

How to use newspaper reading mode in the browser

Outline is a service that allows users to read newspapers on the browser in different ways, including through websites or browser utilities.

Reader mode is an extremely useful newspaper reader mode when users want to focus on certain document contents, when hiding unrelated content such as comments, related posts, etc. However on Chrome browser To use Reader mode, you need to install a utility, or support software.

With Outline, users can use Reader mode in 2 different ways, on the Outline homepage or via the browser utility. So users can freely choose how to use Reader mode on browsers.

1. How to bring Reading Mode to Google Chrome
2. How to turn on Reading Mode on Google Chrome
3. How to turn on Google Chrome's newspaper reading mode on Android

How to enable Reader mode on the web

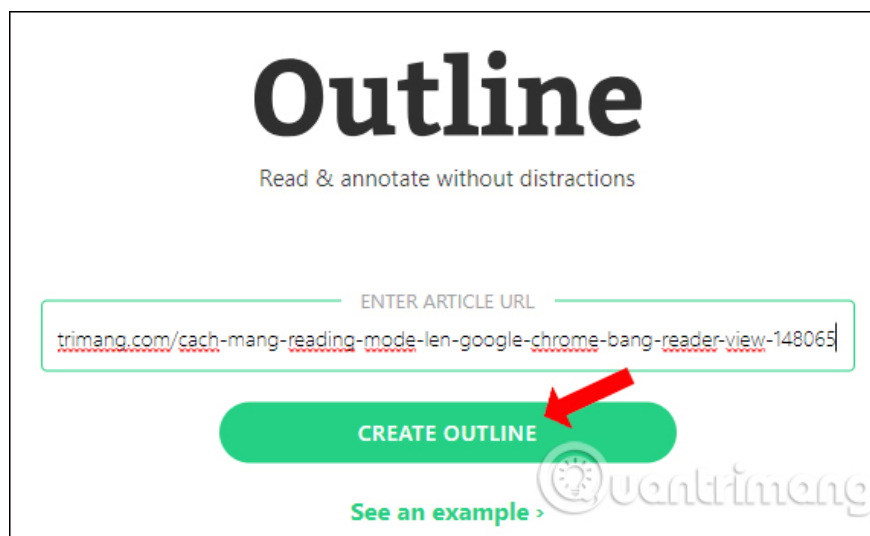

Method 1: Access the Outline homepage

Step 1:

We access the homepage of Outline with any browser under the link below.

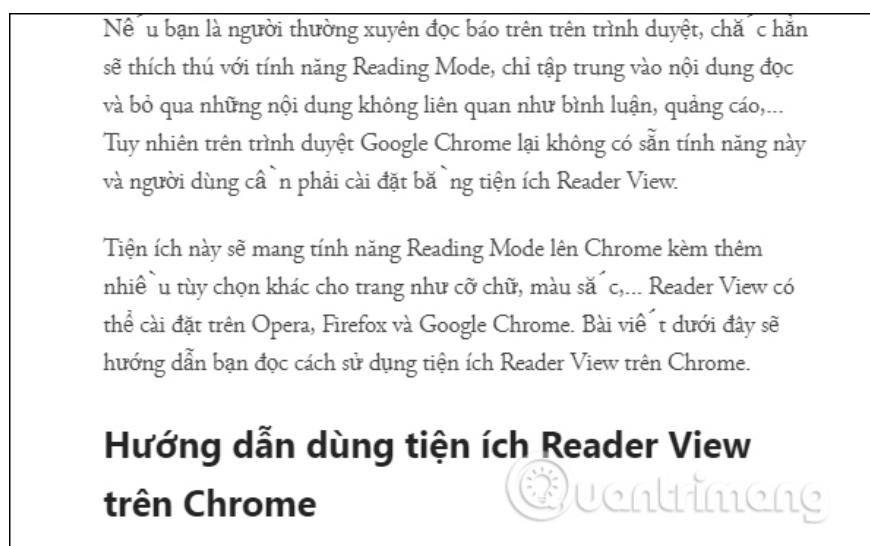

1. <https://outline.com/>

At the interface of the page **enter the article URL** you want to view in Reader mode and then click **the Create Outline button** below.

Step 2:

You will then be transferred to the content interface with black and white text to make it easier to see the content. Any content such as related articles, see more, especially ads will no longer appear.

When you scroll down the content will display the article link to send to others. When they access the link, the interface will read the content in Reader mode.

Step 3:

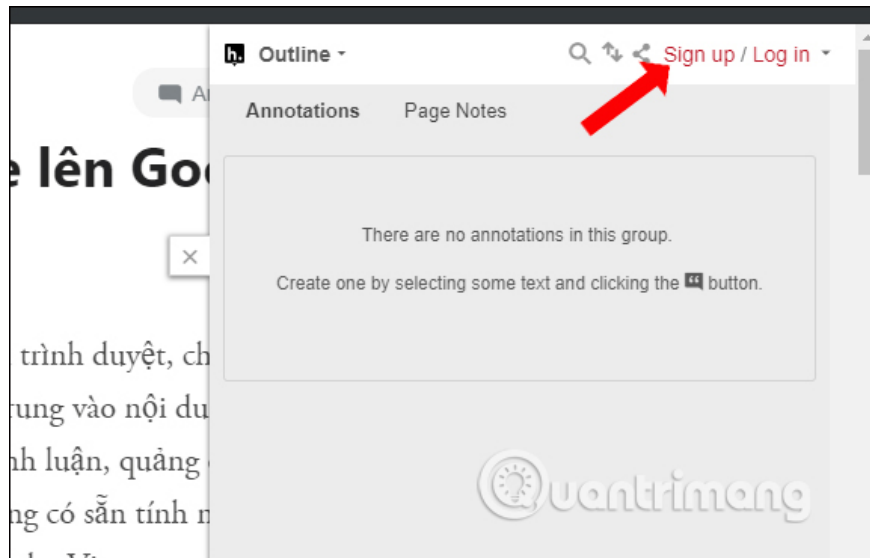

Besides, the service also provides marking mode (Highlight) and annotation (Annotate) on each word. But first you need to **create an account**. Click the **word Annotations** in the upper corner and show the management interface next to it.

Annotations

Reading Mode lên Google

ng xuyên đọc báo trên trình duyệt, chắc hẳn
g Reading Mode, chỉ tập trung vào nội dung đọc
ng không liên quan như bình luận, quảng cáo,...
ệt Google Chrome lại không có sẵn tính năng này

Click **Sign up** to create an account.

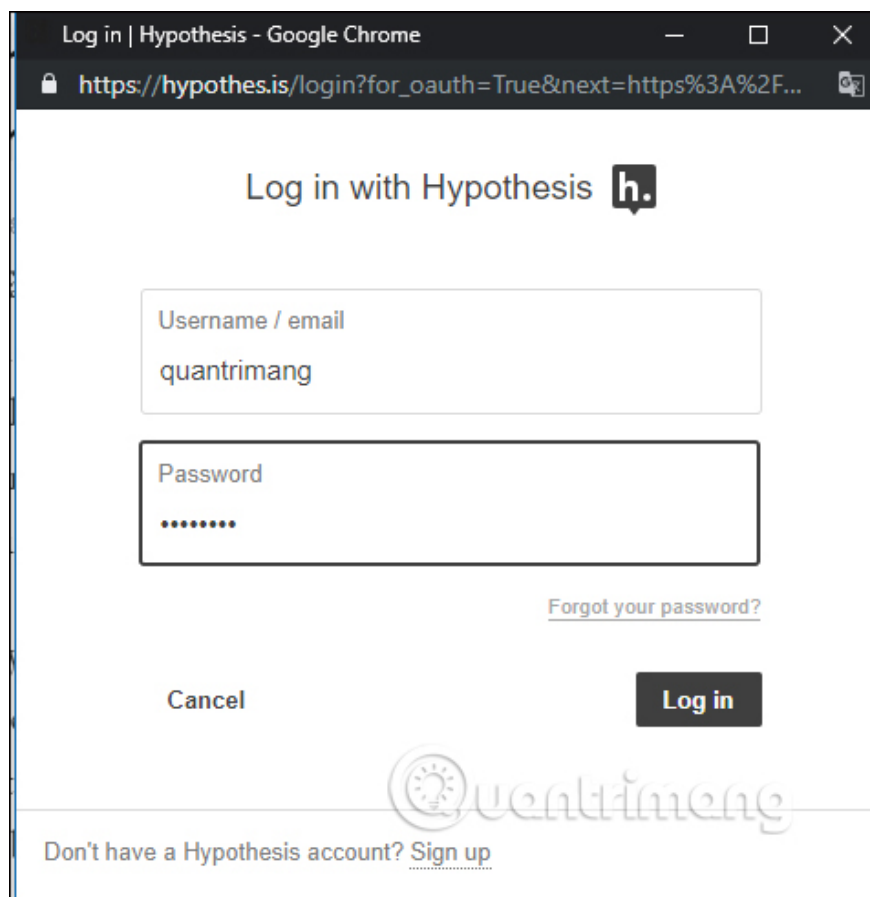

Step 4:

You will then be taken to the account creation interface with the **required information entered** . Click Sign up to continue. Users need to access the registered email address to receive **an account activation link** .

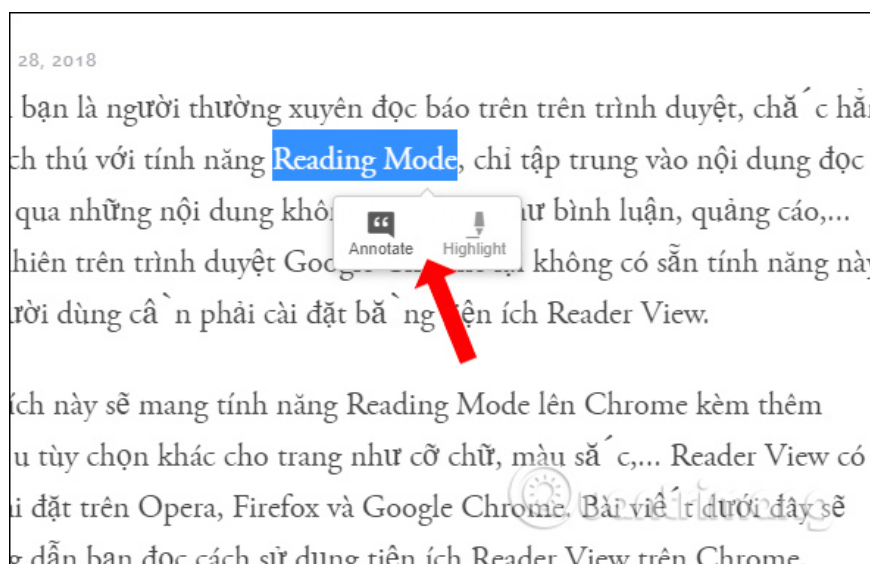

A screenshot of the 'Sign up for Hypothesis' form. It features three input fields: 'Username' (with an information icon), 'Email address', and 'Password'. Below the fields is a checkbox labeled 'I have read and agree to the [privacy policy](#), [terms of service](#), and [community guidelines](#).' At the bottom right, there is a dark 'Sign up' button, which is highlighted by a red arrow. The 'Quantimang' logo is visible at the bottom center of the form.

After activating, press the word Annotations again and click **Log in** to log in.

Step 5:

In reading content Reading mode blackens any word that will have a bookmark option and a note created for the word.

If **Highlight** is clicked, the word will be colored to pay more attention in the content.

n là người thường xuyên đọc báo trên trình duyệt, chắc hẳn thú với tính năng Reading Mode  trung vào nội dung đọc những nội dung không liên quan như bình luận, quảng cáo, ...

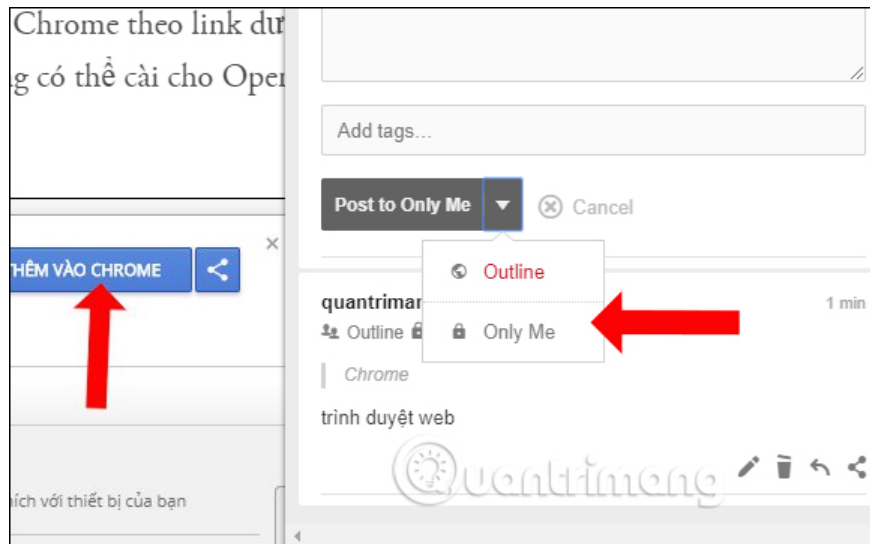

n trên trình duyệt Google Chrome lại không có sẵn tính năng này dùng cá nhân phải cài đặt bằng tiện ích Reader View.

này sẽ mang tính năng Reading Mode lên Chrome kèm thêm tùy chọn khác cho trang như cỡ chữ, màu sắc, ... Reader View có sẵn trên Opera, Firefox và Google Chrome. Bài viết dưới đây sẽ

If you press **Annotate**, the right interface will appear immediately to add a comment for the word. Here you can **add comments** , then use some additional formatting for the content.

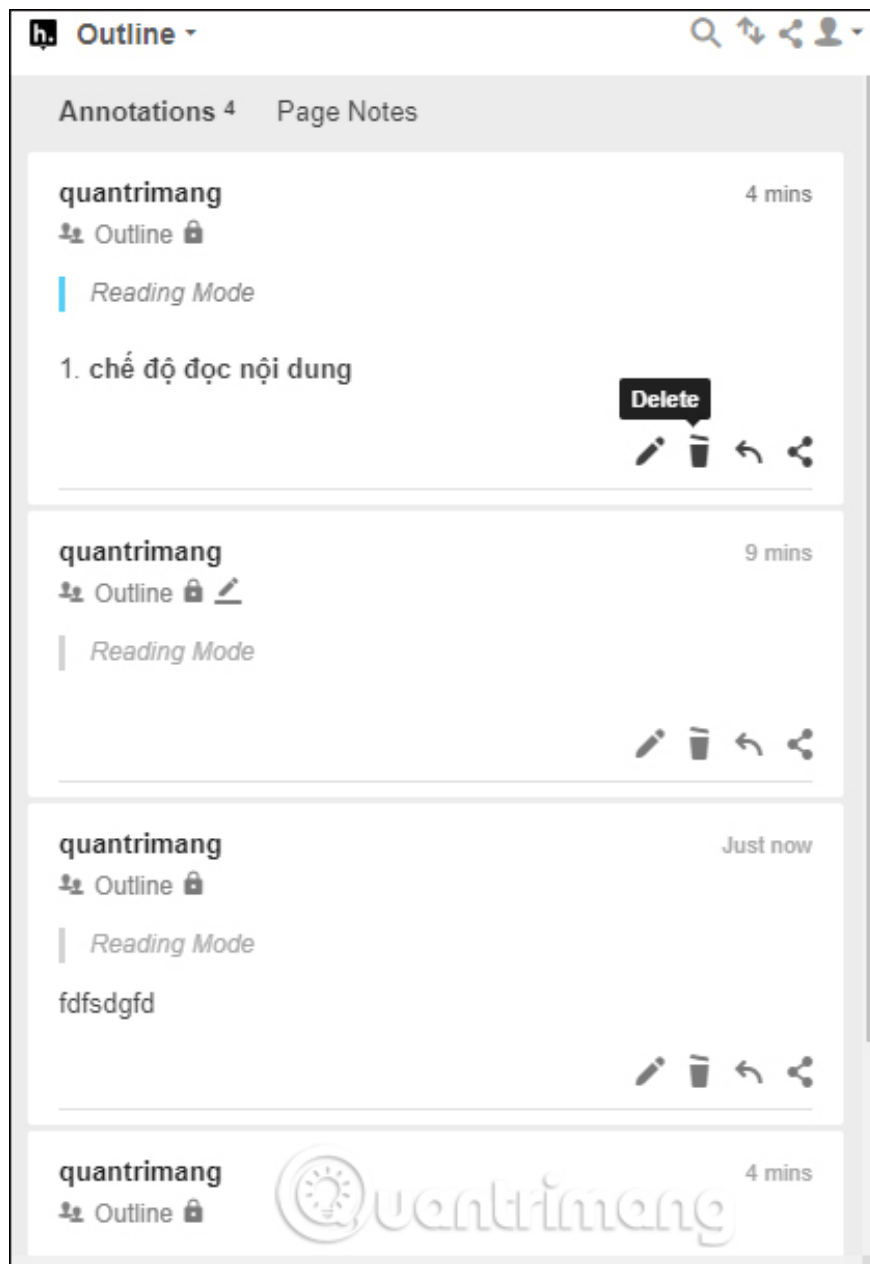

Below we can add tags for notes, choose public **posting mode** on the Outline or just you.

Step 6:

All bookmarks and notes will be saved as a list for editing and deleting. And this list will be saved when reopening the page.

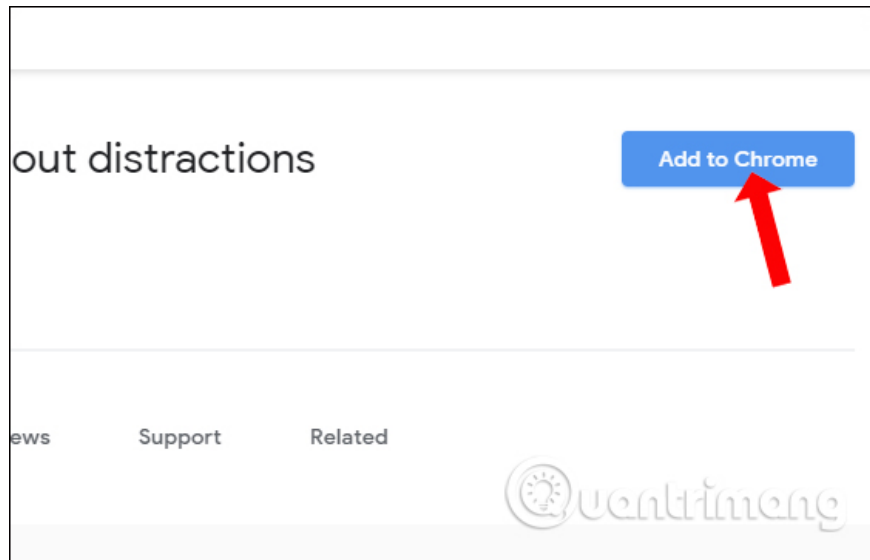

Method 2: Use the Outline utility on Chrome

With Chrome browser, if you want to use Reader mode immediately for content, you can install the utility.

Step 1:

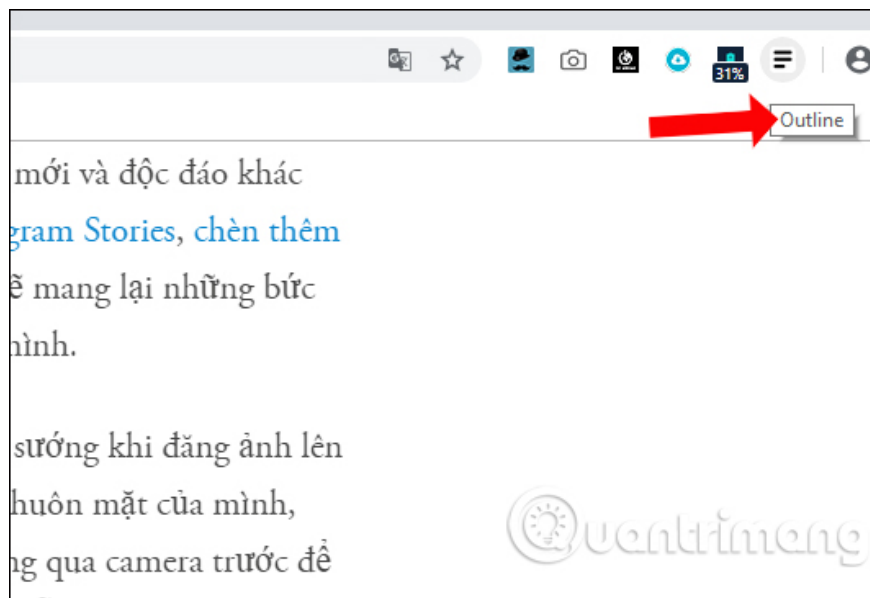

Users install the Outline utility according to the link below.

1. Download the Outline Chrome utility

Step 2:

Now if you want to read any web content just **click on the utility icon** at the address bar.

If you want to immediately move another track to Reader mode, just enter the URL into **the Enter article URL box** and press **Try it** to open another content interface right away.

With Outline we will have 2 ways to use Reader mode, which is via Outline homepage, or install utility with Chrome browser. The page content will be completely compacted, leaving only the main content. Users can still save images, watch videos as usual.
