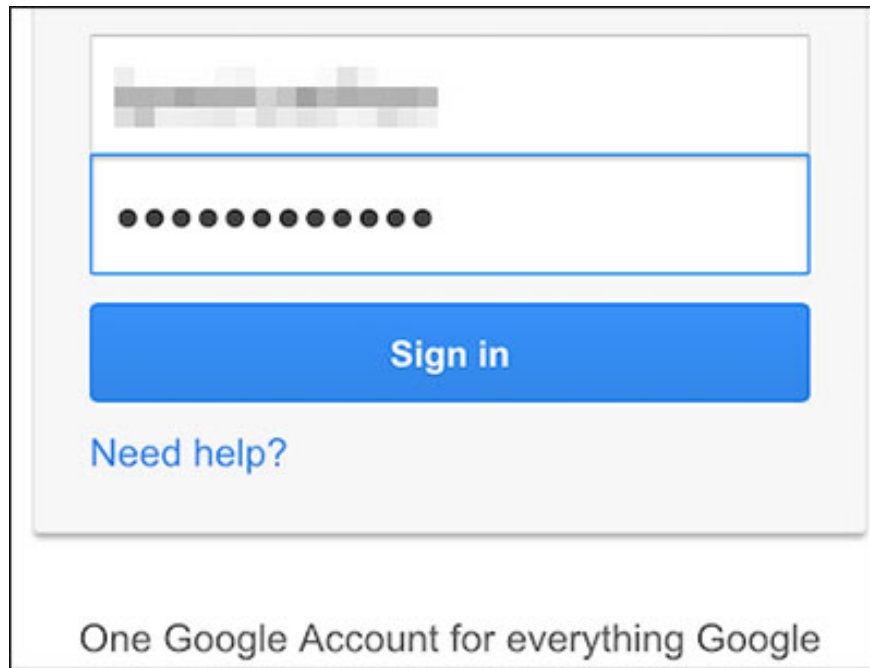

Touch the **Share** icon at the bottom left corner.

Step 3:

After tapping the **Share** icon, there will be an option to share your favorite videos on **YouTube, Facebook** . Touch **YouTube**.

Step 4:

If you have not logged into your **YouTube** account on your **iPhone** device, the screen will appear asking you to login your account.

Step 5:

Next, you will be asked to create a title for the video. There are also other options, as well as selecting a short description for the video, choosing standard or HD video quality, selecting each item and selecting Upload mode.

There are 3 upload modes:

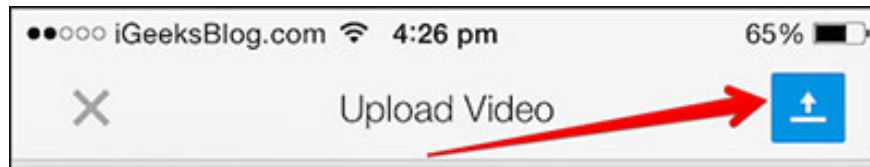

+ **Public** : Upload publicly, anyone can see your video file. However the youtube server will detect the link immediately and will delete the file immediately if it considers violation of copyright of a certain unit has registered copyright.

+ **Unlisted** : Upload is not published, only the account holder is you and the people who are you embed the link to view online on some website to watch the video. **YouTube** or any search engine will never find the video link in this mode. This is the mode chosen by online websites to upload for online viewers.

+ **Private** : Upload privately, only the account owner is you and the people you share the link directly to watch the video.

If you don't know how to upload, download videos from your computer or laptop to YouTube. Refer here.

Step 6:

After you've finished creating the title and choosing to edit your video, tap **Publish** at the top of the **Menu**. So you have finished uploading videos to YouTube.

Method 2: Upload, download videos directly from iPhone to YouTube effectively with the YouTube application.

Step 1:

Open the **YouTube** application .

If your iPhone or iPad doesn't have a YouTube app, you can visit here to download it and install it.

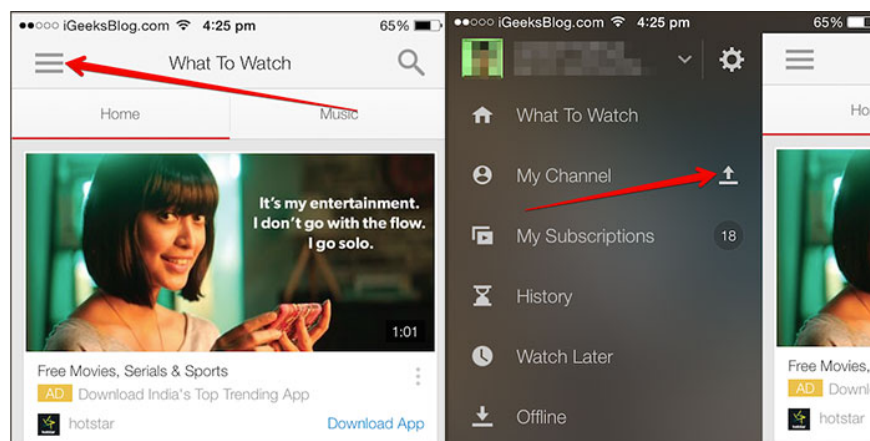

Step 2:

If this is your first time uploading videos to a personal **YouTube** page, you must log in to your account.

Step 3:

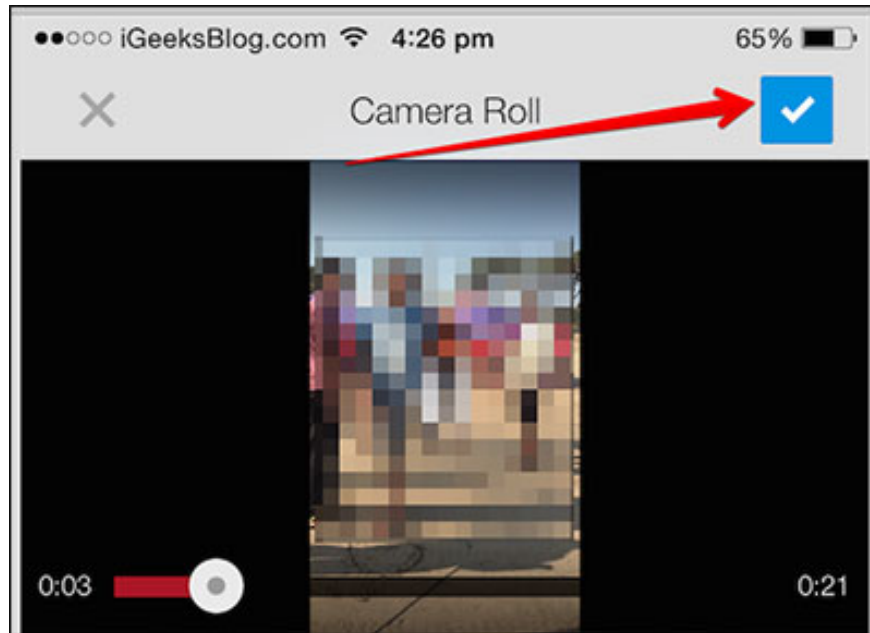

Touch the icon of the **3 dash lines** on the top left of the **Menu**.

Step 4:

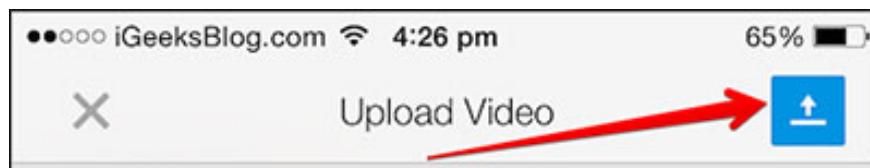

Select the **Upload** icon next to **My Channel**.

Step 5:

Go to **Camera Roll** select the video you want to upload.

Step 6:

Create a title for the video and edit details, add a video description . After you've done the steps, simply touch the **Upload** icon (arrow icon pointing up) in the right-hand corner to upload the video .

Good luck!
