Sumikura air conditioner has many different control designs

Instructions on how to use conditioning control Sumikura 1 way, 2 way

Here is how to use some basic features of 1-way, 2-way Sumikura air conditioners that you can refer to and apply:

How to turn on / off Sumikura air conditioner

1. Turn on the air conditioner: Press the ON / OFF button once, this time, the green POWER lamp on the air conditioner will light.
2. Turn off air conditioner: Press ON / OFF button once more.

In addition, we have a way to turn on the Sumikura air conditioner without control. Refer to the article 4 ways to turn on the air conditioner without using the control to learn more!

Select modes on air conditioner

Step 1: Press the MODE button on the air conditioner remote.

Step 2: Select the mode according to user needs:

1. AUTO: Automatic mode.
2. COOL: Cooling mode (snowflake symbol).
3. HEAT: Turn on the hot air conditioner Sumikura (only Sumikura 2-way air conditioner, the icon of the sun).
4. DRY: Dehumidification mode (water drop icon).
5. FAN: Fan mode (fan icon).

How to adjust the temperature of Sumikura air conditioners

To adjust the temperature on the air conditioner, simply press the TEMP button with the up arrow (increase temperature) or the TEMP button with the down arrow (decrease the temperature). Sumikura products usually allow you to set the temperature between 16 and 30 degrees or from 16 to 32 degrees.

Adjust the fan speed

If you want to adjust the speed for air conditioning fans, you need:

1. Press the FAN SPEED button once to select low fan mode.
2. Press the FAN SPEED button twice to select the average fan mode.
3. Press FAN SPEED button 3 times to select high fan mode.
4. Press the FAN SPEED button 4 times to switch to auto fan mode AUTO FAN.

Control timer function Sumikura

Timer on

1. Step 1: Press the TIMER ON button.
2. Step 2: Use the TEMP buttons with arrows pointing up and down to increase and decrease the time for setting.
3. Step 3: Press the TIMER button to complete the installation.

Shut down timer

1. Step 1: Press the TIMER OFF button.
2. Step 2: Use the TEMP buttons with arrows pointing up and down to increase and decrease the time for setting.
3. Step 3: Press the TIMER button to complete the installation.

How to unlock the air conditioner controller Sumikura

Many Sumikura air conditioners now have the function to lock the buttons on the controller to limit the situation of naughty children leading to unwanted changes. If you have enabled this feature and want to unlock it, simply press the TEMP button with the up arrow and the TEMP button with the down arrow.
