## Instructions for converting files on Fileshifter.io online

### Step 1:

Users click on the link below to access the Fileshifter.io service homepage.

1. <https://fileshifter.io/converter/>

By default, the service is available to convert from PNG to PDF and vice versa. To open more formats, click PNG to select another format for the source file.

Select the display formats in the list. There are about 10 popular formats supported on Fileshifter.io.

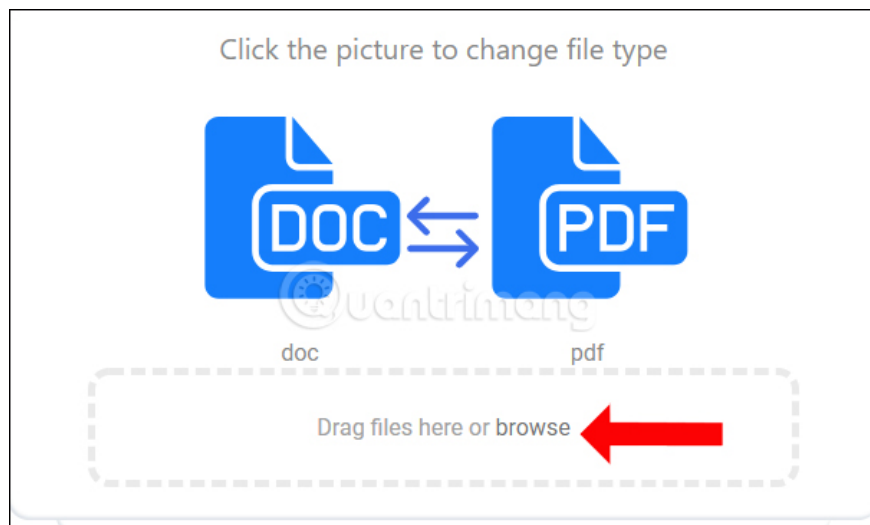

**Step 2:**

After selecting the source format, the service will automatically display the compatible conversion file formats. The number of target file formats is less than the source file format.

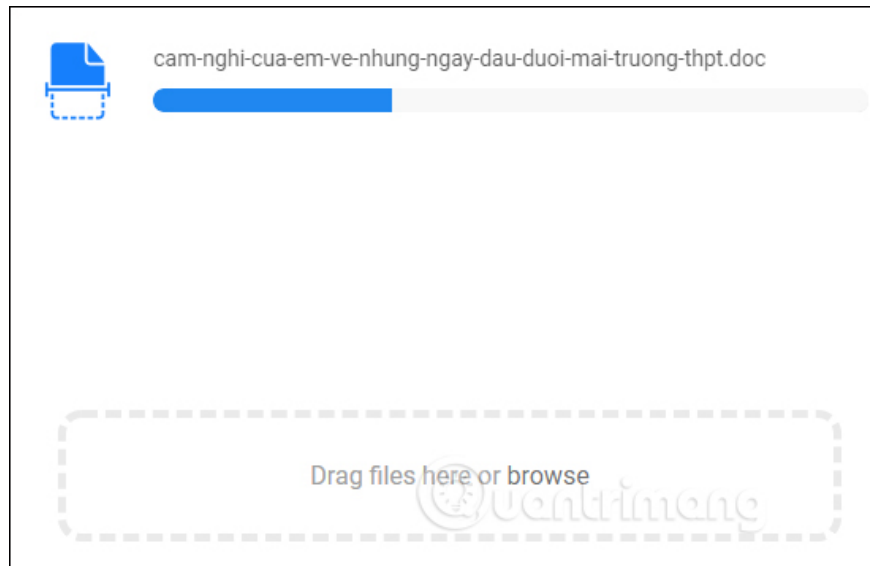

**Step 3:**

After selecting the format to convert, drag and drop files into **frames Drag files here** . Or you can click browse to download the file directly on the computer. Each conversion will only select 1 file but the capacity can be up to 1GB.

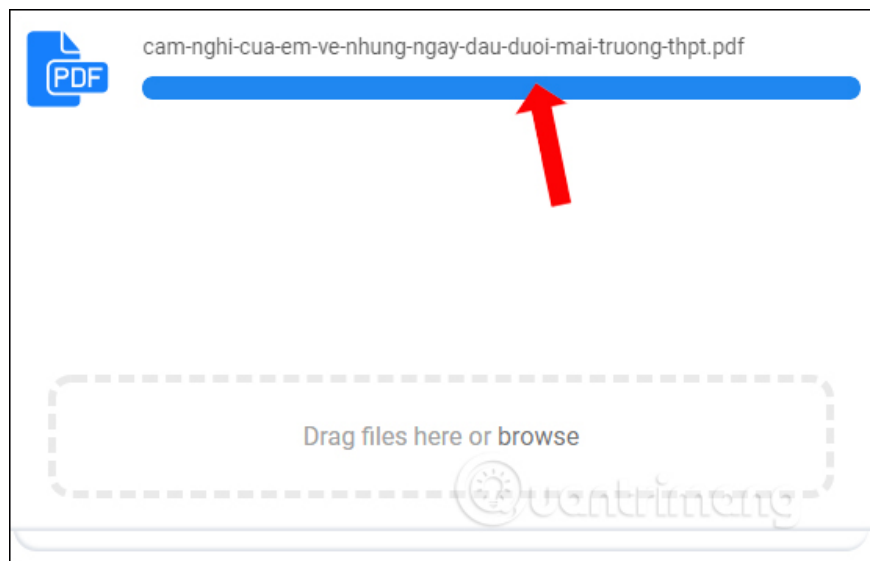

**Step 4:**

You wait for Fileshifter.io to upload the source file and perform the conversion process.

The conversion speed will depend on the size of the uploaded source file. When you see the destination file converted, just click on the file name to automatically download to the computer.

Filesifter.io is a very basic and simple file format conversion service. The service does not have too many options during the transition. You do not need to register an account or enter a mail address to download the destination file after conversion.
