

How to use sticker Activity on iPhone

With iOS 12 beta 3, you can use Activity labels in the Messages application. This sticker will make your conversation more interesting. Follow these steps to share your Activity Activity sticker in the Messages application.

With iOS 12 beta 3, you can use Activity labels in the Messages application. This sticker will make your conversation more interesting. Follow these steps to share your Activity Activity sticker in the Messages application.

Currently, you can only use 11 Activity stickers (walking, running, swimming, cycling, wheelchair movements and other motions). All of them are designed to allow you to communicate different activities. For example, if you are swimming, you can choose a sticker with swimming activity.

Note: This feature is currently only available on beta 3 for developers. So make sure your device has this new version installed.

How to post a paste of Activity in message for iOS 12

Step 1. Open the Messages application on your iOS device.

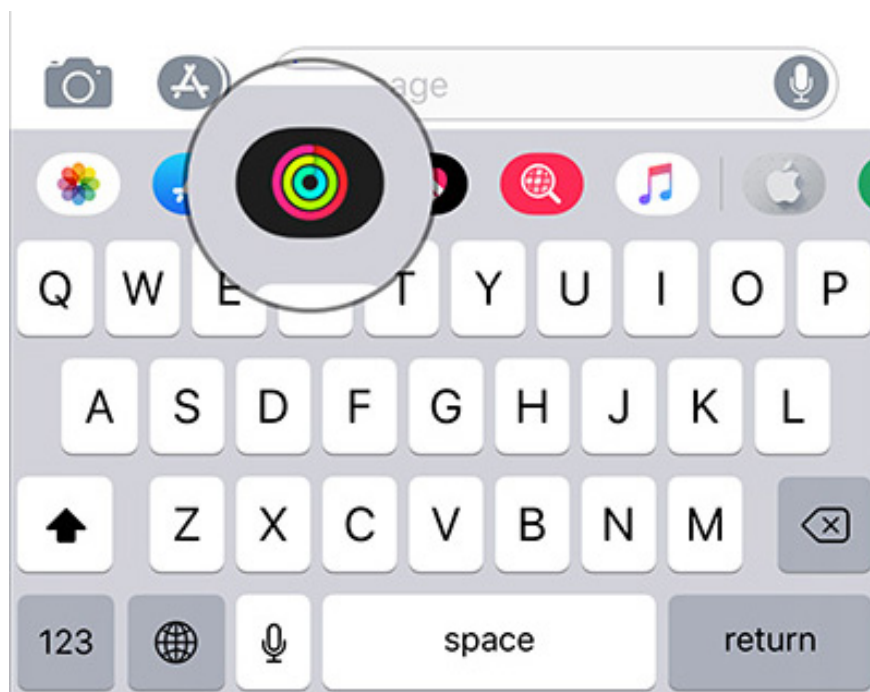

Step 2. Now, choose any conversation.

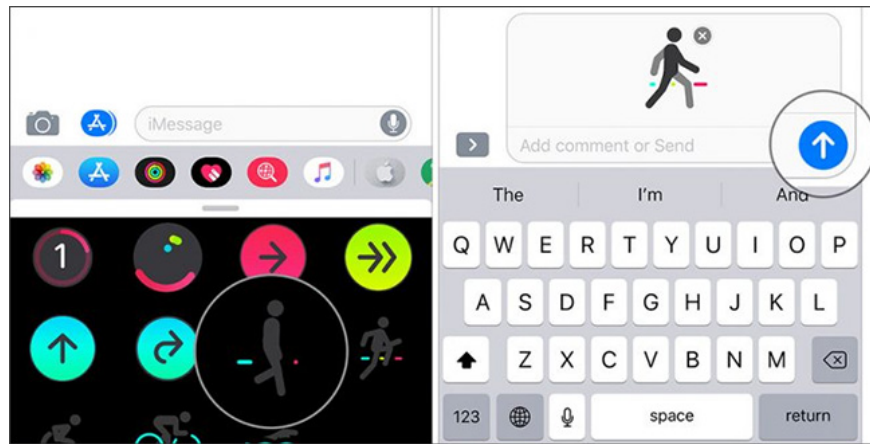

Note: If you don't see the app drawer, click the App Store icon to the left of the text input box.

Step 3. Next, click on the **Activity** application icon.

Step 4. Next, select the sticker depending on the action you are doing (or mood). Then press the arrow to send.

So done. You can use these stickers on all conversations. Note that you need to use the network and iMessage to use this feature.

Memoji is currently the most popular feature in conversations. And with Activity sticker, you will have a great choice to chat with friends.

Hopefully, iOS 12 will soon be officially released so that users can use new and attractive features faster.
