

How to use Shazam to find songs according to words

You can find music by words with just a few simple steps in Shazam application

You overheard a good song, and you want to find the title of the song to save on your iPhone or Android. If that song is Vietnamese, then you can easily search, because just typing the song that you hear clearly on Google is easily found.

But if the song is "foreign goods" then the search will not be easy. If it is English and you are good at this language, the search is not too difficult. If the song has a different language, you have to ask the application to find the song through Shazam lyrics.

With Shazam you can find music in the easiest way, just a few tapes, you can find the lyrics easily. If you haven't used Shazam to find the lyrics of the melody you can see below this article.

3. How to delete duplicate songs on iTunes

How to find songs by words on the phone with Shazam

Step 1: First download the Shazam application on your phone, start up and click on the icon Shazam logo as shown below.

If there is a message Shazam wants to access your Micro, click **OK**.

Library

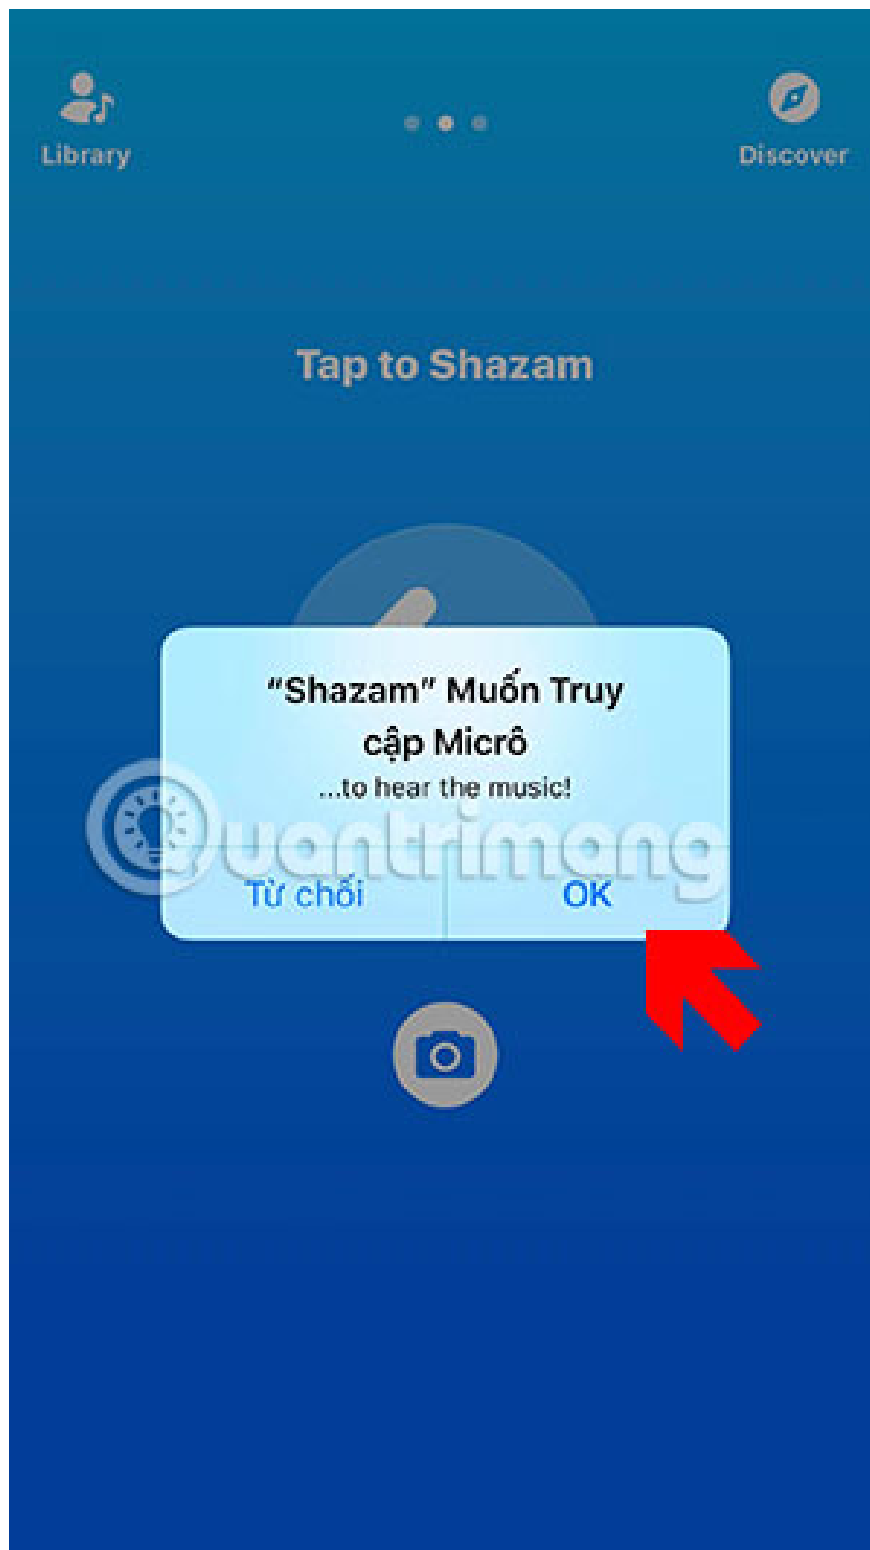

Discover

Tap to Shazam

Quantrimang

Step 2: Next when you have access to your microphone, let your phone close to the sound source. For the application to listen to a full piece of music, the interface will be transferred to the searched song.

You can click **Open in Apple music** to open the music found in Apple Music.

Listening

Click **Go To Library** to enter the music folder on Apple Music. If the song has a different language, use Google Translate to translate words through images. Remember to take a picture with the name of the song.
