

How to use Friendly for Facebook to merge Facebook with Messenger

Friendly for Facebook is an application that uses many Facebook accounts, including Messenger into the same interface. Besides, the application also has many features such as changing the Facebook interface.

Friendly for Facebook is an application that helps us use multiple Facebook accounts, including Messenger into the same interface. Besides, the application also has many other useful features such as changing the Facebook interface color, downloading videos on Facebook. Friendly for Facebook is very light like the Facebook Lite version, simple to use, easy to interface not too different from the Facebook application. When using Friendly for Facebook, you can switch between multiple interfaces, including the desktop version of Facebook and the Facebook interface on your phone. The following article will guide you how to use Friendly for Facebook, including changing the application interface

Instructions for using Friendly for Facebook

Step 1:

Download the Friendly for Facebook app by following the link below, then install and log in to your personal Facebook account.

Download Friendly for Facebook iOS

<https://apps.apple.com/us/app/friendly-for-facebook/id400169658>

Download Friendly for Facebook Android

<https://play.google.com/store/apps/details?id=io.friendly&hl=vi>
