

# How to upload personal music to YouTube Music

The YouTube Music streaming platform has just been updated with an extremely important and necessary new feature.

The YouTube Music streaming platform has just been updated with an extremely important and necessary new feature. If you're a music creator and want to reach a wider audience, YouTube Music has now added a feature that lets you upload your own music library to the YouTube Music library. Once the upload is completed, millions of YouTube Music users will be able to access and enjoy your music.

There are 2 ways to upload music to YouTube Music:

1. Method 1: Drag the music files you want to upload to the website **music.youtube.com** .
2. Method 2: Go to **music.youtube.com** and click on your profile picture. An options menu will appear, click **Upload music** .

You can upload tracks in various digital audio formats, including FLAC, M4A, MP3, OGG and WMA. To manage the songs you've uploaded, navigate to **Library> Songs> Uploads** or **Library> Albums> Uploads** . Note that all of your songs will not appear immediately in the Uploads section, wait a moment.

In addition to being able to share personal music tastes with others, the great feature allows users to access and stream their massive music store through YouTube Music without having to store it locally. device. However, according to Google, to be able to use this new feature, you will have to install YouTube version 3.51+ or above on your phone. Allowing individual music uploads will mark a major step in directing Google Play Music users to YouTube Music completely.

In the future, Google plans to allow users to transfer their entire Google Play Music library to YouTube Music. But that doesn't mean Google Play Music will stop working. Mountain View has not made any official plans for the Google Play Music platform yet.

YouTube Music is Google's music streaming service launched in May 2018, competing directly with popular music streaming services such as Apple Music, Spotify, Tidal or Amazon Music HD. According to the latest statistics, YouTube Music owns more than 20 million regular users on its platform.
