

How to use Media Converter to convert video and audio

Media Converter application on Windows 10 has the ability to convert audio and video to many different formats with a very simple way. Media Converter has a simple and beautiful interface with Fluent interface.

Especially, Media Converter application has no ads, so it will not affect your usage. In addition, the application also has features to adjust the video time, cut audio files or video files . The following article will guide you how to use Media Converter on Windows 10.

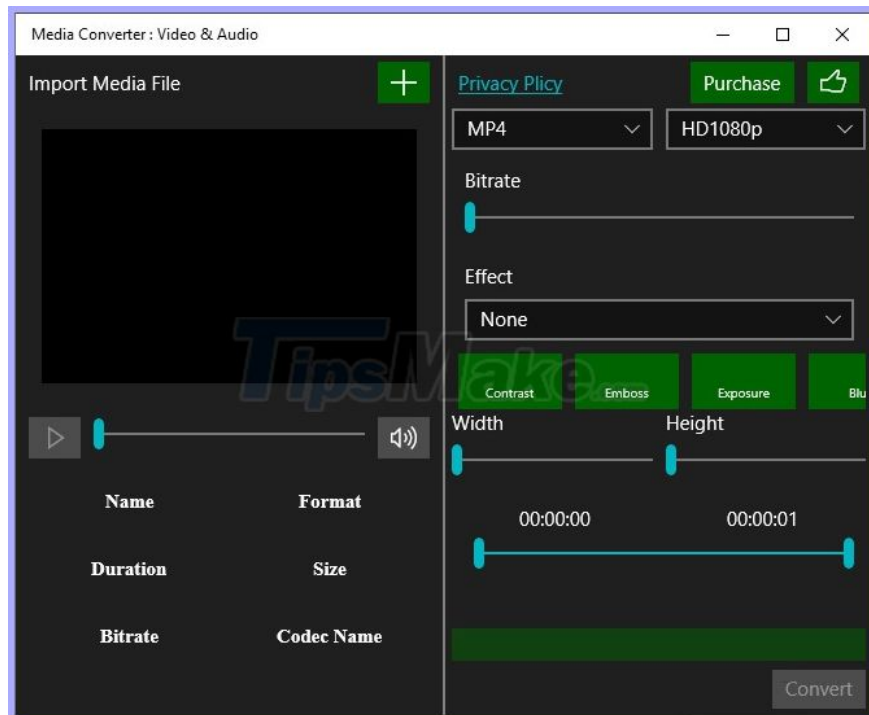

Instructions for using Media Converter Windows 10

Step 1:

We access the link below and then click Get to download and install the application on your computer.

[Download the Media Converter Windows 10 application](#)

Below is the main interface of Media Converter application on computer.

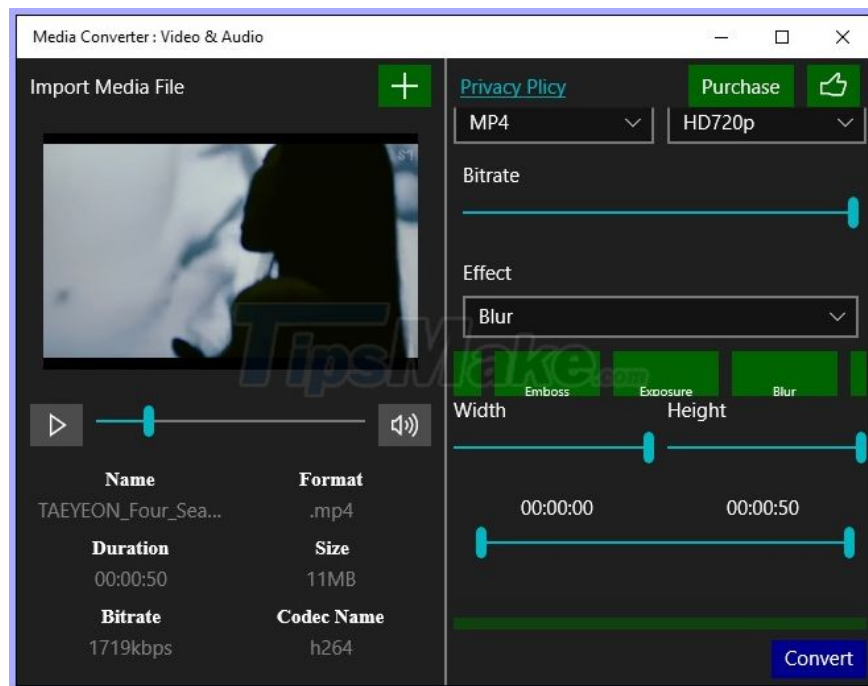

Step 2:

First **press the blue plus button** to download the video you want to convert. The video uploaded to the application will have detailed information, including name, bitrate, duration, codec name, format

Looking to the right, we will see the parameters to adjust for the video and format you want to change.

1. Format: Choose a video format to convert to.
2. Quality: Select the desired video quality.
3. Bitrate: Adjust bitrate quality for video.
4. Effect: Select the effect you want to use for the video.
5. Width / Height: Adjust the size for the video.
6. Cut video: You move the two blue vertical buttons to select the video to keep inside.

After you have finished editing, **click the Convert button at the bottom** and **select where to save the video** . Wait for the conversion process to finish.

Step 3:

We click on **the plus icon to download the audio file** . Then we also change the parameters for the audio file.

1. Format: Choose a format.
2. Quality: Select the output quality.
3. Bitrate: Choose the bitrate quality.
4. Sample rate: Select the audio sample parameter.
5. Duration: Move the two blue dashes to select the audio track you want to keep.

Finally, click Convert to finish the conversion.
