

How to use Send Secure to share confidential files

Send Secure shares files online by horizontal protocol without registration account.

P2P peer-to-peer file sharing protocol is used by many technology companies for their file sharing application. Send Secure is a new file sharing service in the form of peer-to-peer P2P network for sharing operations, as well as simpler file-receiving process without account registration. Security issues are also emphasized by Send Secure, when the users do not need to download files to an intermediary server or cloud, avoiding the disclosure of personal data. The file is downloaded immediately when the file recipient has a shared link. How to use Send Secure online file sharing will be in the article below.

Instructions for sharing files on Send Secure

Step 1:

Users access the homepage of Send Secure according to the link below.

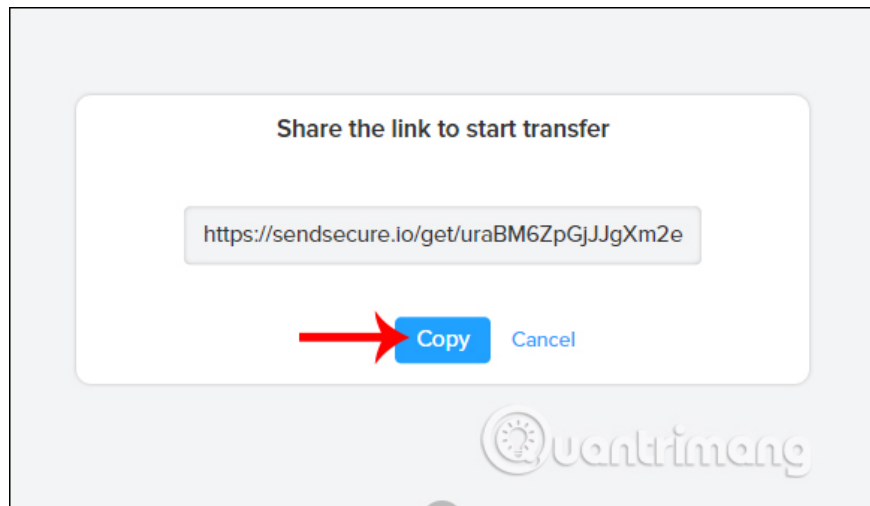

<https://sendsecure.io/>

At the page interface you click on **Select a file** or drag and drop files to Send Secure interface to share. Currently we are only allowed to download 1 file in 1 sharing. File sharing format to Send Secure is not limited, using a large amount of file downloads can download files over 300MB.

Step 2:

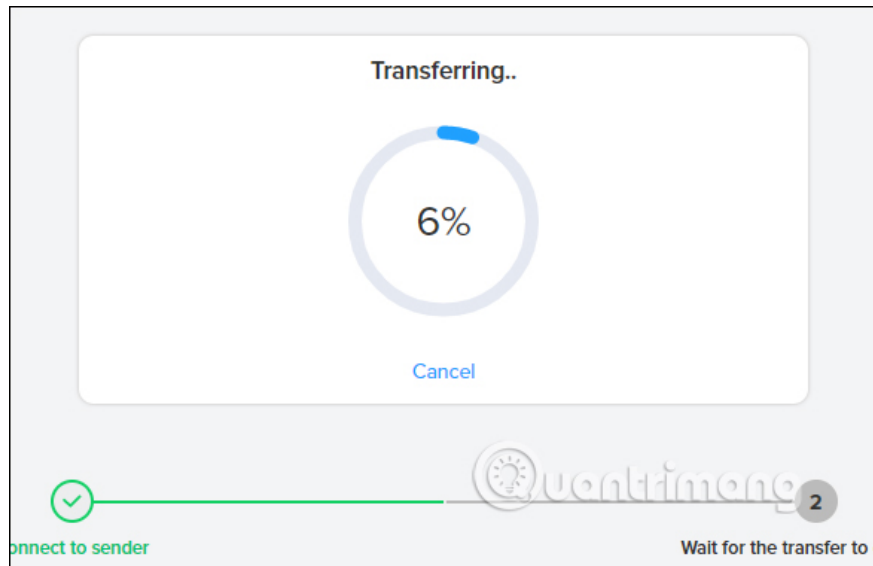

Immediately the user receives the file sharing link, **click Copy** to copy this link and send it to the person you want to share.

Step 3:

The link recipient copies the shared link to download the file. The file sharing process takes place shortly thereafter. During the sharing process both the sender and the recipient cannot close the Send Secure interface. When the file is downloaded 100% will automatically be saved by the downloader of the browser.

Find the folder to save the downloaded file and click Save.

The file sharing process on Send Secure is very simple and does not have much action when done. During the sharing process you need to open the interface until the download is completed. If when transferring a file that either of the two parties press Canel, the file transfer process ends immediately.

I wish you all success!
