II. What are Notes on Instagram?

Notes on Instagram are a new feature that allows users to share their thoughts with friends or family. These notes are typically pinned to the top of the Direct Message menu.

III. Some notes about the Notes feature on Instagram

- Notes on Instagram is an experimental feature and has only recently been rolled out to a select group of users.
- This is a place to share short notes of up to 60 characters, valid for 24 hours.
- You can only share Notes with close friends or mutual followers.

Besides the Notes feature on Instagram, you can also **enable data saver on Instagram** if you're using 4G, avoiding excessive mobile data usage and saving battery life. However, this will make video and image loading take longer than usual and the quality will be slightly reduced.
