

How to use WeTube to read YouTube video subtitles

The WeTube application will read Vietnamese subtitles in YouTube videos, and can download videos to computers.

YouTube is the most popular video streaming social network worldwide, so there are many applications or tools to support YouTube, helping users get more useful features.

WeTube app on Windows 10 has two features: reading subtitles on videos including Vietnamese subtitles and downloading YouTube videos with subtitles with the option to include voice or audio. The user will select the language in the computer and from there the reading mode of WeTube will read in the language we have chosen. So with the option to read subtitles, users do not always need to look at the video screen to view subtitles. The following article will guide you how to use the WeTube application on Windows 10.

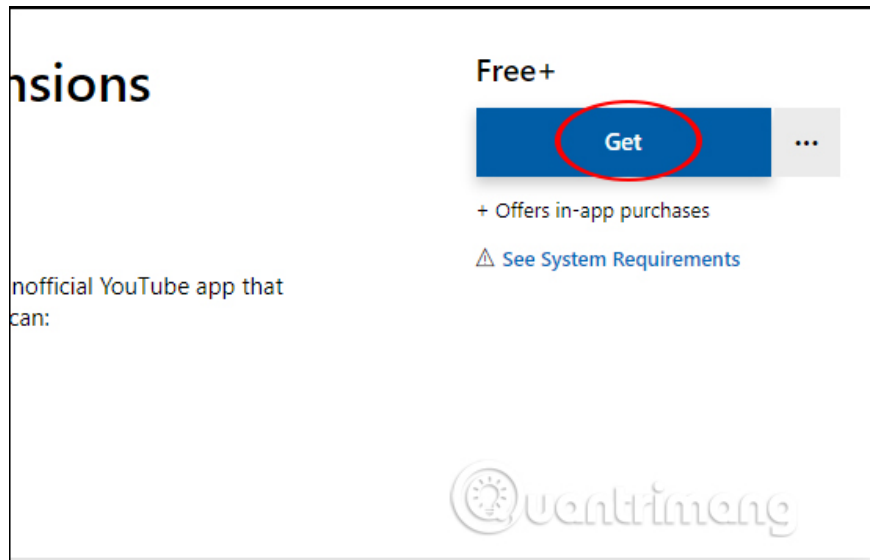

1. How to change the speed of playing YouTube videos
2. Ways to find hot videos on YouTube
3. How to edit videos on YouTube?
4. How to create subtitles for YouTube videos quickly, the easiest

Instructions for using WeTube on Windows 10

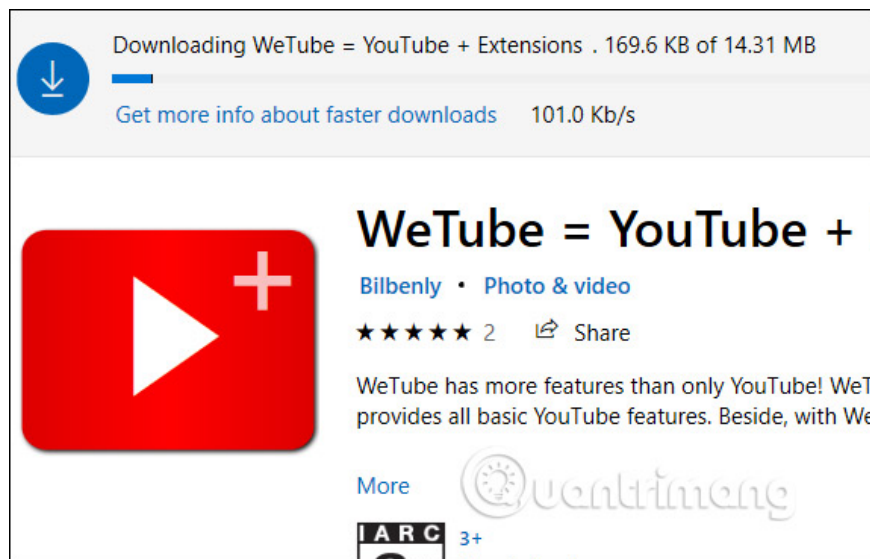

Step 1:

Users install the WeTube app on Windows 10 by following the link below. Click Get to download the application.

1. Download the WeTube Windows 10 app

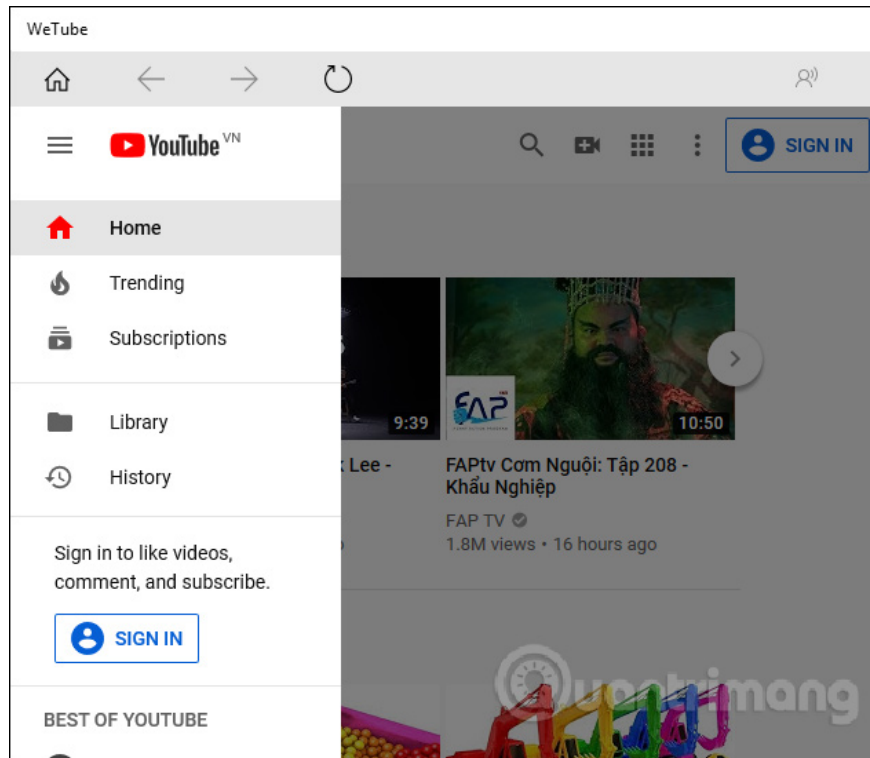

You wait for the application installation to complete.

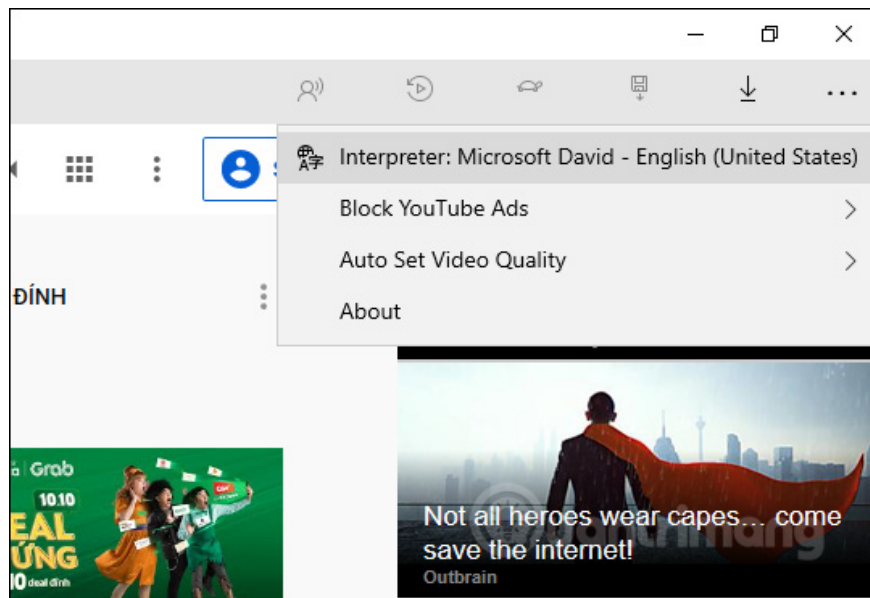

Step 2:

Launch the app and users will see WeTube's interface appear quite similar to that of YouTube. On the left side of the screen are the management sections on YouTube. There is also the option to log in to a personal YouTube account.

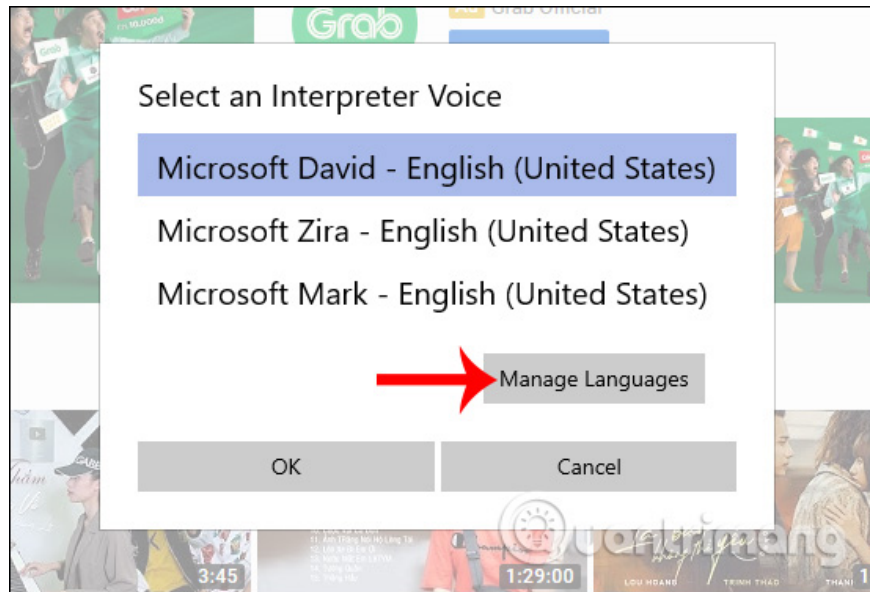

First of all users need **to set the reading language for the application** . At the application interface in the right corner of the screen, click **the 3-dot icon** and select **Interpreter - Microsoft David** .

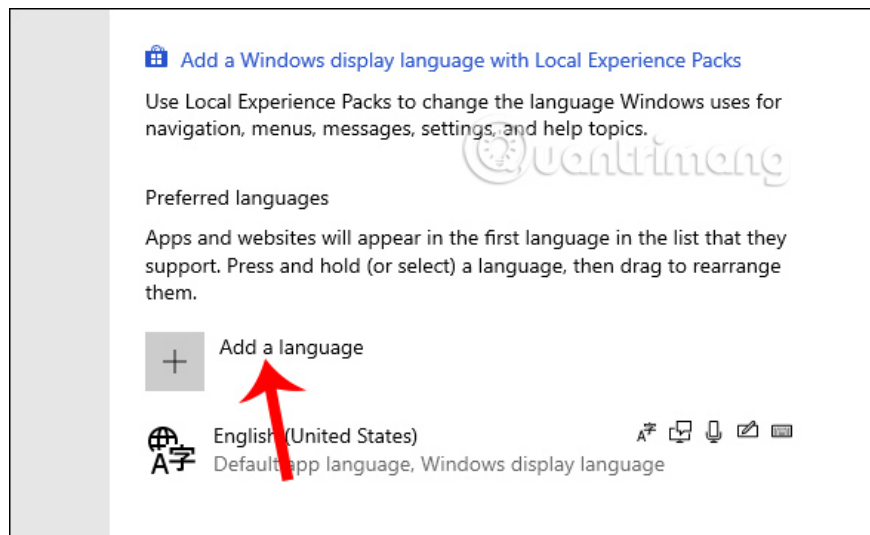

Step 3:

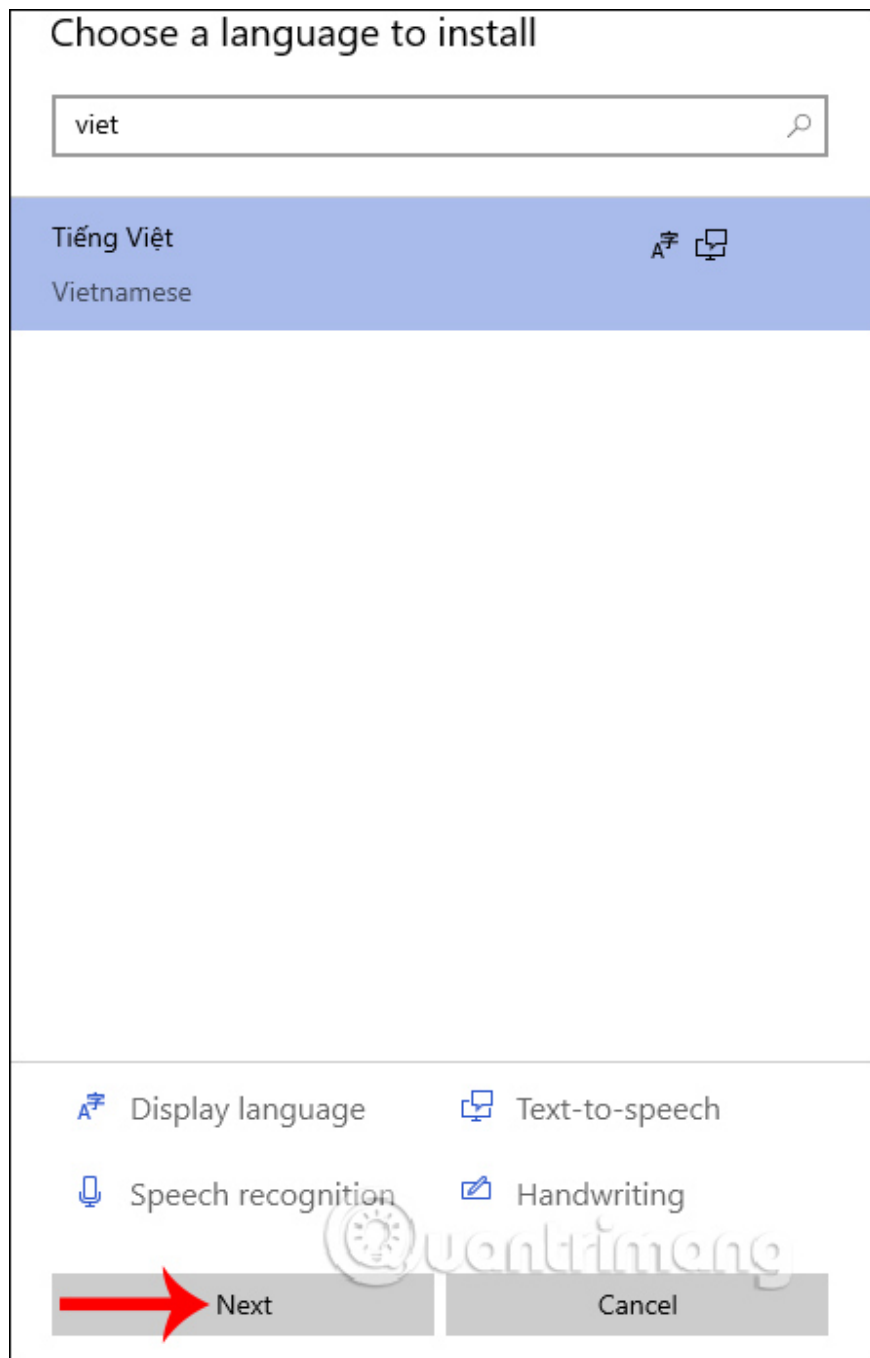

Display Select an Interpreter Voice interface, click **Manager Languages** to add languages ??to the Windows system.

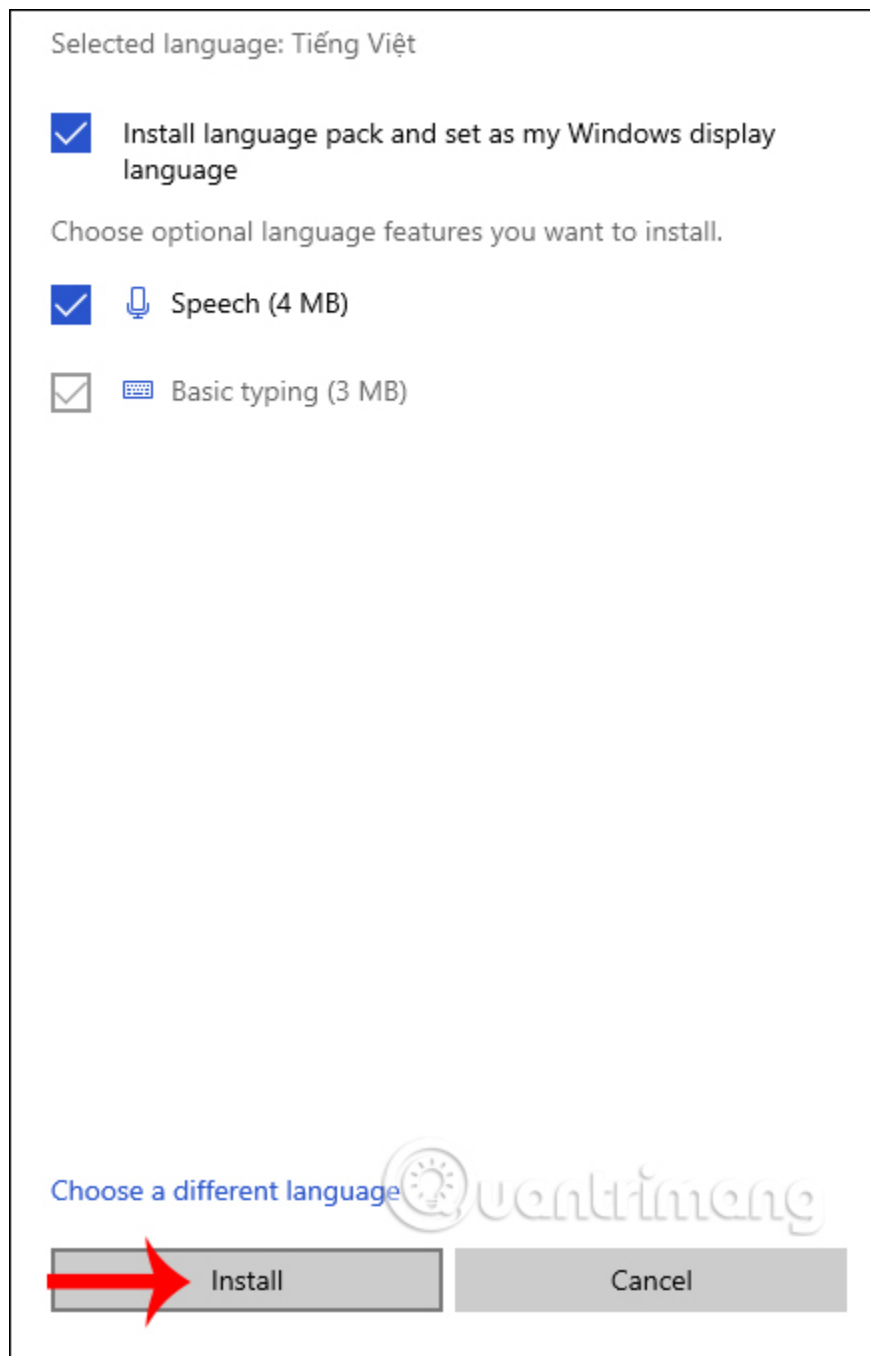

Display the language setting interface on the computer, users click **Add a language** to select additional languages ??for the system.

Display interface select the language you want to add, **enter Vietnamese** in the search bar and see the results, click Next below to continue.

Then **click Install** to install the language on the computer.

Step 4:

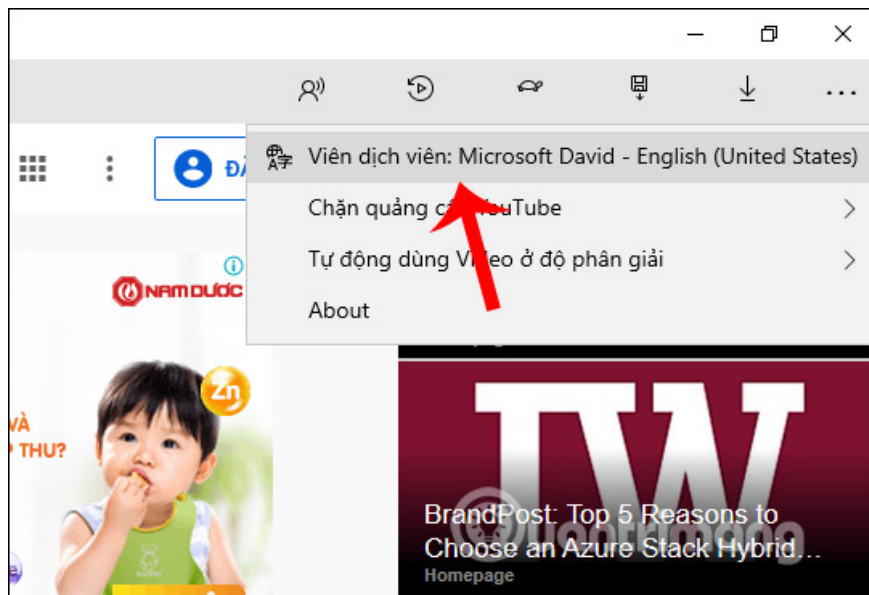

Reload the application to apply the changes. Now go back to the application interface and enter the video you want to search in the Search box above. In the video playback interface, click on **the gear icon** and select **Subtitles mode** . Users **tick** to select **Vietnamese Vietnamese** subtitles for video.

Then click on **the CC icon** to display Vietnamese subtitles.

Step 5:

Click the **3-dot icon** in the right corner of the screen and then select **Interpreter** section again. At this time, the interface of the WeTube application has been changed to Vietnamese.

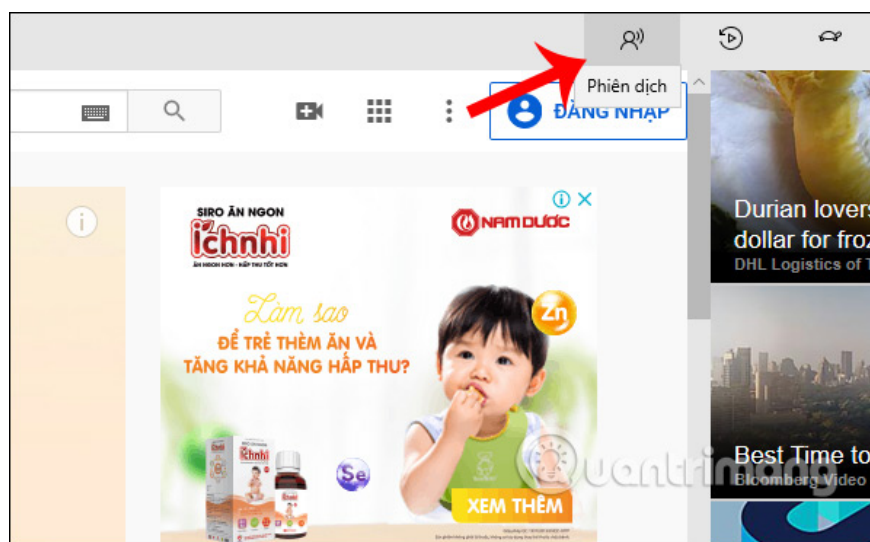

Select **Microsoft An - Vietnamese (Vietnam)** and click OK to change and select the default voice for Vietnamese subtitles.

Step 6:

To listen and read the subtitles we click on **the Translator icon** as shown.

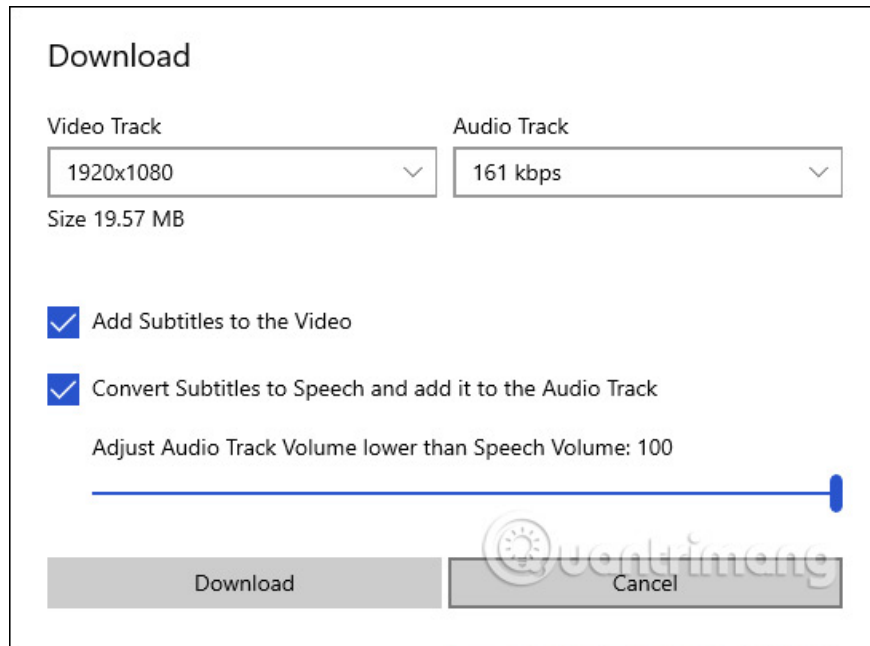

Step 7:

At the top right there are different feature icons from left to right.

1. Loop current video: Play the video continuously.
2. Slowmotion and Frames: Play slow video.
3. Download: Download YouTube videos.
 1. Video Track: Select a video resolution when downloading.
 2. Audio Track: Select the quality of the converted video audio download.
 3. Add subtitles to the video: Download videos with subtitles on.
 4. Convert subtitles to speech and add it to in the audio track: Download audio files with subtitle audio.

5. Adjust audio track volume lower than speech volume: Adjust the level of subtitle reading with video audio.

Finally **click Download** to download the video. The video is saved by default in the Download folder on your computer.

Thus WeTube application gives you the ability to read subtitles of professional YouTube videos, including Vietnamese with clear voice and very easy to listen. So you can track the video details and do other work.

WeTube application reads Vietnamese YouTube video subtitles
