

How to use Yahoo Together Yahoo chat application

Yahoo Together is Yahoo's new chat application, which supports group messaging along with other notification features.

After a period of time since Yahoo Messenger was 'deathly', Yahoo recently released a completely new Yahoo Together chat application. This new chat application focuses primarily on group chat with family, friends or group chat with colleagues. Yahoo Together also provides notifications and reminders when messages arrive. In particular, Yahoo Together is provided with the features of taking photos, recording videos similar to Facebook Messenger, Zalo, . The following article will guide you how to use Yahoo Together chat application.

1. The best free messaging app
2. How to see who uses the most messaging on Facebook
3. How to get the Zalo account fastest when locked

Instructions for using Yahoo Together group chat

Step 1:

Users download Yahoo Together by following the link below and proceed with the installation.

1. Download Yahoo Together Android
2. Download Yahoo Together iOS

Step 2:

In the interface, first press **the Start button** to use the application. Next, if you do not have an account, Yahoo can enter the registered phone number.

Or if you already have an account **click Login** , then enter your email address and password for your Yahoo account to login.
