Instructions for creating an image sharing page

Step 1:

Users visit the homepage of multi.link by following the link below.

`https://multi.link/`

At the page interface, click **Join** to create an account to use.

Step 2:

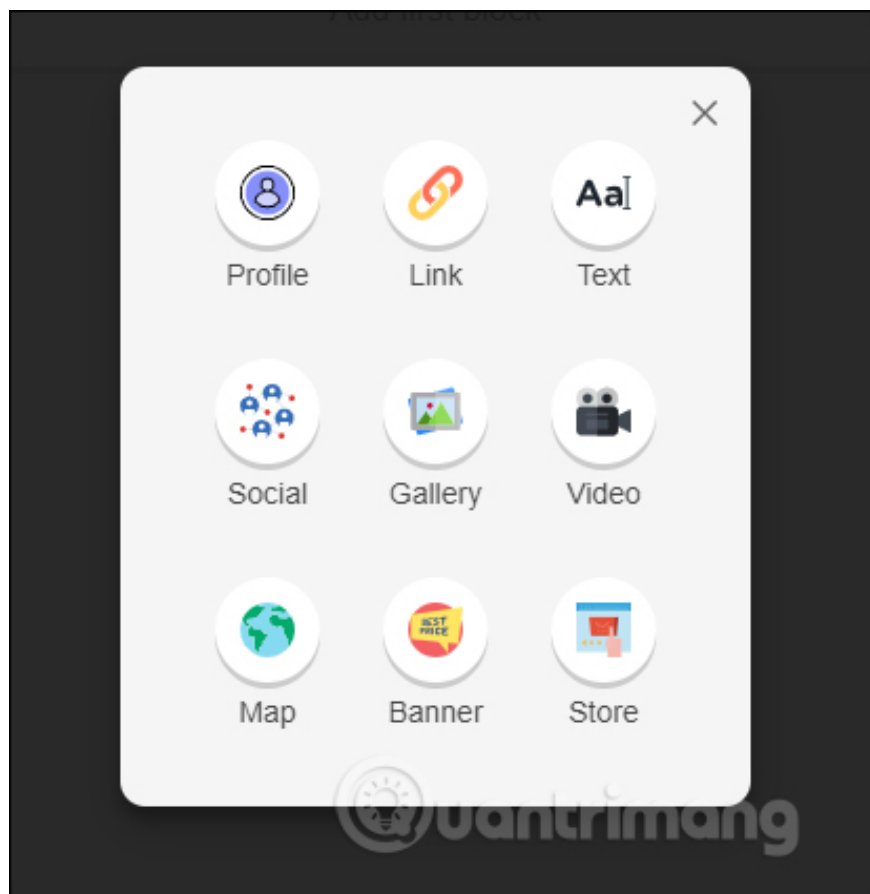

Switch to the account registration interface, the user enters all required information in the interface and then press **Create account** to use.

Step 3:

Once you have registered your user account, a new interface will appear and we click **Add first block** to select the first content to share.

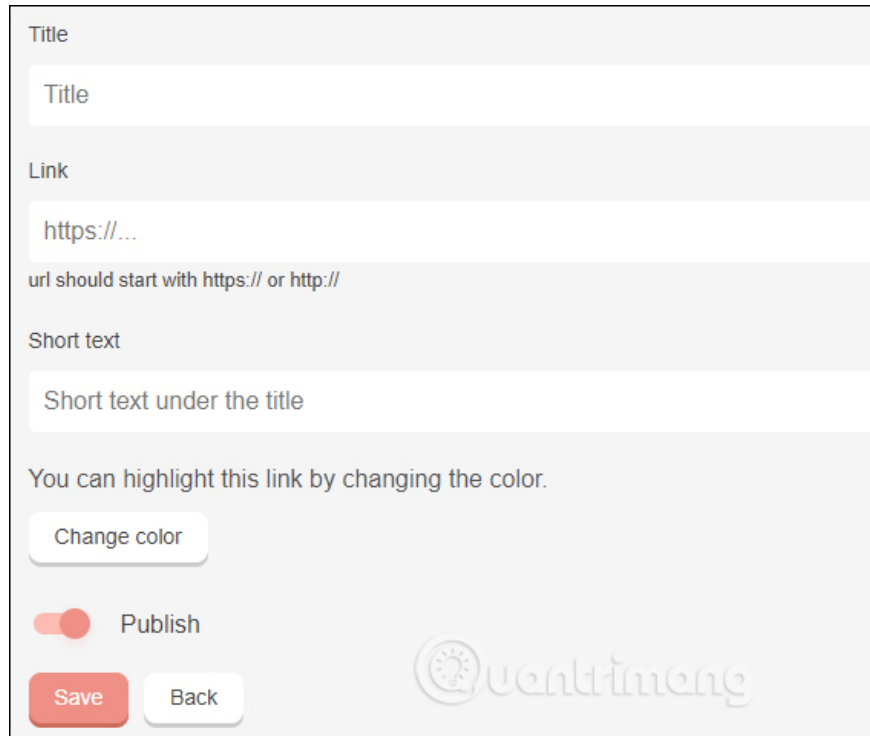

Display shared content that your site supports. Click on the content you want to send to others.

For example, to **share the link** , you click on the link. Now display the interface to fill the content to share any site.

1. Title: We enter the site name.
2. Link: You paste the website URL.
3. Short text: If you want to add a brief comment about the site, enter it here.

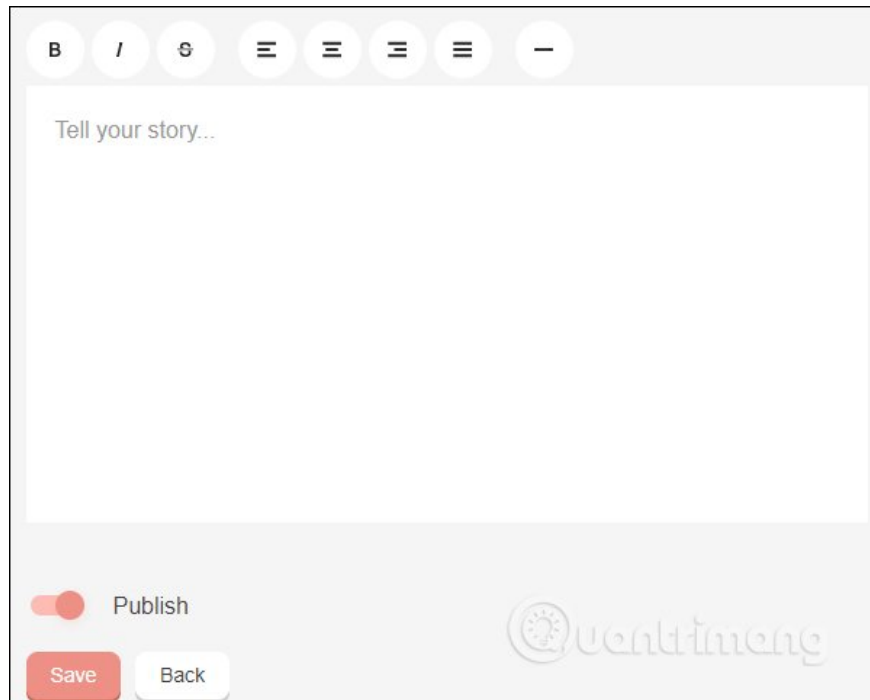

4. Change color: Create highlight link.
5. Publish: If you want to share publicly, then enable this mode.
6. Save: Click on save.

The screenshot shows a form for creating a link. It has four main sections: 'Title' with a text input field containing 'Title'; 'Link' with a text input field containing 'https://...' and a note 'url should start with https:// or http://'; 'Short text' with a text input field containing 'Short text under the title'; and a 'Publish' toggle switch which is currently turned on. At the bottom, there are 'Change color', 'Save', and 'Back' buttons, and a 'Quantineng' logo.

Step 4:

Go back to the interface of multi.link, click **Add new block** to add other content. If you want **to share the message** or content introduced, then click on **the Text** . Next we fill in the content as in the interface.

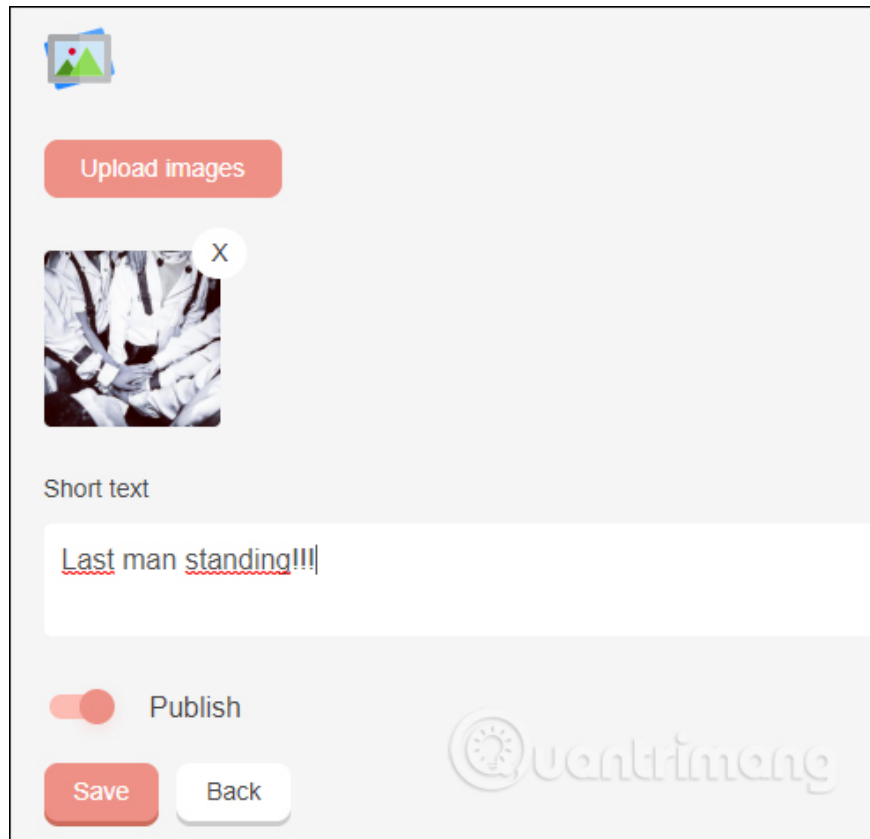

Step 5:

To **share social networking sites** , click on **Socia** 1. There are social networking accounts and you just need to enter the content as needed.

 Instagram
<input type="text" value="Username"/>
 Twitter
<input type="text" value="Username"/>
 Facebook
<input type="text" value="Username"/>
 VK
<input type="text" value="VK link"/>
 Youtube
<input type="text" value="Youtube link"/>
 Vimeo
<input type="text" value="Vimeo link"/>
 Telegram

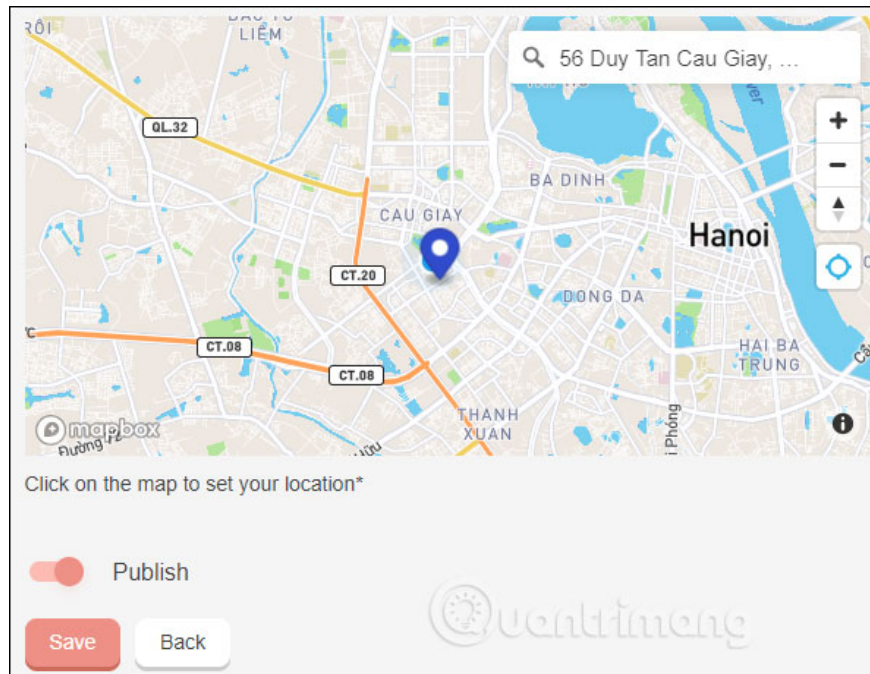

The Gallery section is for sharing photos on your computer and adding messages.

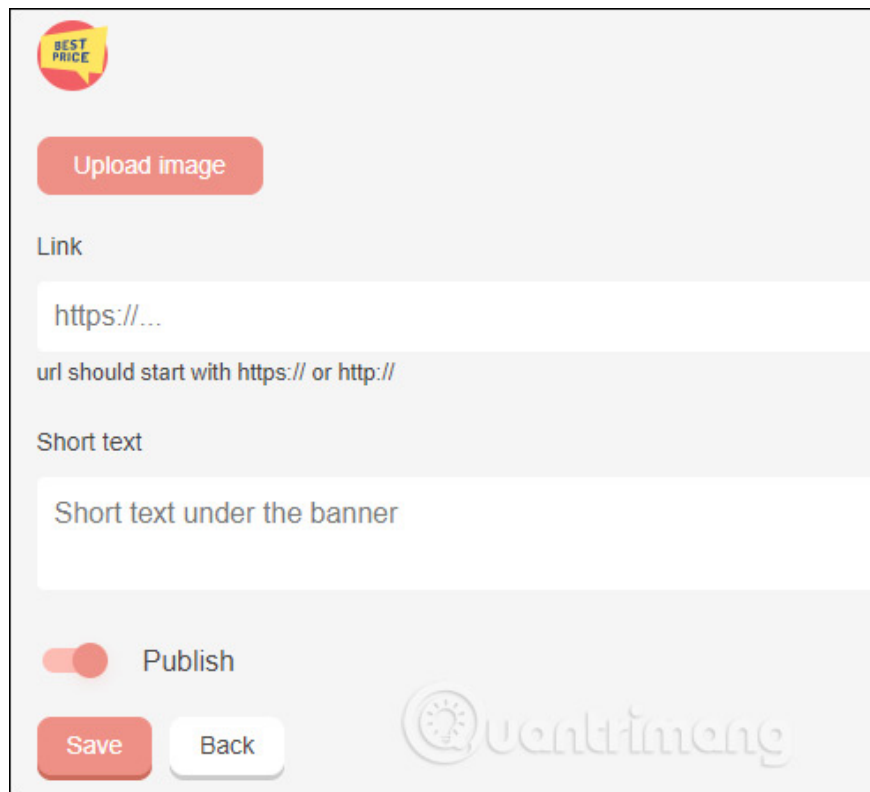

Video section will insert YouTube or Vimeo link to share.

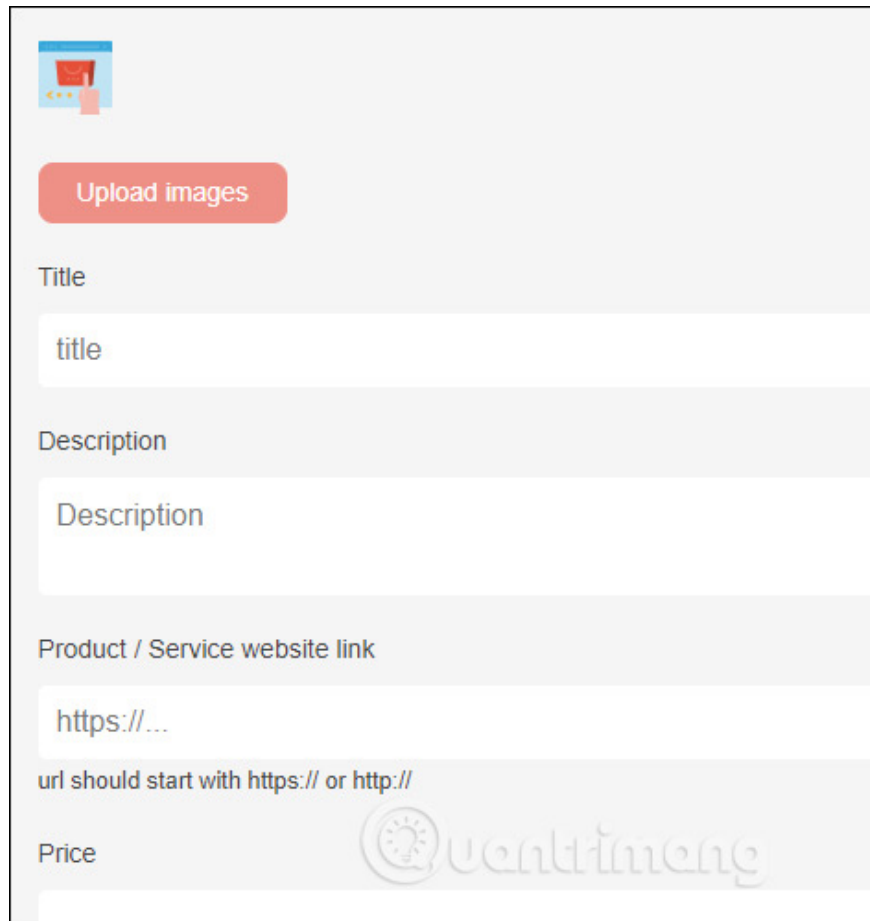

The Map section to share the location you want to post to the content sharing page.

Banner for sharing advertising content from a computer or via URL link.

Finally the **Store** to share photos of the item with price, description, .

The image shows a screenshot of a web form for creating content. At the top left, there is a small icon of a red envelope with a white checkmark and three yellow stars. Below this icon is a red button with the text "Upload images". The form has several input fields: "Title" with the placeholder text "title", "Description" with the placeholder text "Description", "Product / Service website link" with the placeholder text "https://...", and "Price". Below the "Product / Service website link" field, there is a note: "url should start with https:// or http://". At the bottom right of the form, there is a watermark logo for "Quantimeng" which consists of a lightbulb icon inside a circle followed by the text "Quantimeng".

Step 6:

Each shared content will display in the Admin page interface. When clicking on a shared content will display the interface again to change the content or click Remove to delete.

Title

quantrimang.com

Link

https://quantrimang.com/

url should start with https:// or http://

Short text

Trang Công nghệ - Khoa học- Cuộc sống

You can highlight this link by changing the color.

Change color

Publish

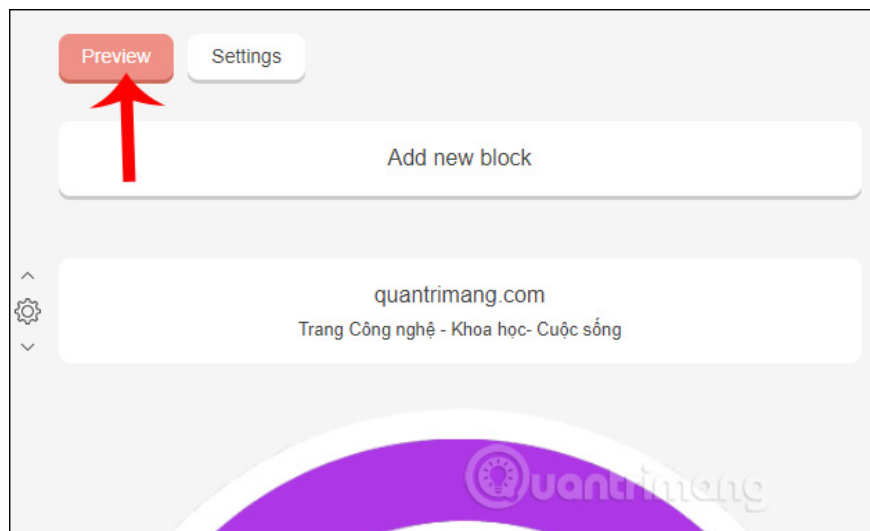

Save Back

Remove

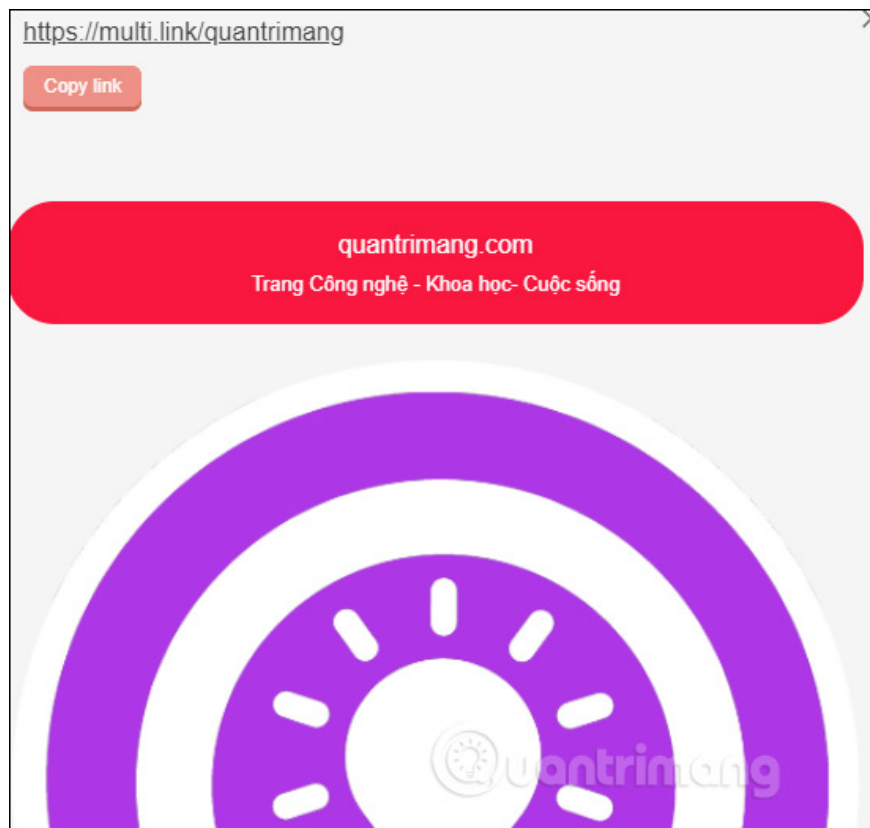

Quantrimang

Step 7:
