

# How to use Bongo Cat to create music beats by herself

Bongo Cat is an application that automatically creates music beat for many instruments, taken from the phenomenon of the famous white cat meme in 2018 on the Internet.

Bongo Cat is an application that automatically creates music beat for many instruments, taken from the phenomenon of the famous white cat meme in 2018 on the Internet. The trend of making Bongo Cat music has since emerged with the image of the white cat playing Bongo drum and later added many different instruments to create many different melodies. Bongo Cat has covered many famous hits in the world and if you like, you can also create your own beat. Here's how to use Bongo Cat to create your own music beat on your phone.

## Instructions to use Bongo Cat on the phone

### Step 1:

We download the Bongo Cat application by following the link below and install it on the app as usual.

Download Bongo Cat for Android

<https://play.google.com/store/apps/details?id=bmf.bongo.cat>

Download Bongo Cat for iOS

<https://apps.apple.com/us/app/bongo-cat-musical-instruments/id1445350887>

At the interface you will see the cat and Bongo drum set ready to create music beats. To add another instrument, **press the plus sign below** , then select the instrument you want.
