Now we click **Create** in the list on the left of the interface to proceed to create videos on Hailuo AI.

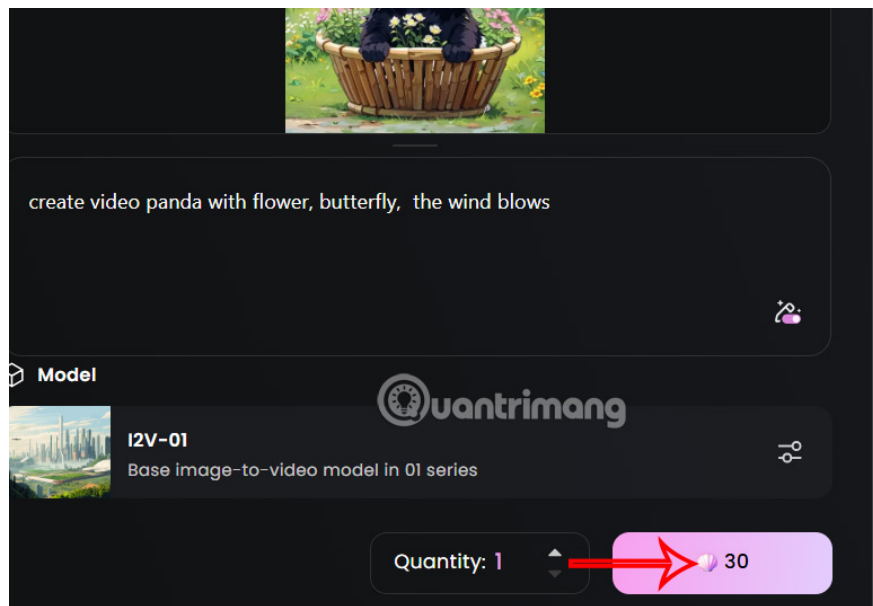

**Step 4:**

We select **Image to Video** and then upload **the image to Hailuo A** I want to convert to video.

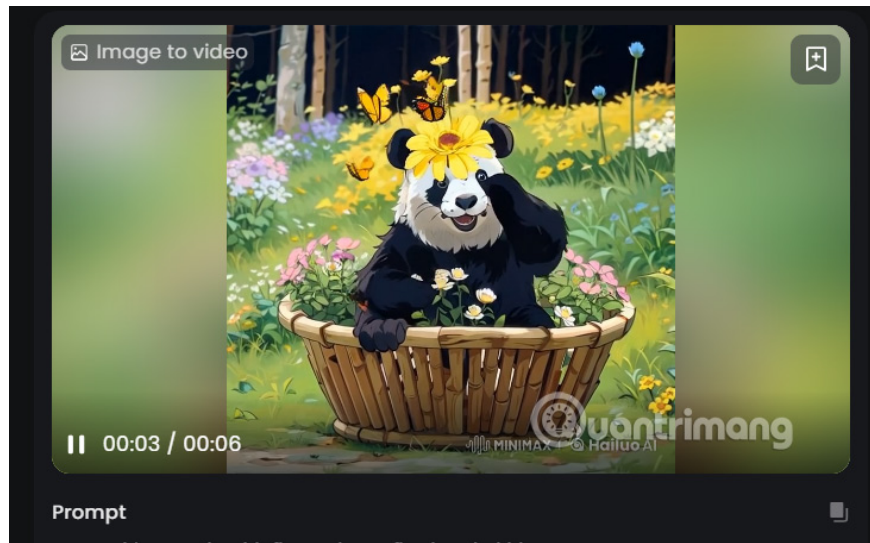

After uploading the image, **enter the content you want to create a video from the image** into the box below. Then click on **the seashell icon** below to proceed with creation.

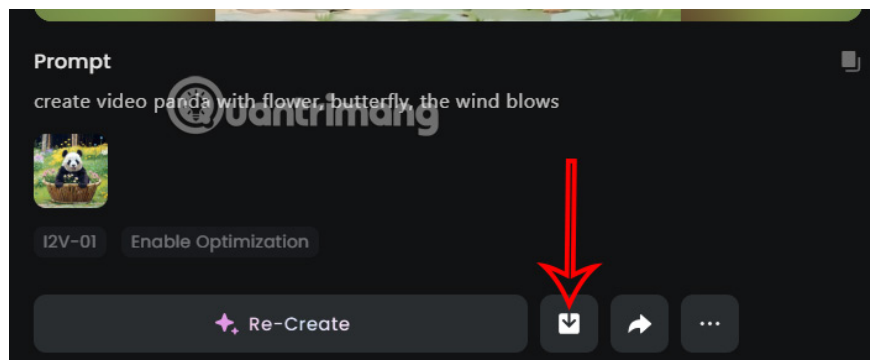

### Step 5:

Immediately after that, the process of creating a video from the images on Hailuo AI is carried out. The process is fast or slow depending on the content you describe.

Now we will see a 6-second video with rich content. Even if you enter a short, unclear description, Hailuo AI will still create an attractive video.

If you like it, click the download icon to download.
