

How to use Photoshop CS5 - Part 24: Installing, sharing and using Photoshop Action

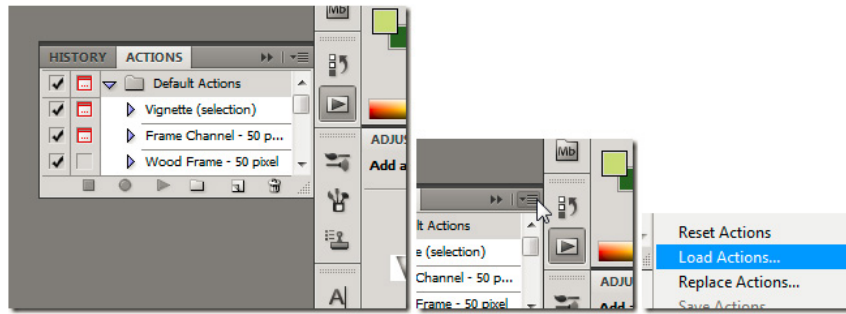

In the tutorial below, we will learn how to share and install Photoshop Action files - this feature allows users to easily perform the same operation on multiple photos. , all with just a few clicks ...

TipsMake.com - In the tutorial below, we will learn how to share and install Photoshop Action files - this feature allows users to easily perform the same operation. on many photos, all with just a few clicks . That's how to use it, but what if you want to save, share, or install other Action?

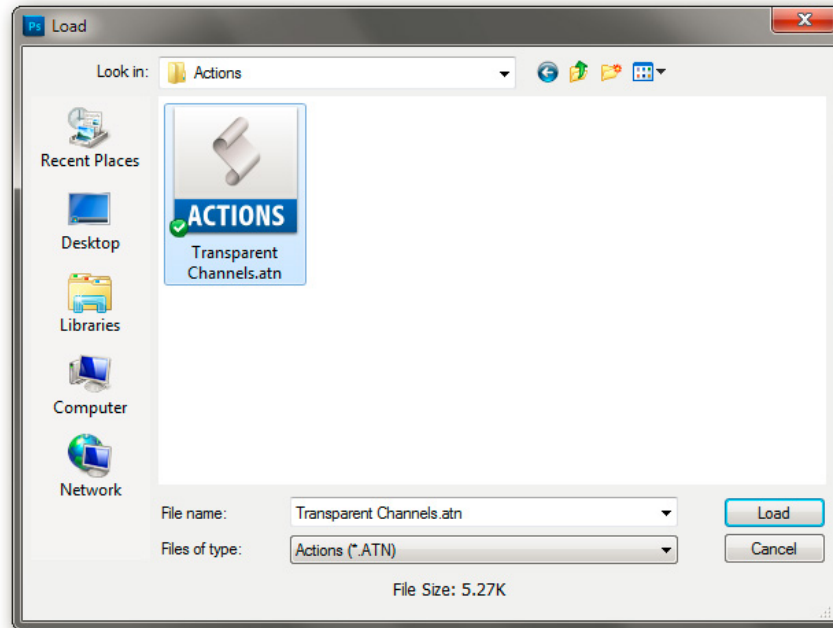

Assuming that we have a Photoshop Action file used to install it. Open **Photoshop> Window> Actions** , the main control panel of the **Actions Panel** will display. Choose next

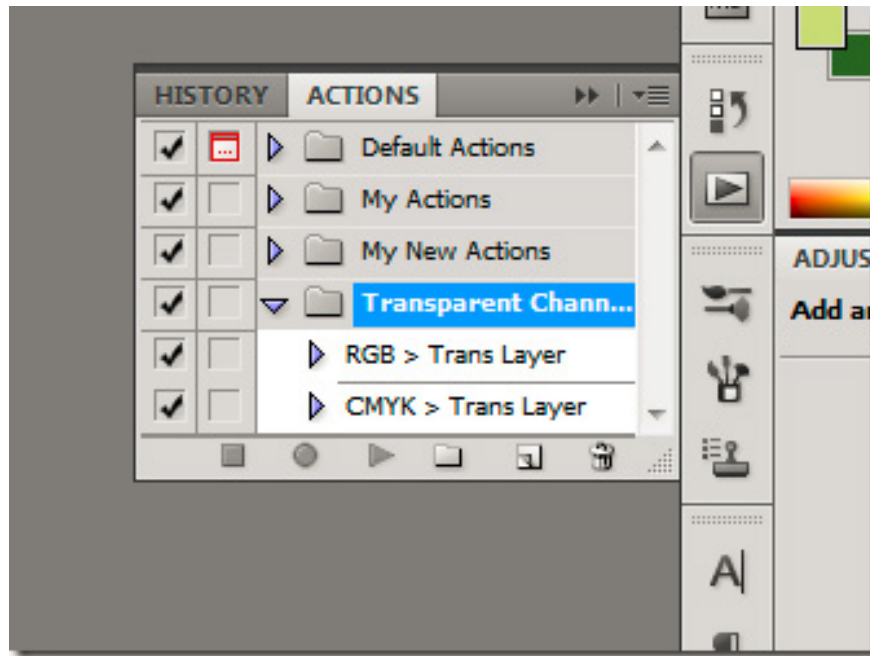

to open the **Menu** section and **Load Actions:**

Then, point to the folder where you stored the **Photoshop Action** file (* .atn) , select and click the **Load** button:

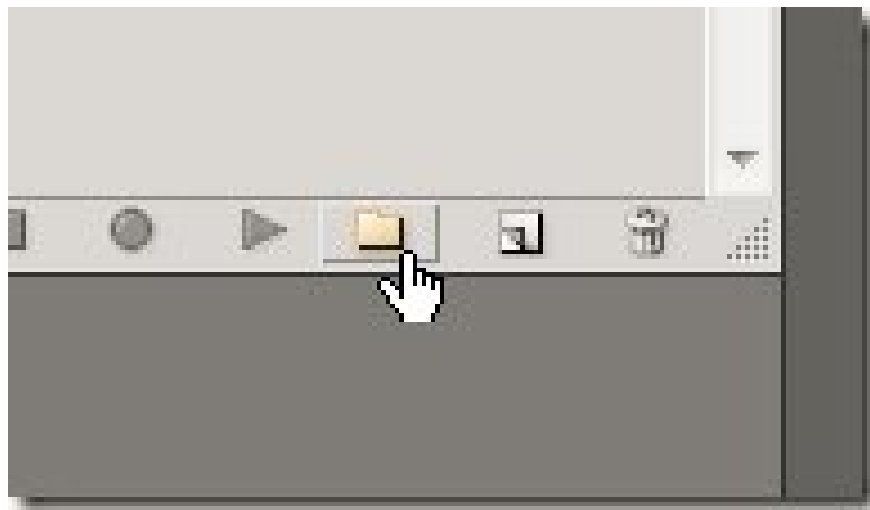

Note that you can save this * .atn file in the default Photoshop folder (**C: Program FilesAdobeAdobe PhotoshopPresetsActions**) or inside **Dropbox** to share. Then, reopen the program, you will see the new **Action** displayed as follows:

Extract and share Action files:

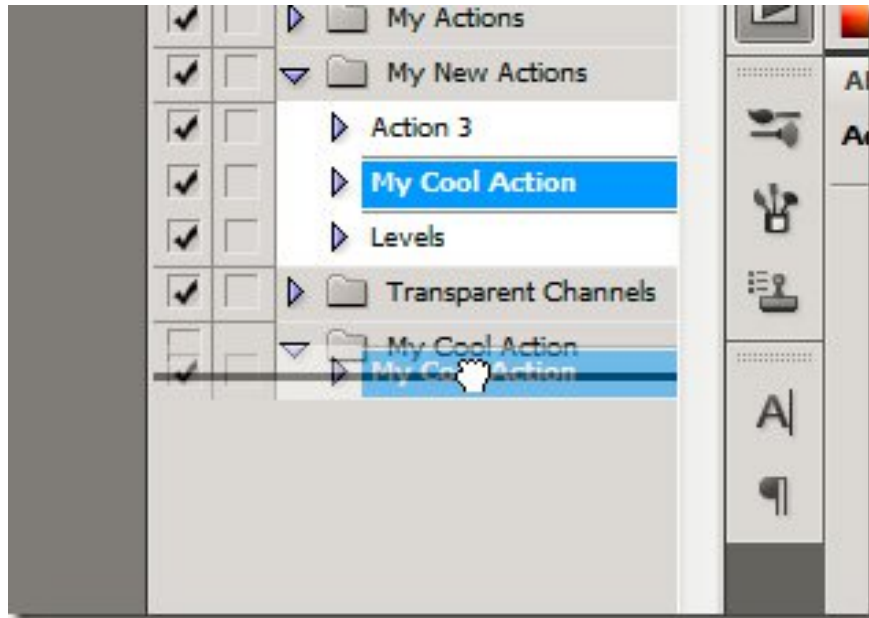

In other cases, if you want to share your favorite Actions with friends or other colleagues, follow these steps. Photoshop only supports saving multiple actions at a time, and cannot be applied to individual actions. Therefore, create a new one by clicking the **New Set** button as shown below:

Name the newly created set:

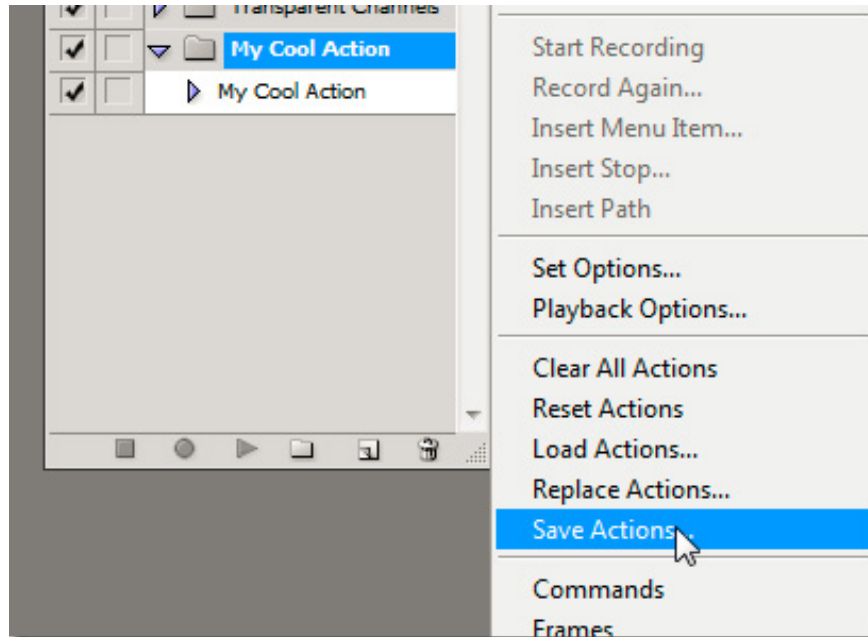

Then, just drag and drop the action to save to the new set folder:

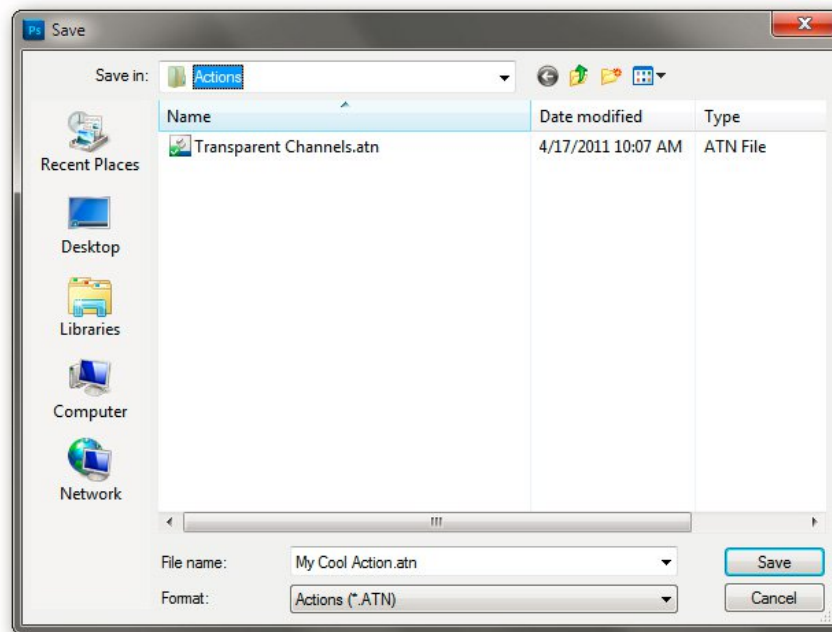

Continue, press the button with the icon

and select **Save Actions** in the menu that displays:

And finally, name this **Action** file:

Now you can easily share with anyone, all with just a few simple and easy steps. Good luck!
