

# How to use the Gemoo Snap utility to take a screenshot of the computer screen

The Gemoo Snap utility takes a screenshot of the computer screen with the option to capture the entire screen or capture an area according to the user's needs.

In each mode, there are more specific screen capture options for you to choose from, serving to capture the computer screen. There are many computer screen capture tools available today, and the capture utility is similar. The following article will guide you to use the Gemoo Snap utility to take screenshots of your computer.

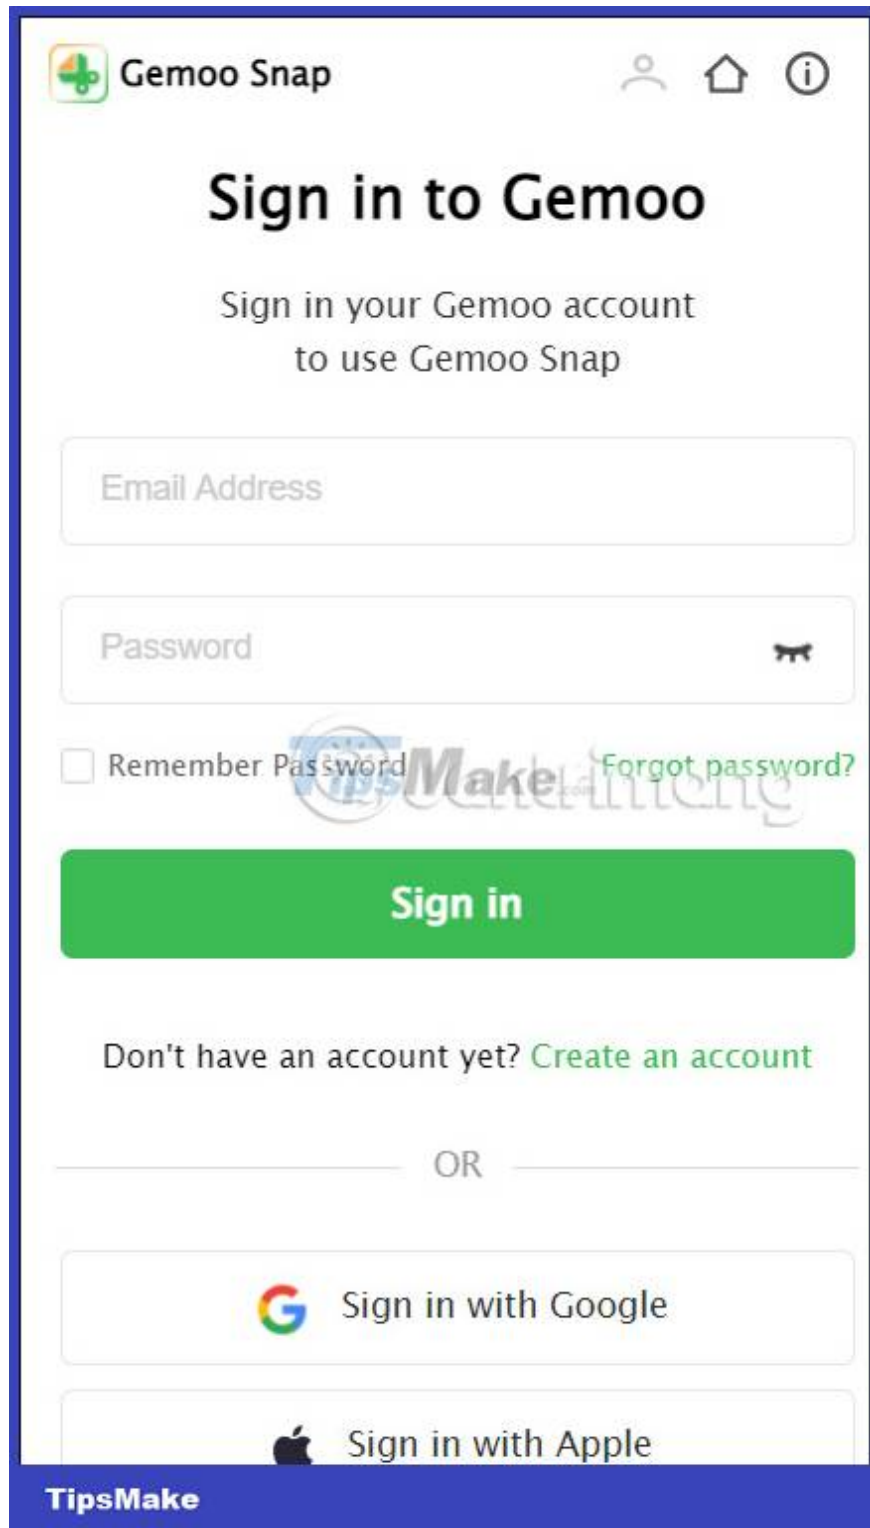

## Instructions for using the Gemoo Snap utility to take screenshots

### Step 1:

First we download the Gemoo Snap utility on the computer according to the link below and then install it as usual.

### Step 2:

After installing the utility, click **the Gemoo Snap icon** on the browser toolbar to log in or register for an account if you don't have one.

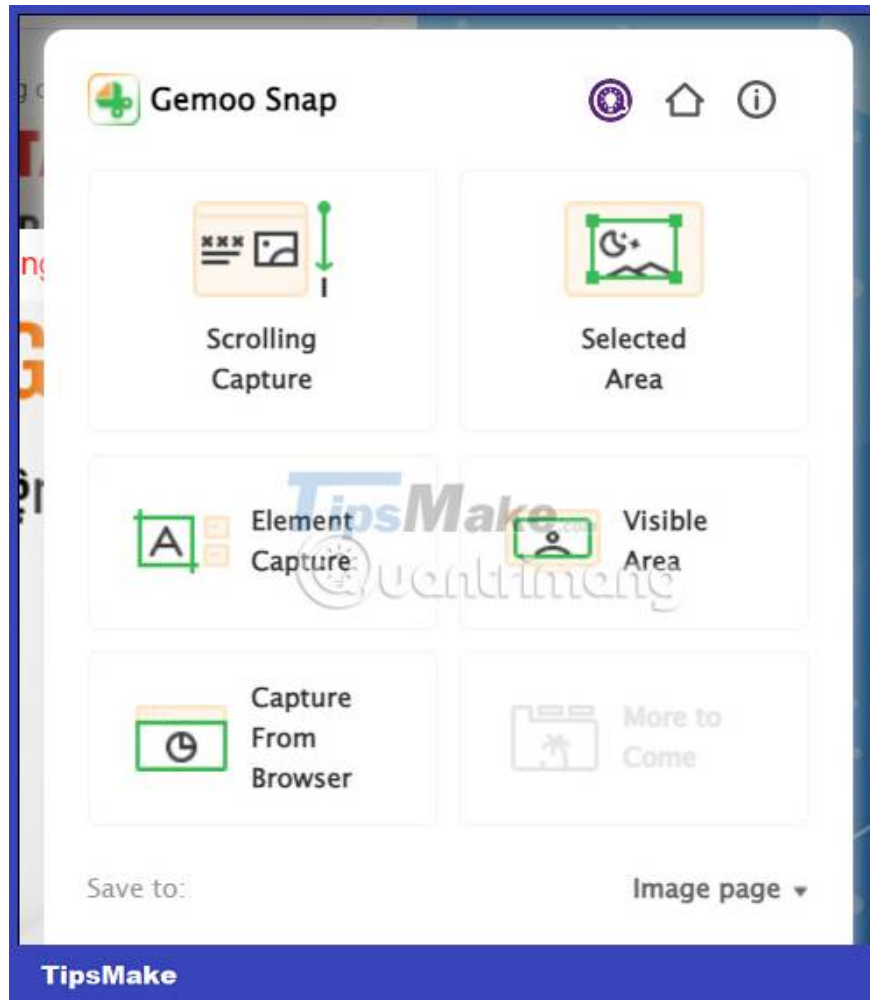

### Step 3:

Once you have successfully registered to use Gemoo Snap, click on the utility icon again. Now we will see all the screenshot modes that the utility supports.

1. Scrolling Capture: Site-wide image capture mode.
2. Select Area: Optional screen area capture mode.
3. Element Capture: Web page partial capture mode.

4. Visible Area: Current screen capture mode of the page, with the option to edit the image.
5. Capture Form Browser: Mode to capture other screens.

You click on the shooting mode you need to use.

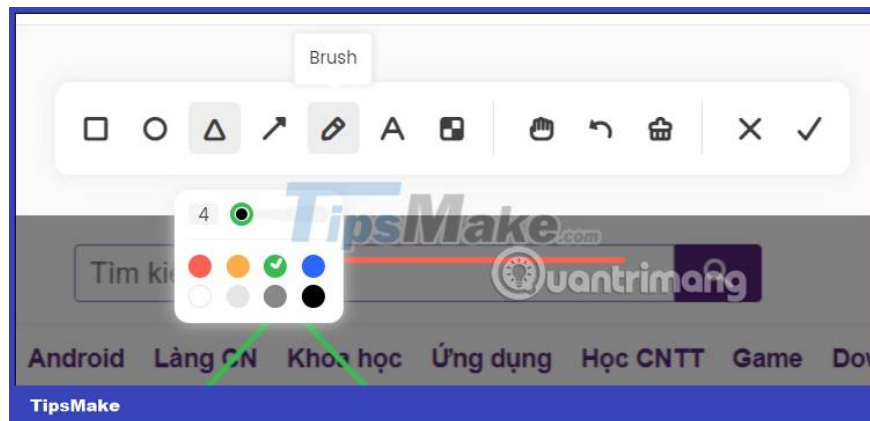

#### Step 4:

For example, with Scrolling Capture photography mode, you click and then the Gemoo Snap utility will automatically scroll the web page and take a screenshot. After completion, immediately display the photo editing interface as shown below. Press **the pen icon to edit the screenshot** .

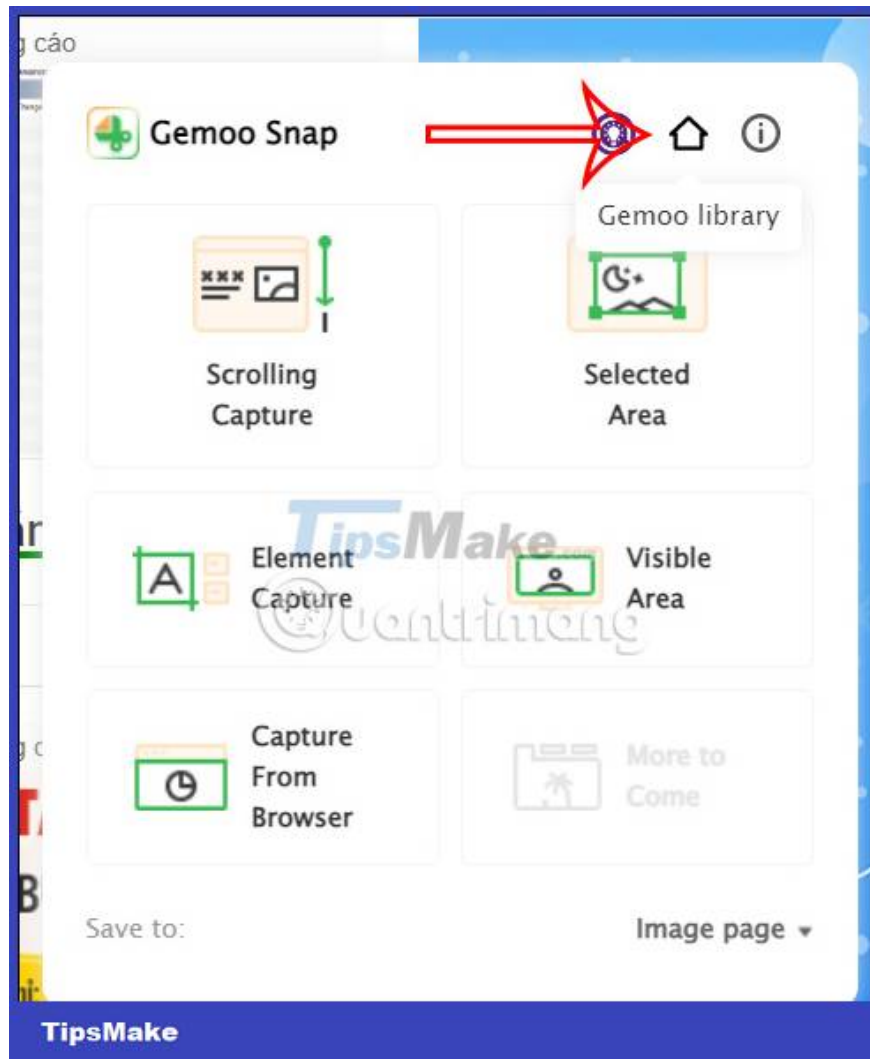

### Step 5:

Here you will see options to change the image, add text, drawings or different lines depending on what you want to add. After editing, **click the checkmark to save the new image** .

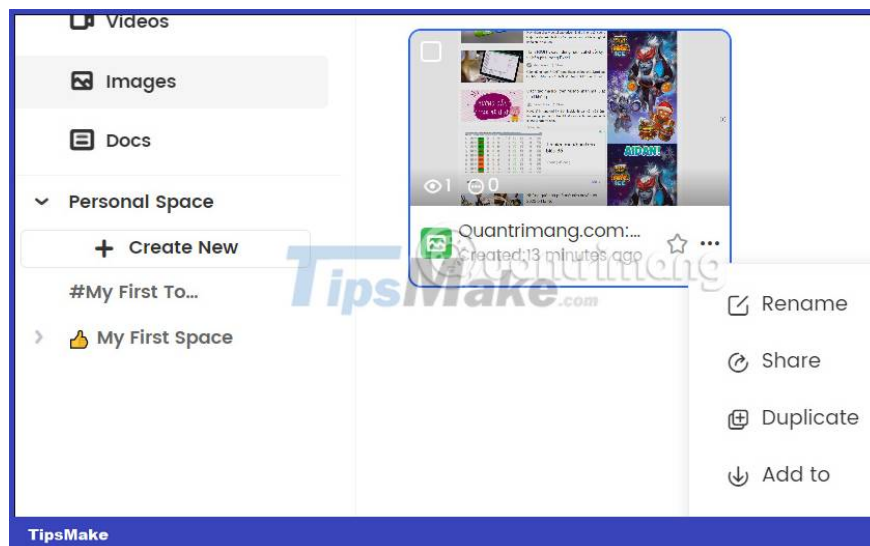

### Step 6:

The images you have taken on your computer screen are saved in the Images section of your Gemoo Snap Gemoo Snap account. You click on the utility icon and then click on **the Gemoo Library icon** to access the utility's library.

When clicking on the 3-dot icon in the image, there will be more options as shown below.
