

How to Use Office 2003 Menus and Toolbars in Microsoft Office 2007 and 2010

Both Microsoft Office 2007 and 2010 has embedded a new interface Ribbon, a panel that deploys and organizes all the commands as a set of tabs. In Microsoft Office 2007, the Ribbon is present in Word 2007, Excel 2007, PowerPoint 2007,...

Method 1 of 5:

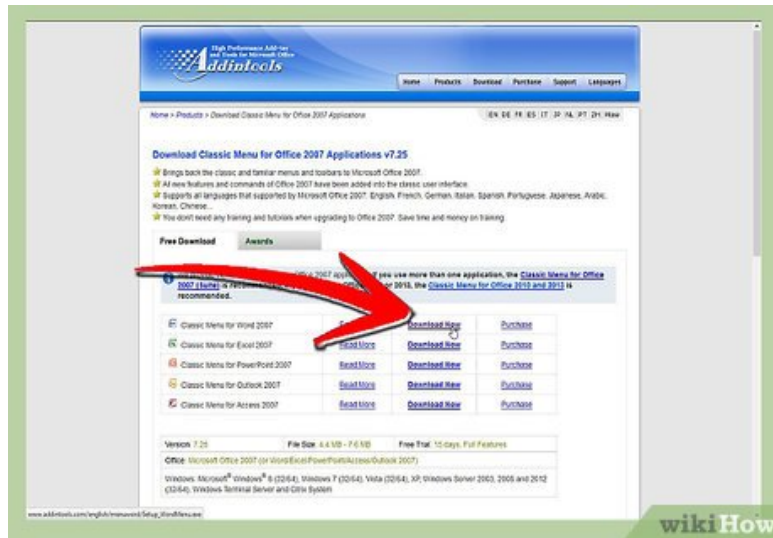

Using Classic Menu for Office of Addintools in Office 2007

1.

If you are using the Microsoft Office 2007, please go to download the Classic Menu for Office 2007 from [HERE](#).

1. If you only want to bring back the Office 2003 menus and toolbars in one of your Office 2007 applications, such as Word 2007, you can get the individual applications from [HERE](#).

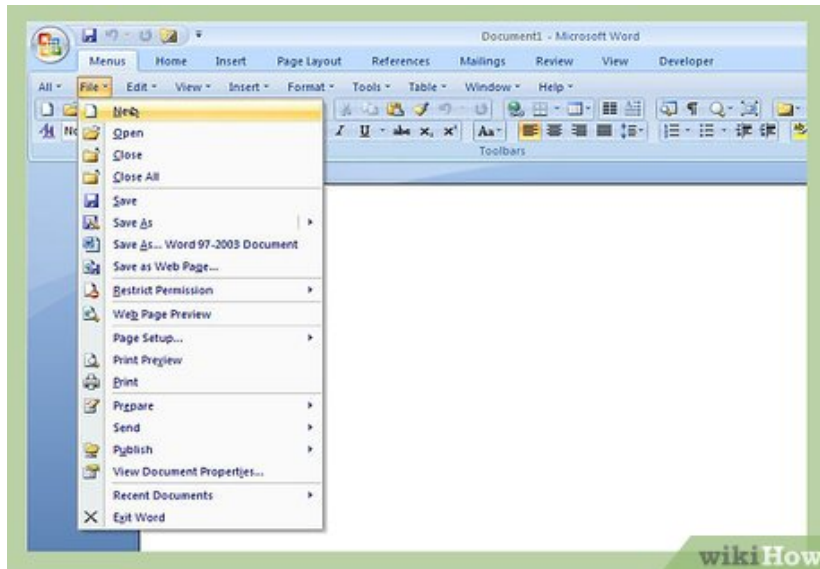

2.

Double click the installation package you have downloaded to launch the installation of the software step by step.

3.

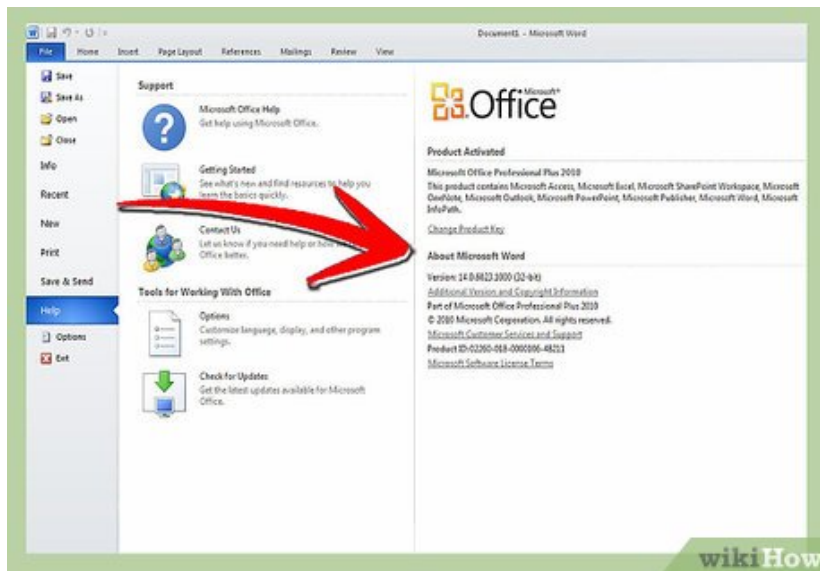

After installing the software, open you Word 2007, you will see there is a 'Menus' tab in the Ribbon.

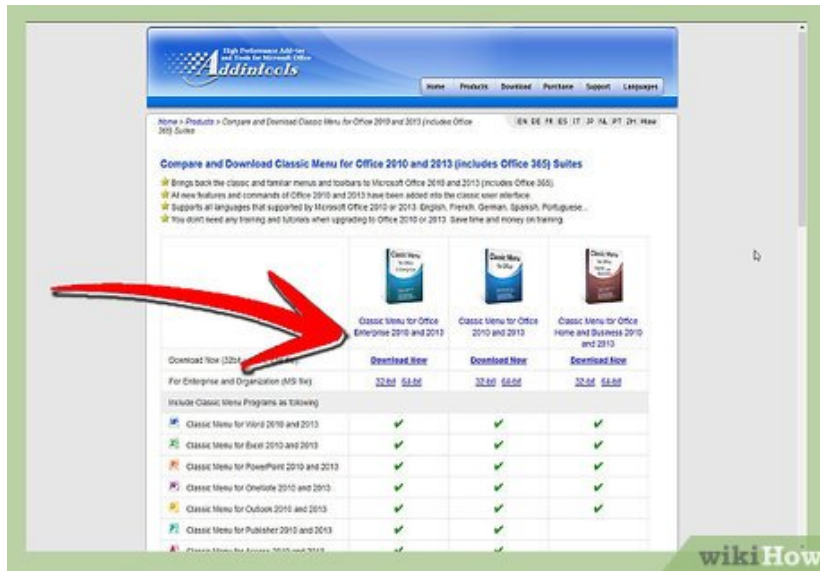

Method 2 of 5:

Using Classic Menu for Office of Addintools in Office 2010

1.

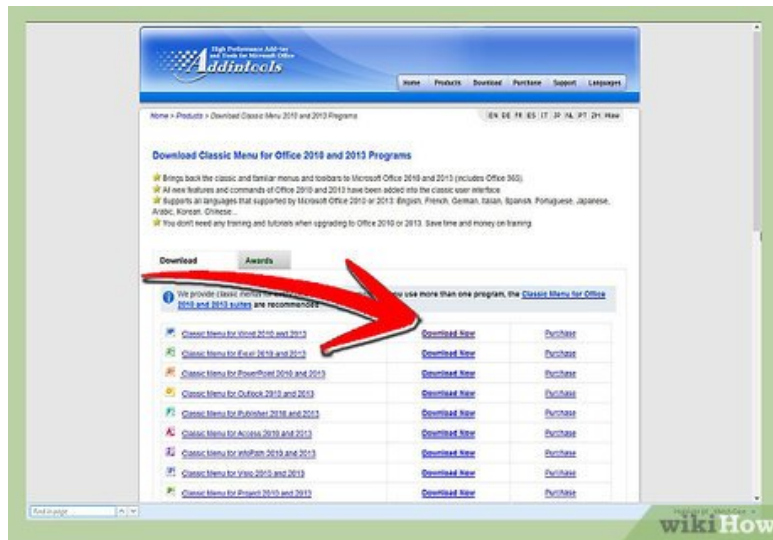

Go to check the bit version information of your Microsoft Office 2010 before downloading the Classic Menu from Add- in tools. Open your Word 2010, Click **File>Help** to open the **Help** backstage, you can read the bit version information of your Office 2010 in the Help backstage.

2.

If you are using the 64 bit Microsoft Office 2010, you should always go to download the 64 bit installation package from [HERE](#).

1. If you only want to bring back the Office 2003 menus and toolbars in one of your Office 2010 applications, such as Word 2010, you can get the individual applications from [HERE](#).

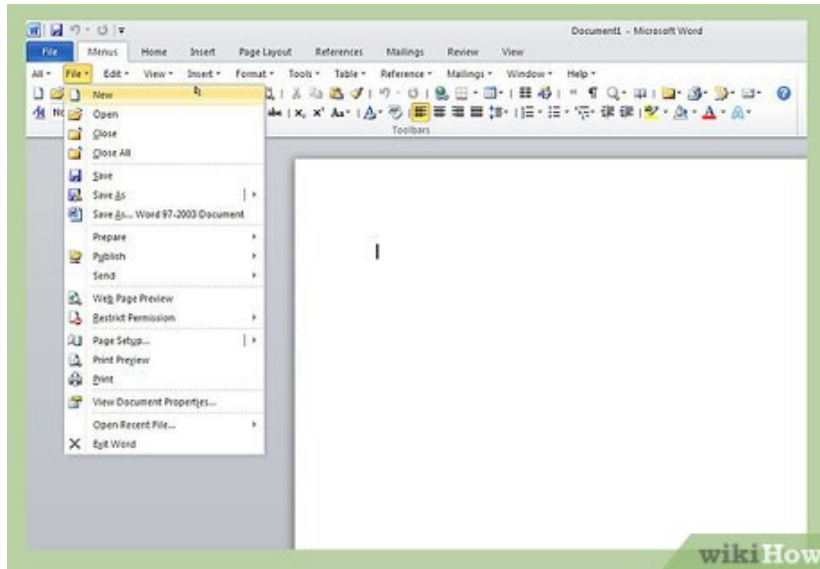

3.

Double click the installation package you have downloaded to launch the installation of the software step by step.

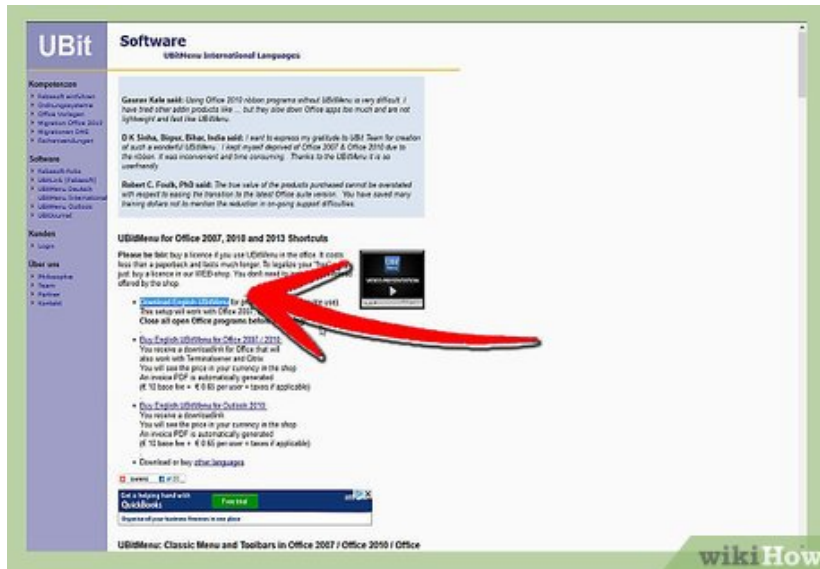

4.

After installing the software, open you Word 2010, you will see there is a 'Menus' tab in the Ribbon.

Method 3 of 5:

Using Ubitmenu in Office 2007/2010

1.

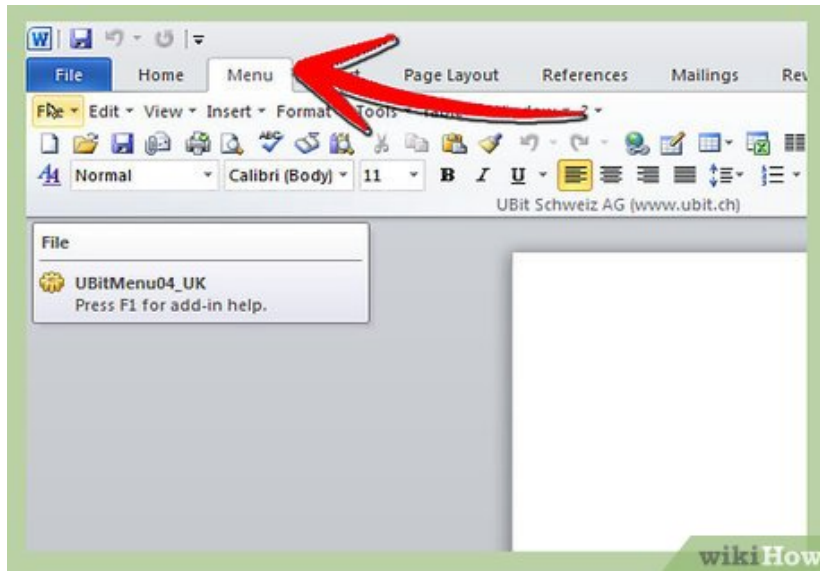

Go to choose the installation package from **HERE**.

2.

Double click the installation package you have downloaded to launch the installation of the software step by step.

3.

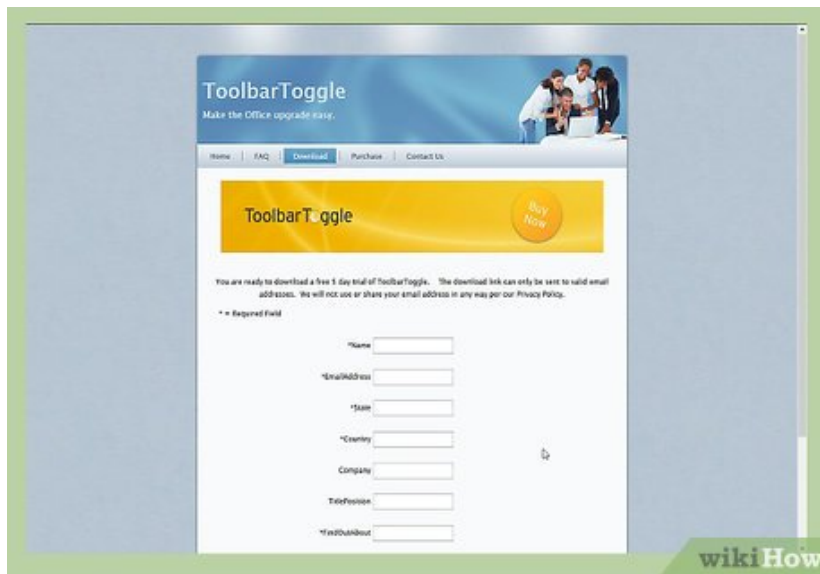

After installing the software, open you Word 2007/2010, you will see there is a 'Menu' tab in the Ribbon.

Method 4 of 5:

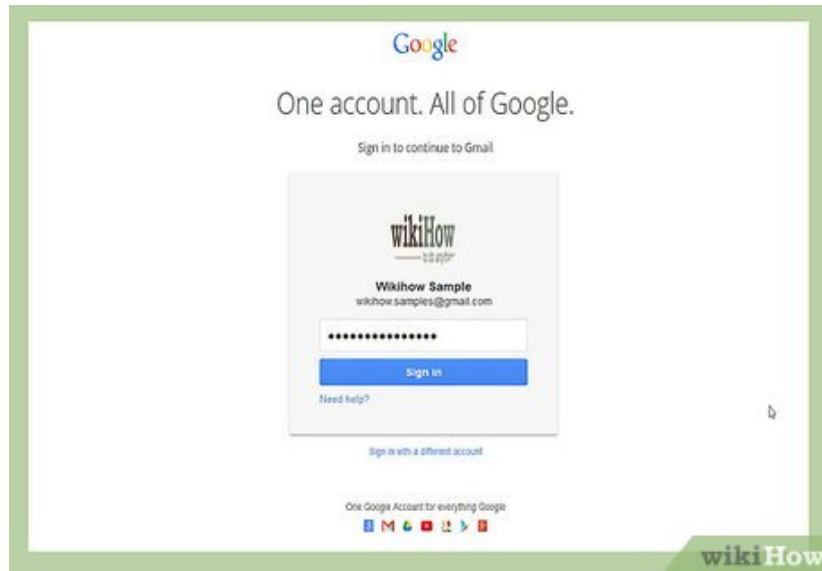

Using ToolbarToggle in Office 2007/2010

1.

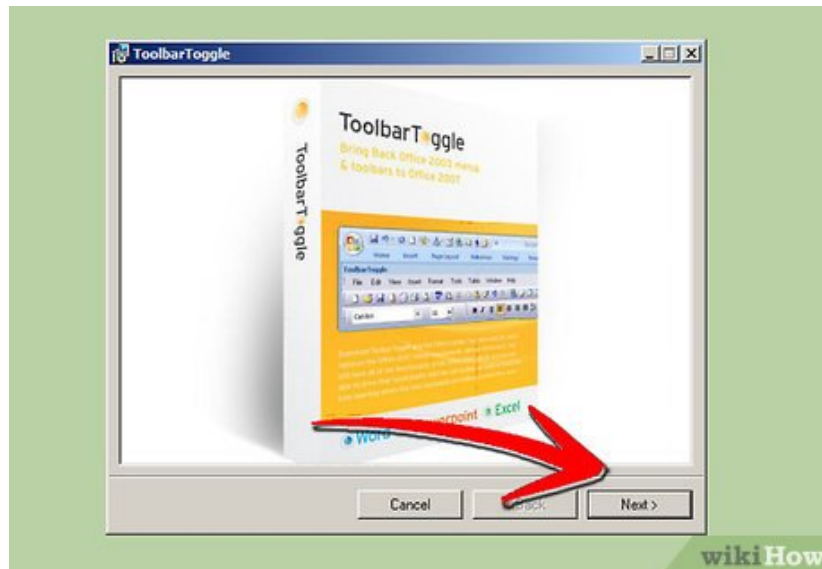

Go to fill out the form and submit to require a download link.

2.

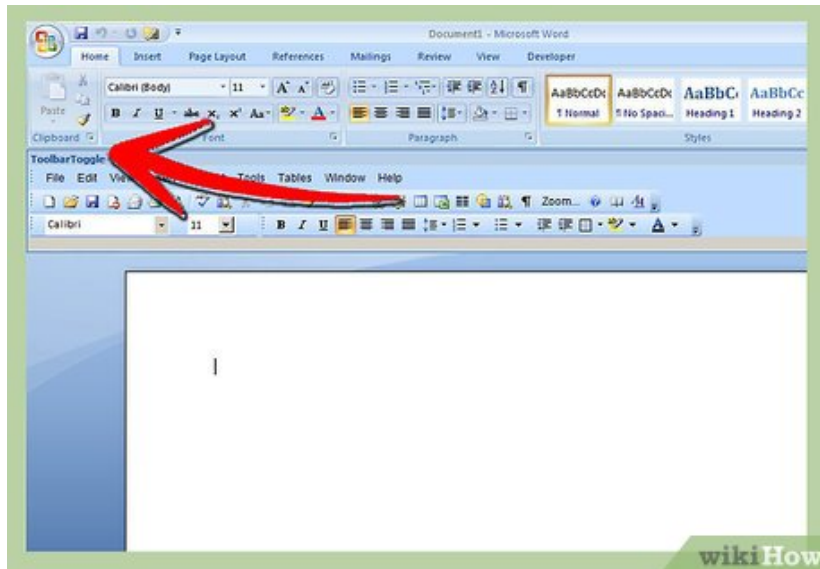

Log in the email account which you input to require the download link, and download the software from the download link.

3.

Double click the installation package you have downloaded to launch the installation of the software step by step. I spent almost more than 30 minutes to install this software! Please wait in patience.

4.

After installing the software, open you Word 2007/2010 (if you have downloaded the Word installation package of ToolbarToggle Menu).

Method 5 of 5:
