Instructions for using smoke bombs in PUBG

First you need to have at least 1 smoke bomb in your backpack and use the 5 key to throw. There will be 2 ways to throw smoke bombs.

1. To throw away, click the left mouse button and hold down the left mouse button and select the corner, select the position you want to throw then release.
2. To throw near the right click, drag and hold the mouse to select the corner, select the position to throw.

The player can press the R key to reduce the time to take effect of the bomb. Even if you press the R key and do not throw the bomb, you will not be reacted and will not harm yourself.

1. Run with smoke bombs

For locations where there are no obstructions, you can use smoke bombs to distract the enemy, find loopholes to defeat the enemy. You can use some smoke bombs to make the bo simpler.

2. Relief teammates

When you play team mode, smoke bombs will be extremely helpful. A team can pick up about 10 smoke bombs and use them when surrounded by enemies. We can throw 1, 2 smoke bombs around our comrades to aid, avoid throwing bombs at the enemy to save lives for our teammates and ourselves.

3. Hide and wait for the opportunity

If you face a lot of enemies, throw smoke bombs. So there will be time for you to find shelter, waiting for the chance to take down the opponent.

4. Attack the enemy

As mentioned above, smoke bombs are useful in places where there are no obstructions. When the player wants to attack in an empty position, use a smoke bomb to cover the view of some other directions. So you or your team can focus on one direction.

Not only guns but also other weapons have their own strengths. The important thing is that gamers must know how to take advantage, as well as use them accordingly, at the right time.
