

How to use Instant Markup to take notes on iPhone / iPad

How to use Instant Markup in Notes app on iOS 11? Follow these steps to get started with this highly appreciated feature.

How to use Instant Markup in Notes app on iOS 11? Follow these steps to get started with this highly appreciated feature.

In iOS 11, the upgraded Notes app becomes extremely fast, convenient and easy to use. And the Instant Markup feature will definitely make your application experience even better. You can draw, write text on notes, add signatures or enlarge hidden content to get a better view.

With many brush sizes, you can create a more vivid note. In addition, you can also choose different colors for the brush. You can also undo, redo everything when an error occurs.

How to use Instant Markup in Notes on iPhone and iPad

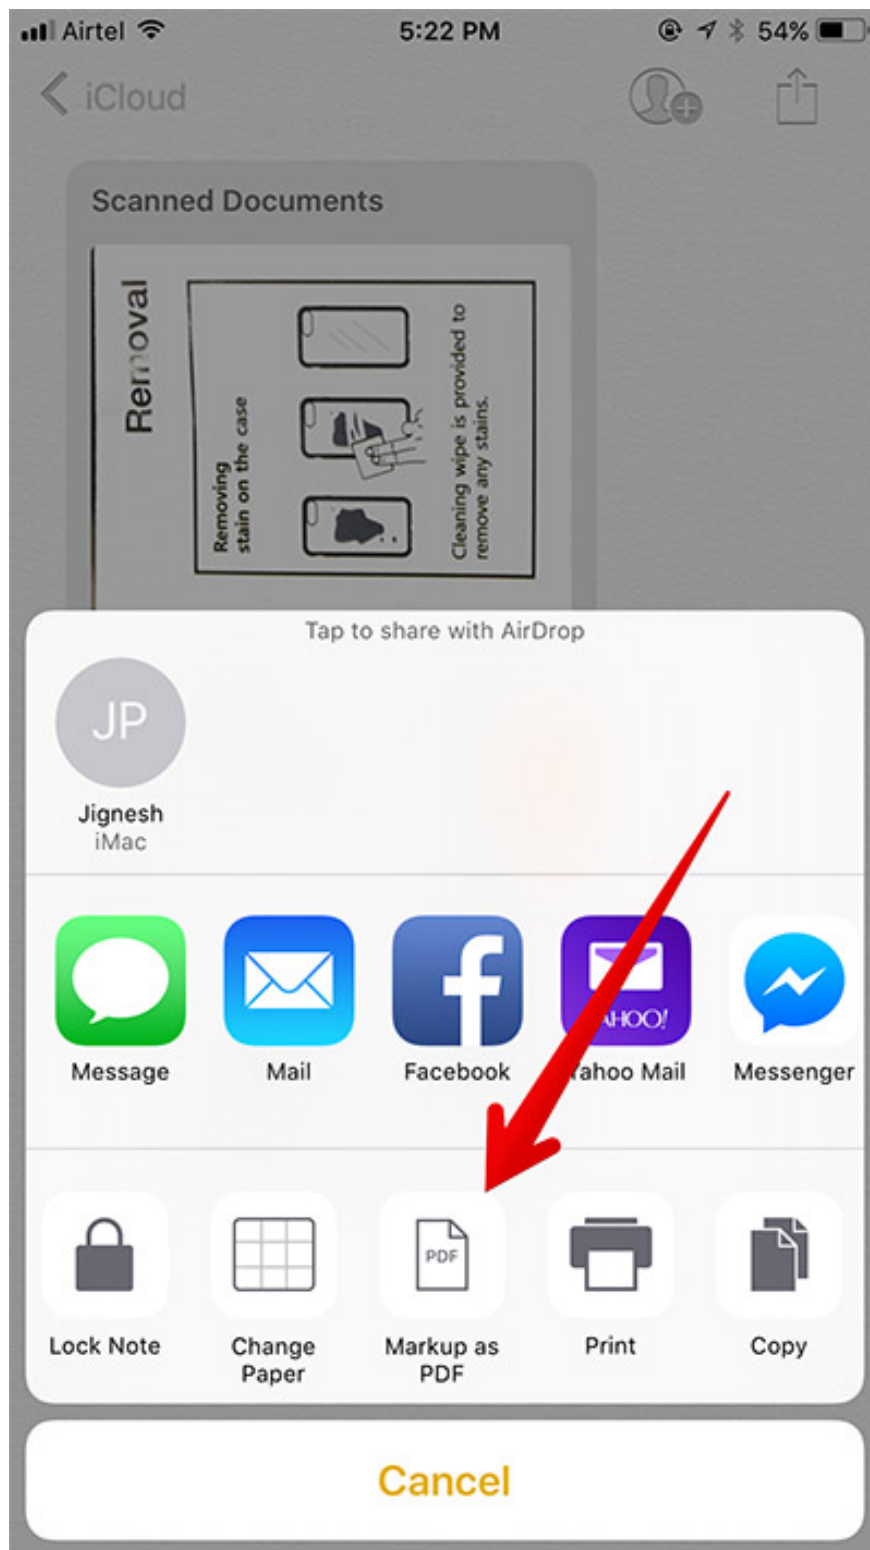

Currently, you cannot mark scanned notes with Apple Pencil on iPad Pro. However, you can do that through this article.

Step 1 . Open the Notes application and open a scanned document.

Step 2 . Click on the **Share** icon.

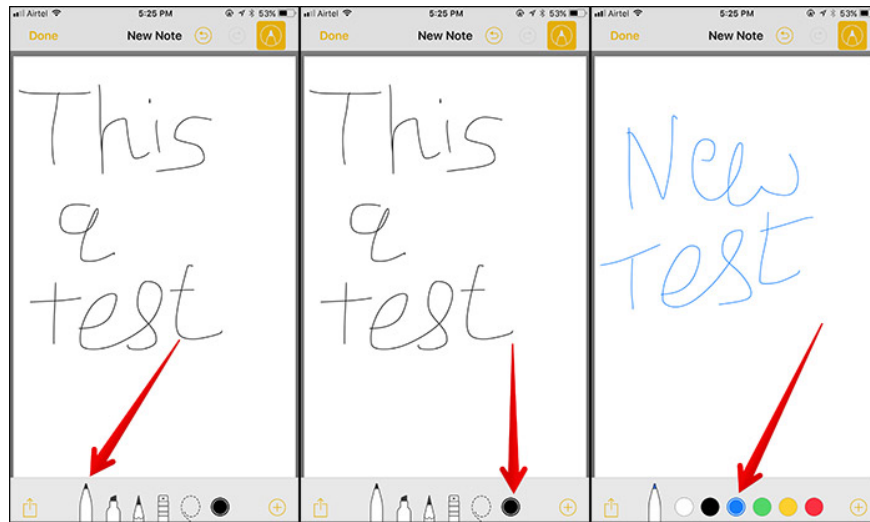

Step 3 . Now, click **Markup as PDF** .

Step 4 . Next, touch the brush icon at the top of the screen to get started. You can draw, write anything you want

1. To change the brush, touch the brush icons at the bottom of the screen.
2. To change the color, click on the small circle and choose the color you like.

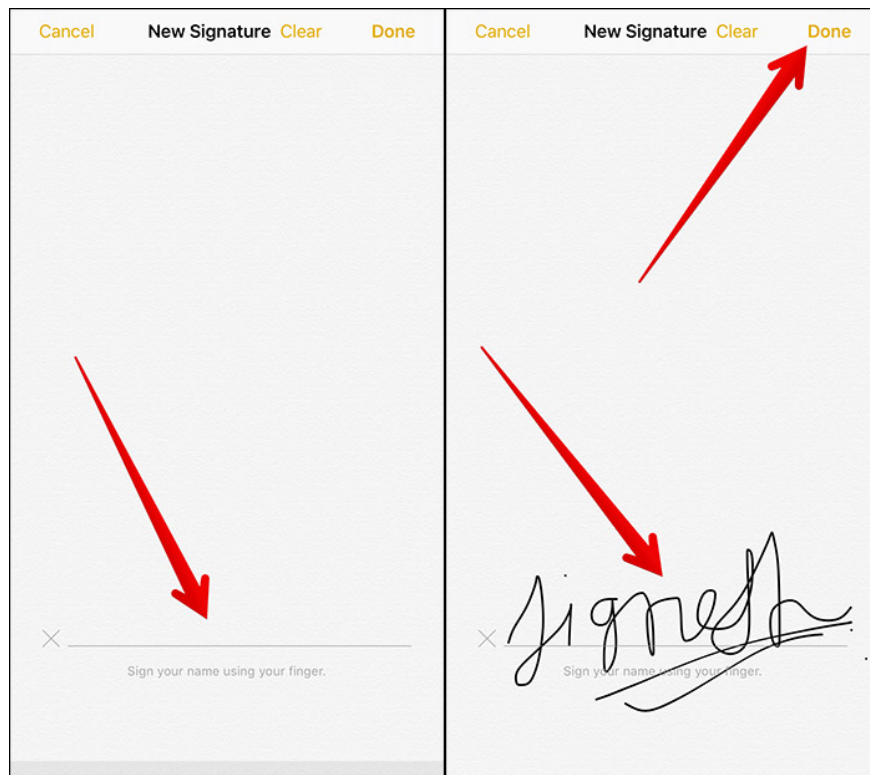

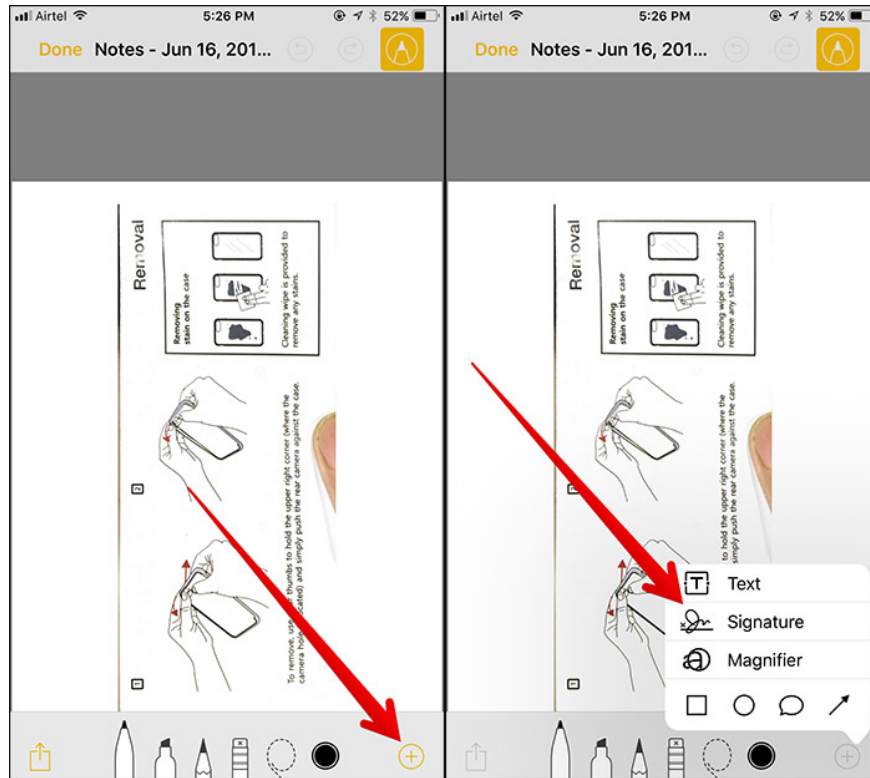

Note : Use the undo / redo options in the top right corner. Two options to undo all operations quickly and even return the content accidentally deleted.

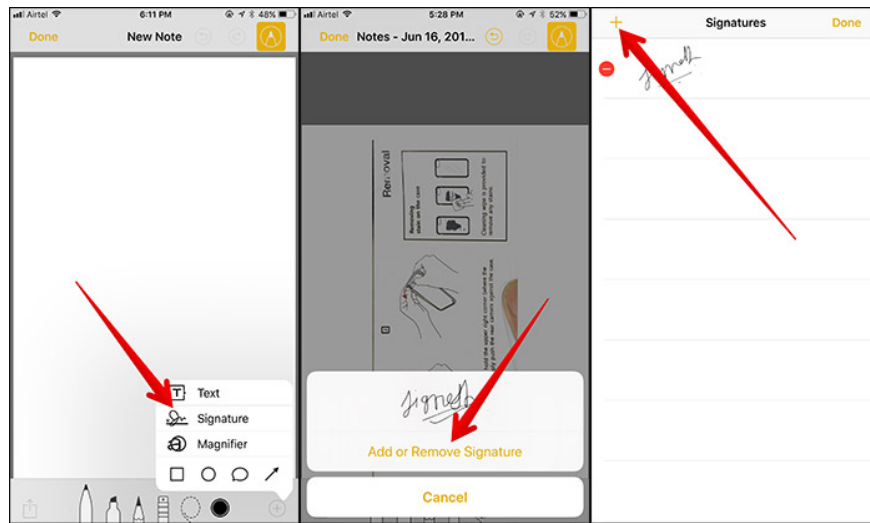

How to add signatures in Notes application on iPhone and iPad

Step 1 . Open the **Notes** application> open any document> touch the **Share** button> select **Markup as PDF** > touch the brush icon.

Step 2 . Touch the '+' button at the bottom right. After that, select the **signature** , and sign the document. Finally click **Done** to confirm.

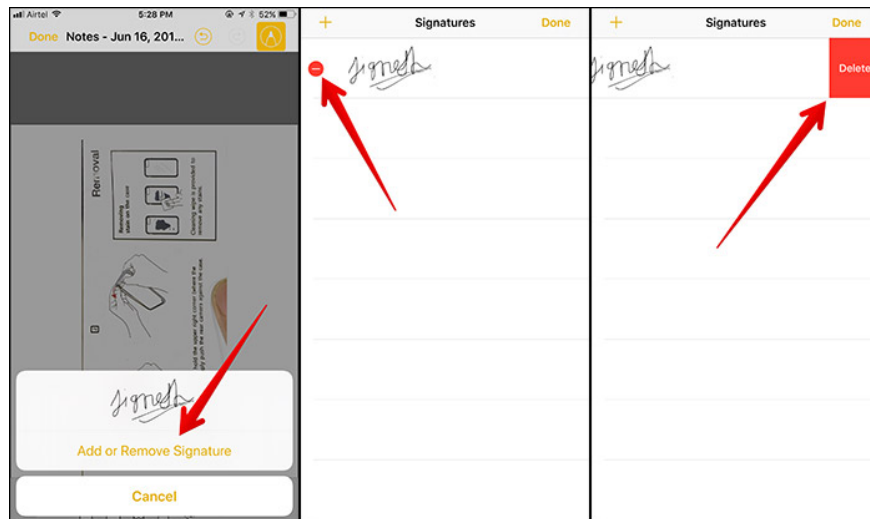

If you want to replace another signature or delete an existing signature, just press the '+' button at the bottom right. Next, touch **Signature ? Add or Remove Signature**> click the + to add a signature:

Touch the red '-' on the left of the signature, and press **Delete** to delete the signature, click the red button to the left of the existing signature and then click the **Delete** button.

After completion click **Done** at the top right to confirm.

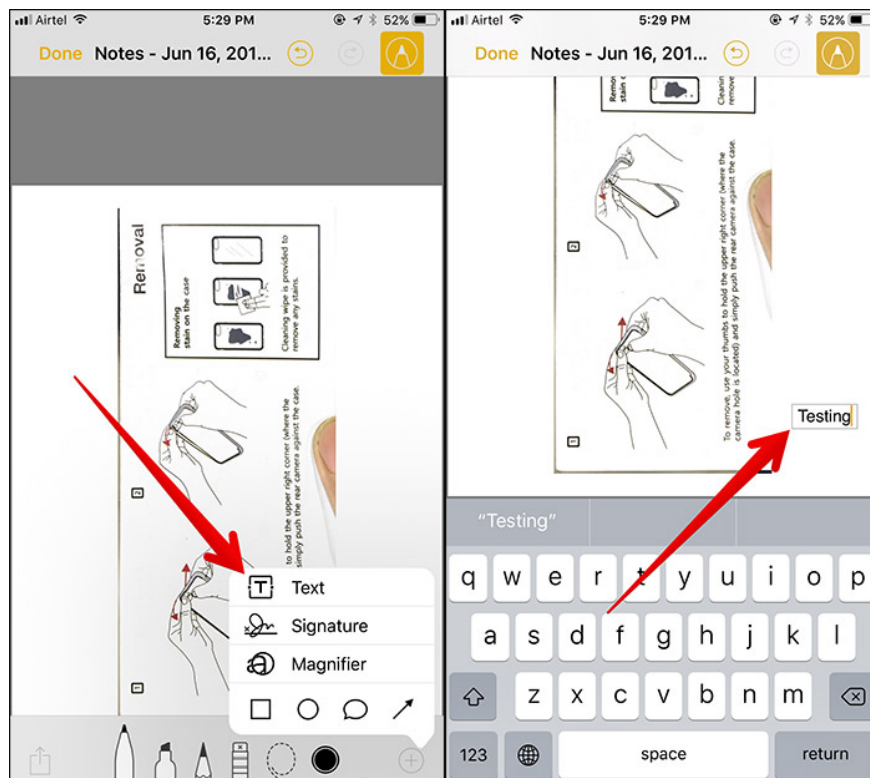

How to add text to documents in Notes application on iPhone and iPad
