

How to use Siri Shortcuts to manipulate quickly and smartly on iPhone

iOS 12 lets you create Siri (Siri Shortcuts) shortcuts for commonly used tasks on iPhone / iPad and make them work faster. Find out more about this feature.

iOS 12 allows you to create Siri (Siri Shortcuts) shortcuts for commonly used tasks on the iPhone or iPad and make them work faster. Find out more about this feature.

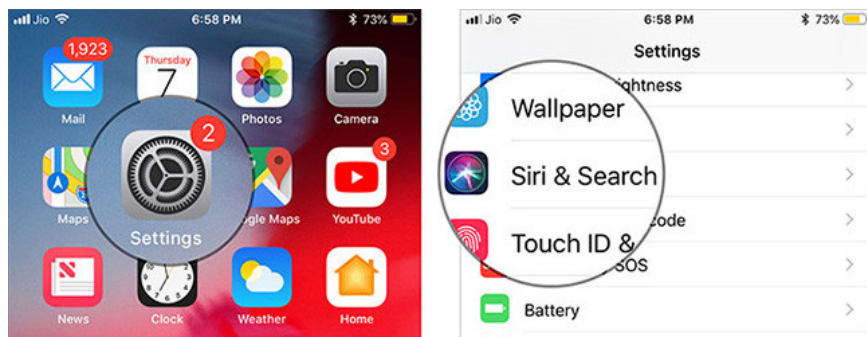

How does Siri's shortcut work? It allows you to connect frequently used tasks with a specific phrase. You just need to say that phrase to Siri, immediately the virtual assistant will take you to the usual task.

For example, if you go to TipsMake.com, just give it a name, for example, when you say IT to Siri, the virtual assistant will quickly open the website and you no longer have to open it yourself. Browse and type the site name in.

1. How to turn off Siri on iPhone, iPad

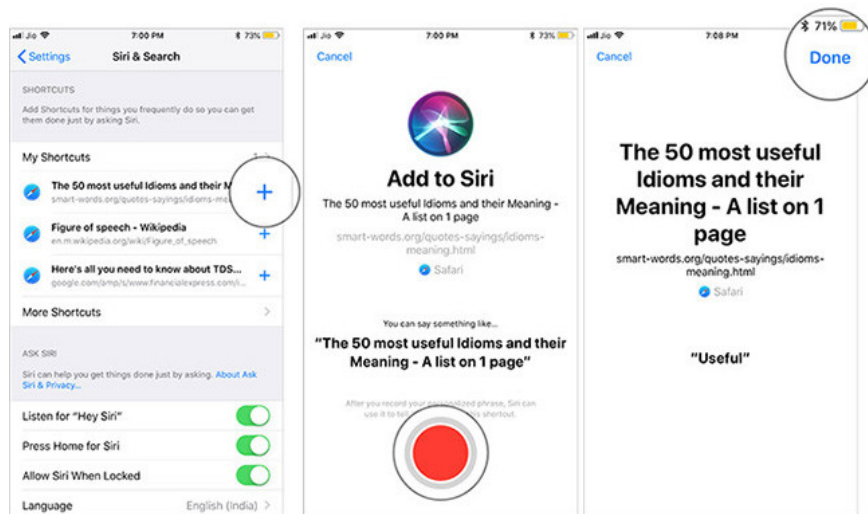

How to create Siri Shortcut in iOS 12:

Step 1. Open the **Settings** app on your iOS device ? touch **Siri & Search** .

Step 2. Next, you will see some suggestions about the actions you have taken recently.

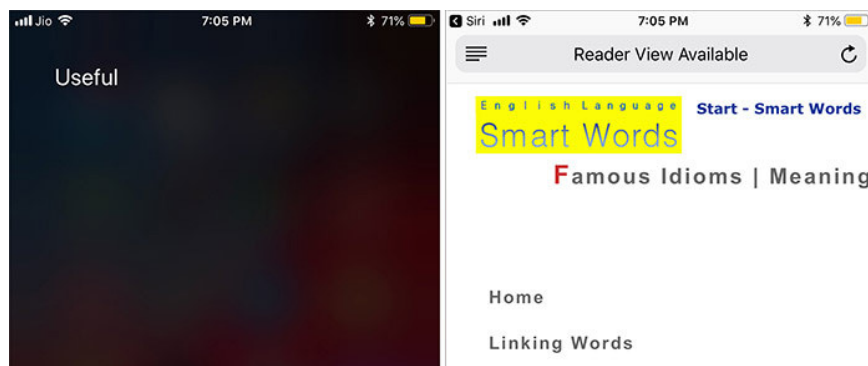

Select the action you want to create Shortcut, click on the '+' button next to the suggestion. Then, record the set phrase as a representative by pressing **the record button** and speaking the phrase (Note: the phrase must be in English). Perform the phrase twice. Once done, click **Done** at the top right to confirm.

Besides, you can click More Shortcuts to create phrases for specific actions such as viewing photos, sending messages to someone, etc. Just touch the '+' button next to the proposed action then record phrase sounds and confirmations.

How to use Siri Shortcut to perform tasks

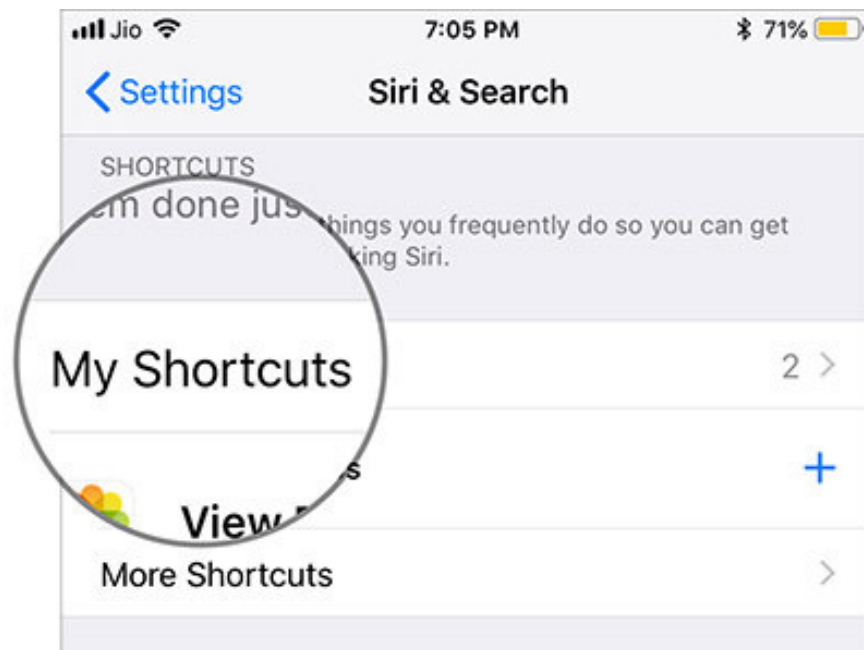

After creating a shortcut for action, you just need to call Siri and say that phrase. In the example, the phrase **Useful** was set as a shortcut to access **the 50 most useful idioms and the meaning of their meaning**. So if you say Useful with Siri, it will take you directly to that site.

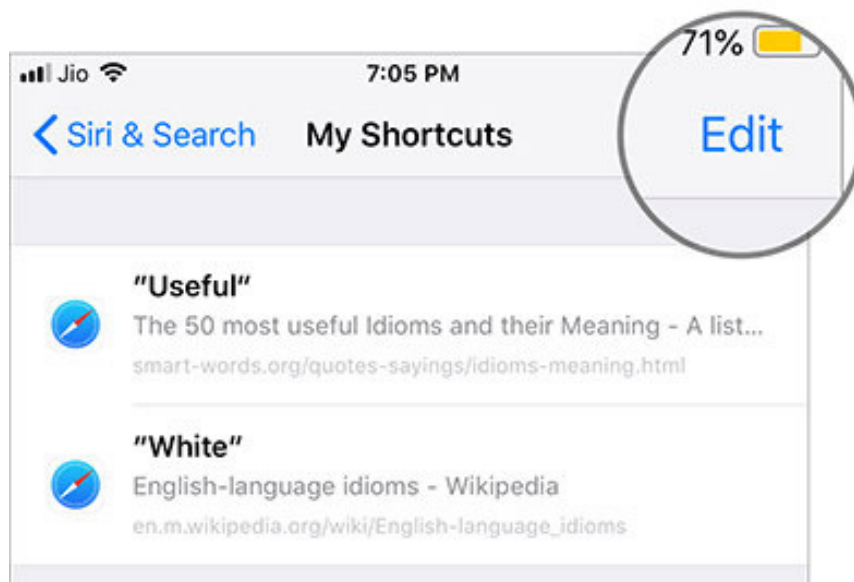

How to delete shortcuts in Siri on iOS 12

If you no longer want to use that term, you can delete it

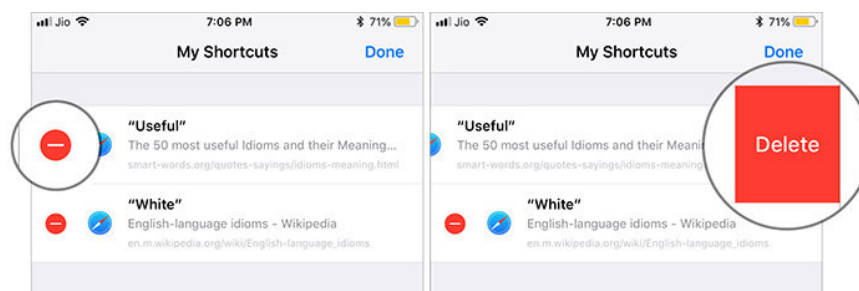

1. Open the **Settings** app ? touch **Siri & Search**
2. Now, click **My Shortcuts**

1. Click **Edit** at the top right.

1. Click the red button on the left of the phrase then press **Delete** to confirm.
