 **Create Account**

Access to the email account registration address and **click Verify email** to confirm the personal account registered.

Registration Successful

Your Icedrive account has been created.

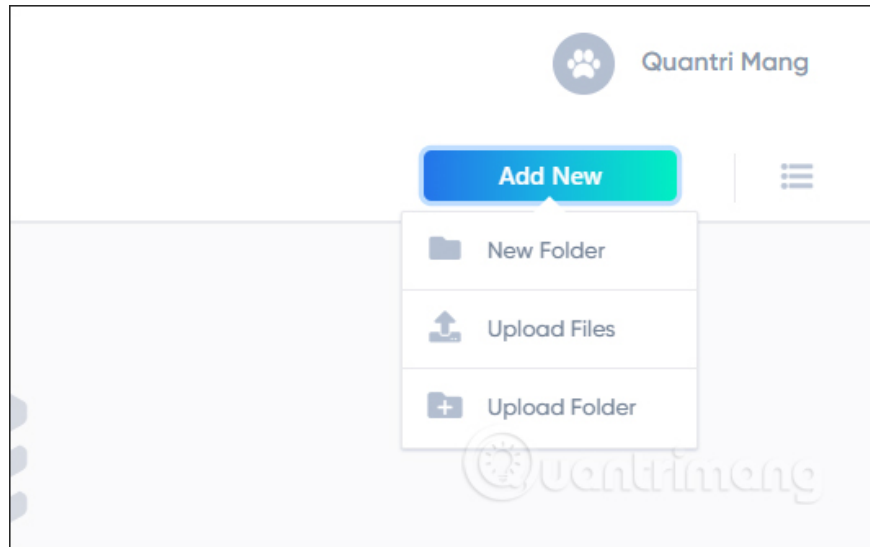

Please secure your account by verifying your email address.

Failure to verify your email address may result in service suspension.

 **Verify Email**

Step 3:

Switch to the main interface of the application. Here you drag and drop the data or **click Add New** to create a new folder (New Folder), download the file (Upload Files) and upload the folder (Upload Folder).

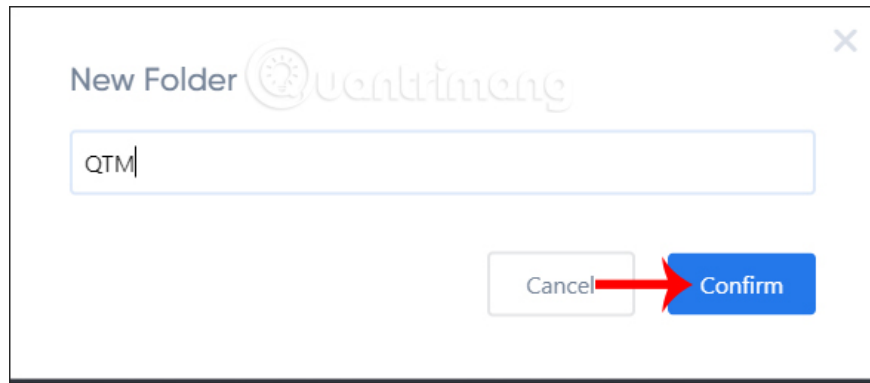

The download process will take place shortly afterwards and you will see the upload process through the% circle at the bottom of the screen.

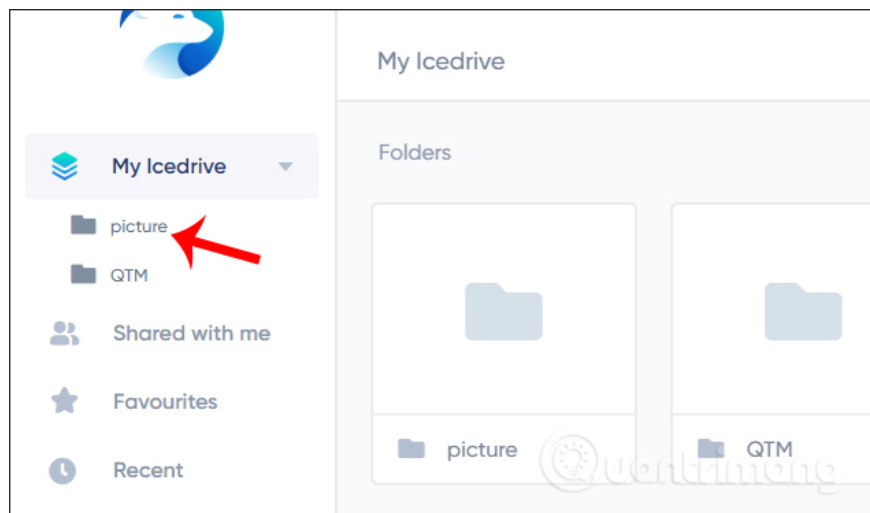

Step 4:

The process of **creating an archive folder** on Icedrive is also very simple, enter the folder name and then **click Confirm** to create.

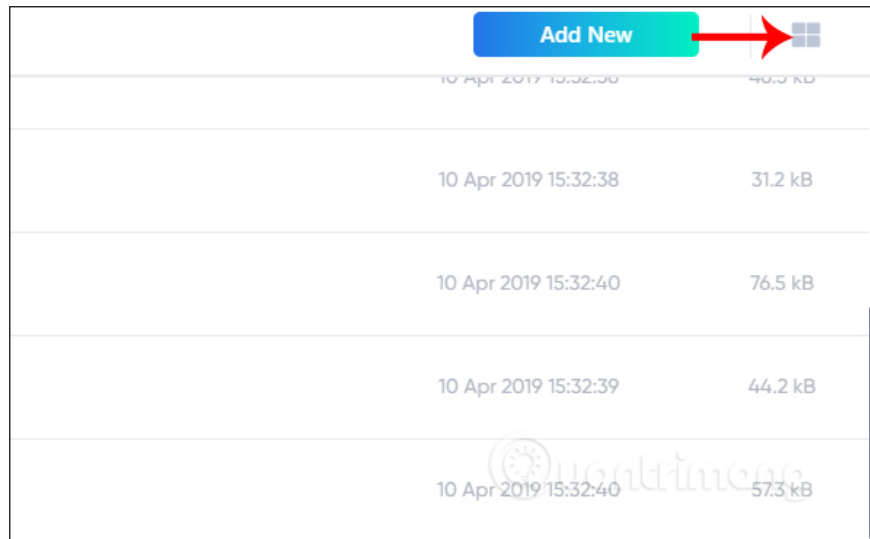

All the newly created folders on Icedrive or uploaded by you are displayed in the Icedrive interface and in the list on the left of the screen.

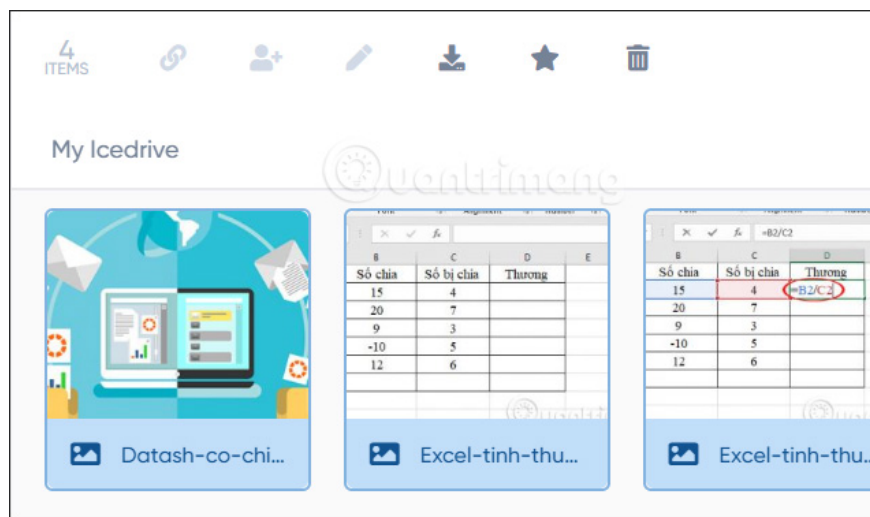

Step 5:

The data after uploading is divided into 2 items, Folders and Files. We can change the display type by clicking on the icon that displays the file list, if you want to know the date of storage on Icedrive as well as the file and folder size.

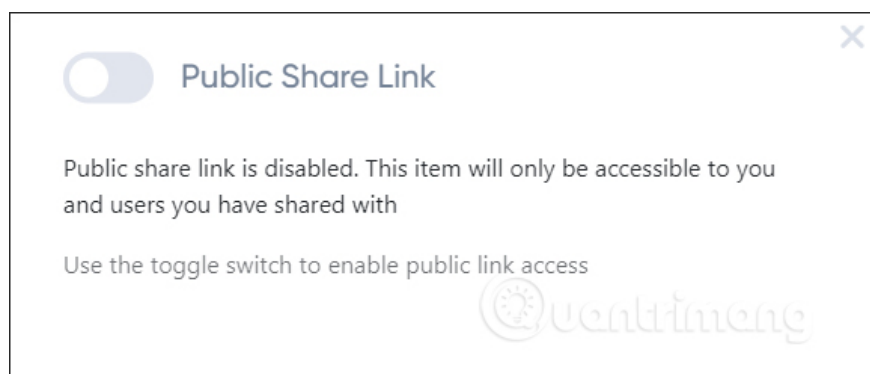

Step 6:

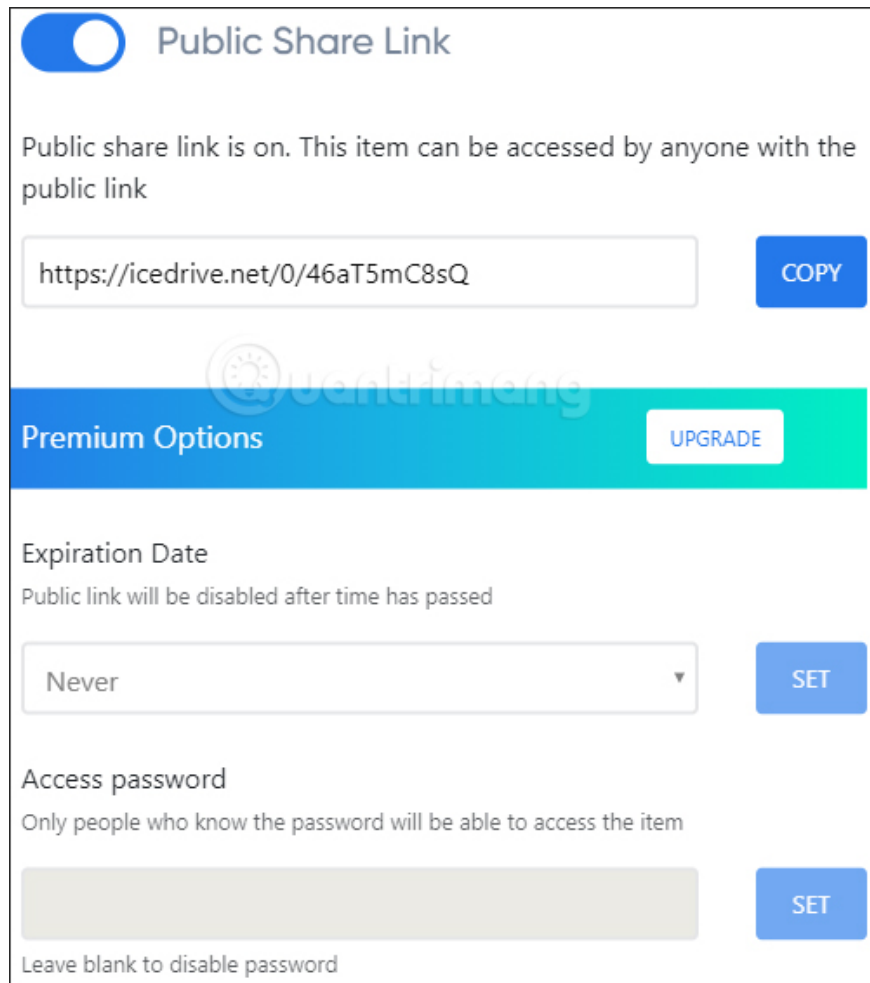

Clicking on the file will display a row of optional icons at the top of the interface. Press Ctrl and click on multiple files if you want to select multiple files at once.

The Public Link icon is used to get the shared link, then push the round button to the right at Public Share Link to get the file sharing link.

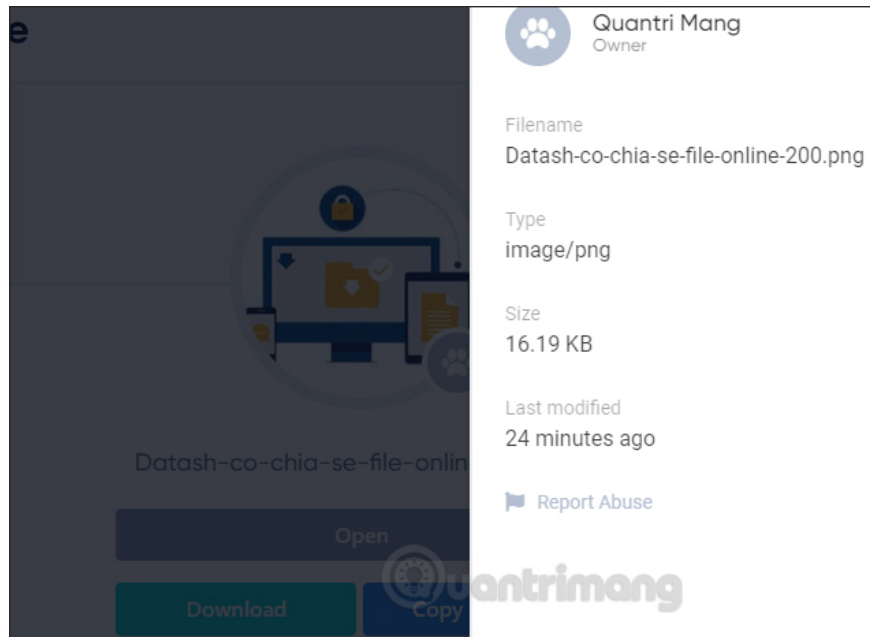

Display interface with **data sharing link** . Below are some options for the paid version of Icedrive.

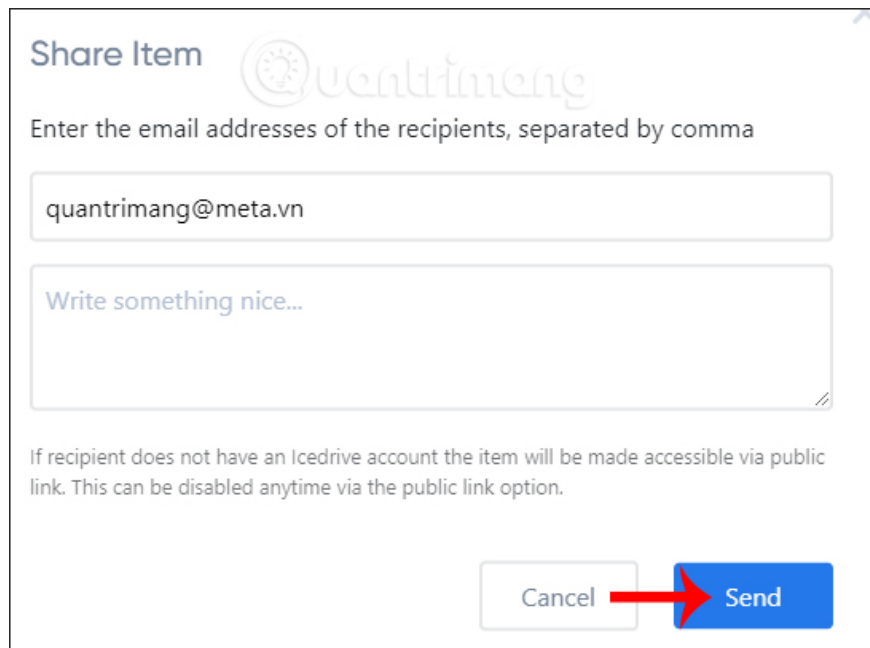

The screenshot shows the 'Public Share Link' settings in Icedrive. At the top, a blue toggle switch is turned on, with the text 'Public Share Link' next to it. Below this, a message states: 'Public share link is on. This item can be accessed by anyone with the public link'. A text input field contains the URL 'https://icedrive.net/0/46aT5mC8sQ', and a blue 'COPY' button is to its right. A blue banner with a white 'UPGRADE' button is labeled 'Premium Options'. Underneath, the 'Expiration Date' section has a sub-header 'Expiration Date' and a description 'Public link will be disabled after time has passed'. A dropdown menu is set to 'Never', with a blue 'SET' button to its right. The 'Access password' section has a sub-header 'Access password' and a description 'Only people who know the password will be able to access the item'. A greyed-out text input field is present, with a blue 'SET' button to its right. At the bottom of this section, it says 'Leave blank to disable password'.

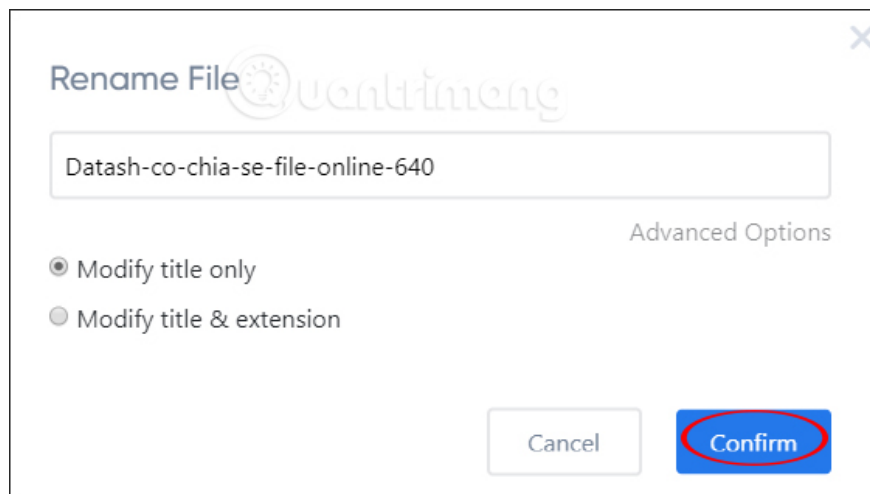

The shared link recipient will know the sender and the details of the file.

The Sharing Options icon is used to send this file to a friend via email address. Enter the email address you want to send, click Add a message if you want to add a message and then **click Send** to send.

Pen icon to rename the file or folder name. Click Advanced Options to open advanced settings with the option to rename files only or rename files and file formats. Click Confirm to confirm the change.

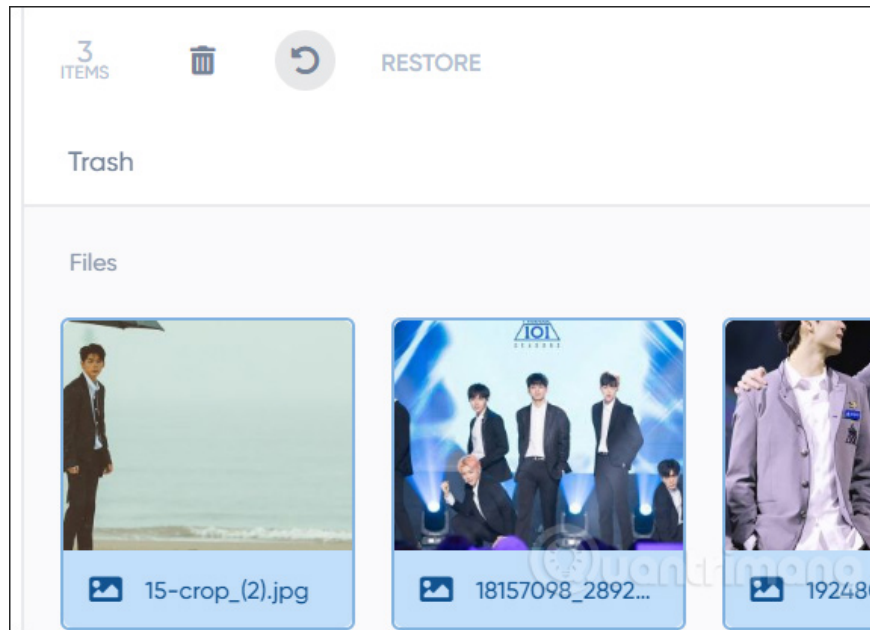

Star icon to bookmark favorite files and manage faster through Favorites. Finally the trash icon to delete the file.

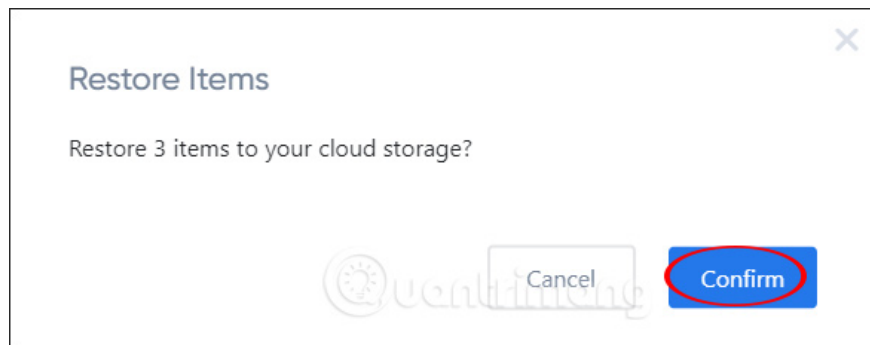

Step 7:

The deleted files are transferred to **the Trash section** . If you want to delete the file, click the trash icon, or switch to the root folder, click the Restore icon.

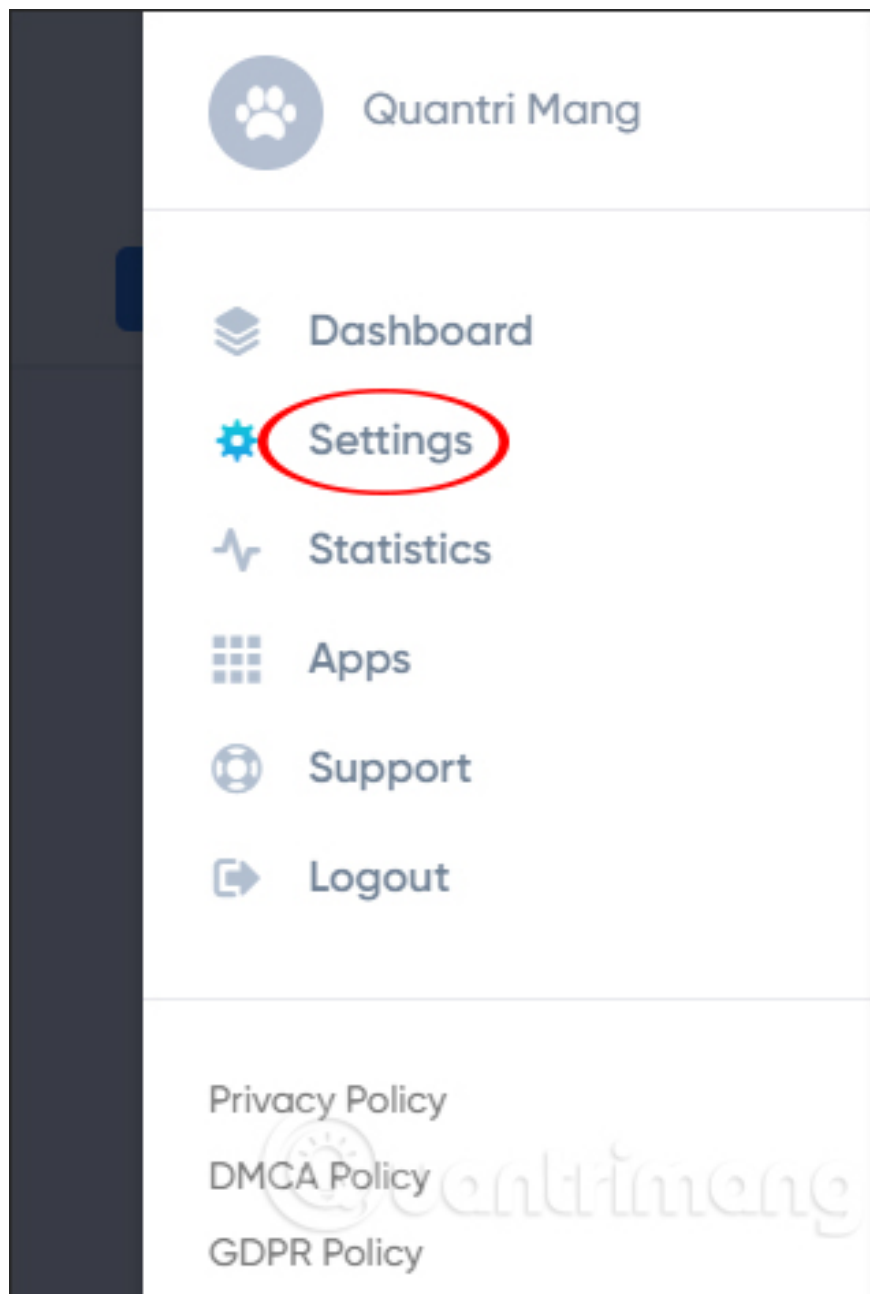

Click **Confirm** to agree to restore the deleted data.

Step 8:

Click on **the account name and** then select **Settings** to change the settings for the account.

Switch to the new interface, users can change personal information, change account password in Account section. Also can customize the personal items at Pivacy.
