

How to use Restyle AI on Instagram to change outfits

Meta is rolling out an AI feature called Restyle that can alter any image you upload and change many different aspects of that image, including changing the outfit.

Instagram has integrated AI into the app to create AI chatbots for AI characters in conversations. Now Meta is rolling out an additional AI feature called Restyle. This feature can change any image you upload and change many different aspects of that image including changing the outfit. Here is a guide to using Restyle AI on Instagram to change outfits.

How to use Restyle AI on Instagram to change outfits

Step 1:

We access **Instagram Story** , then **upload our portrait photo** . Continue to click on **the 3-dot icon** in the top right corner of the interface and **select Restyle** in the displayed list.

 Label AI

 Save

 Turn off commenting

Add a caption...

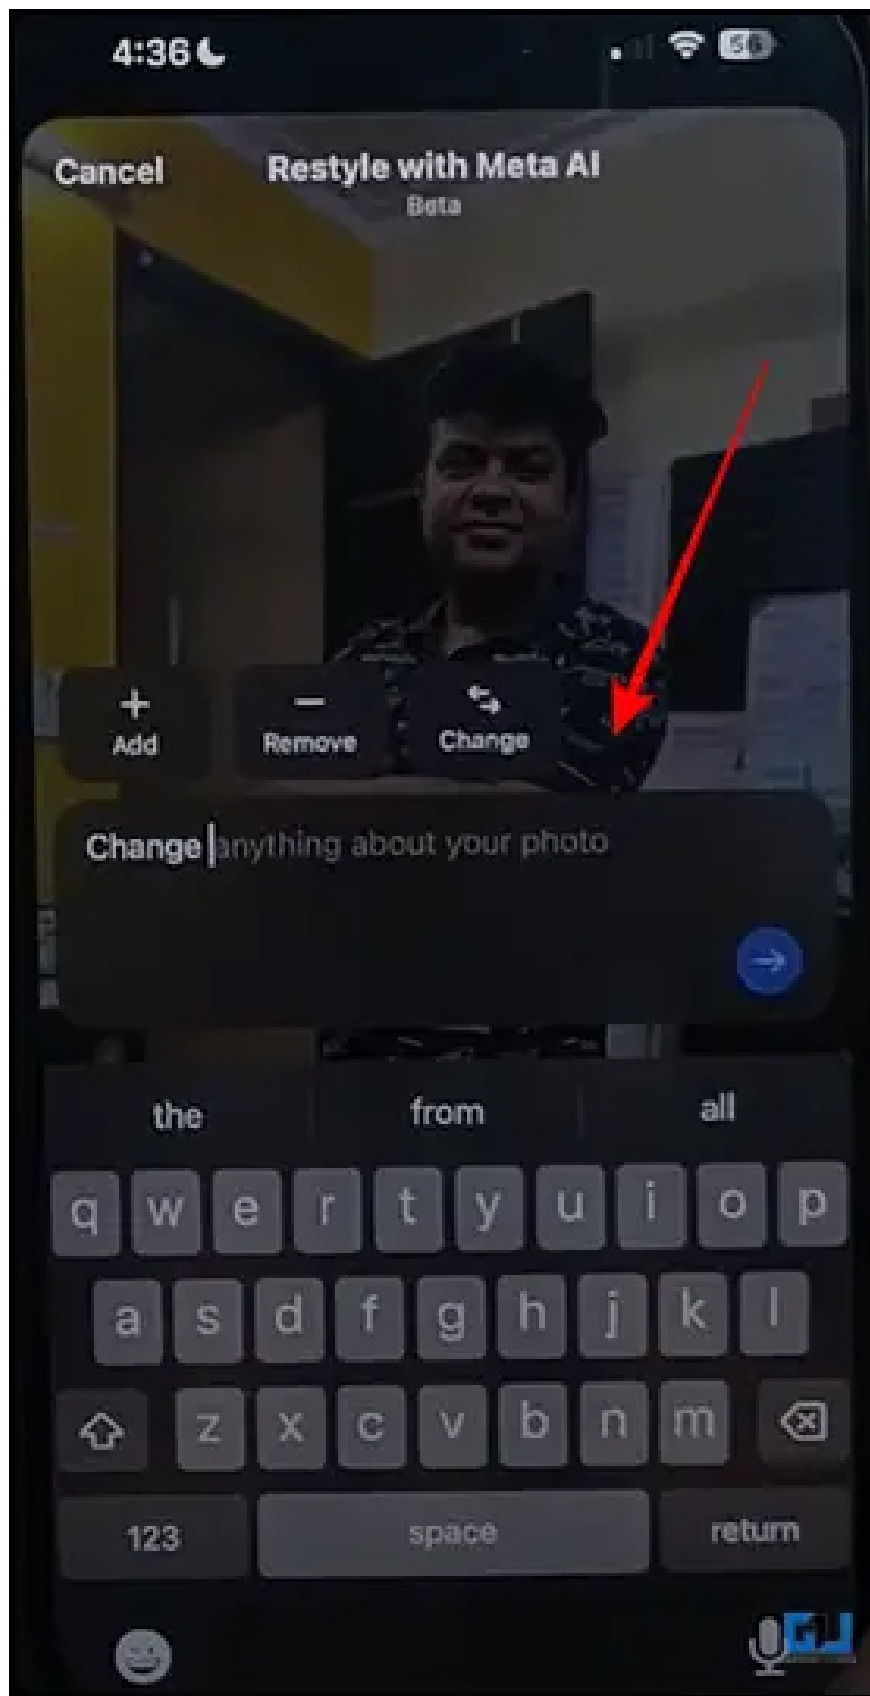

Step 2:

Below you will see **3 options to edit and change the style** of the image including Add, Remove, and Change. Click on the option you want to use.

Step 3:

After selecting the change you want, for example Change, you **enter the request you want to change** and submit as usual.

As a result, we get an image with a style change of our own. Finally, we post it to Instagram Story as usual.
