

How to use YouTube Kids on computers

YouTube Kids has a desktop version that makes it easy for families to set up video content for kids.

To ensure the safety of children when using the Internet, there are many applications specifically for children such as YouTube Kids. YouTube is the largest video-sharing repository with rich and diverse content but also many potential dangers, especially for young children because the videos have bad content, not suitable for the age of the children.

That's why YouTube Kids is the safest option for families with young children to choose the right videos for their age. Parents are given the choice of video content that will appear on YouTube Kids and set up video viewing time. YouTube Kids has previously launched a mobile app with lots of useful features. And now we can use YouTube Kids on computers according to the tutorial below.

1. Instructions on how to block videos and YouTube channels
2. How to remove unwanted video suggestions on Youtube
3. How to activate the video restriction mode on Youtube
4. 6 apps for watching videos for children safely on Android and iPhone

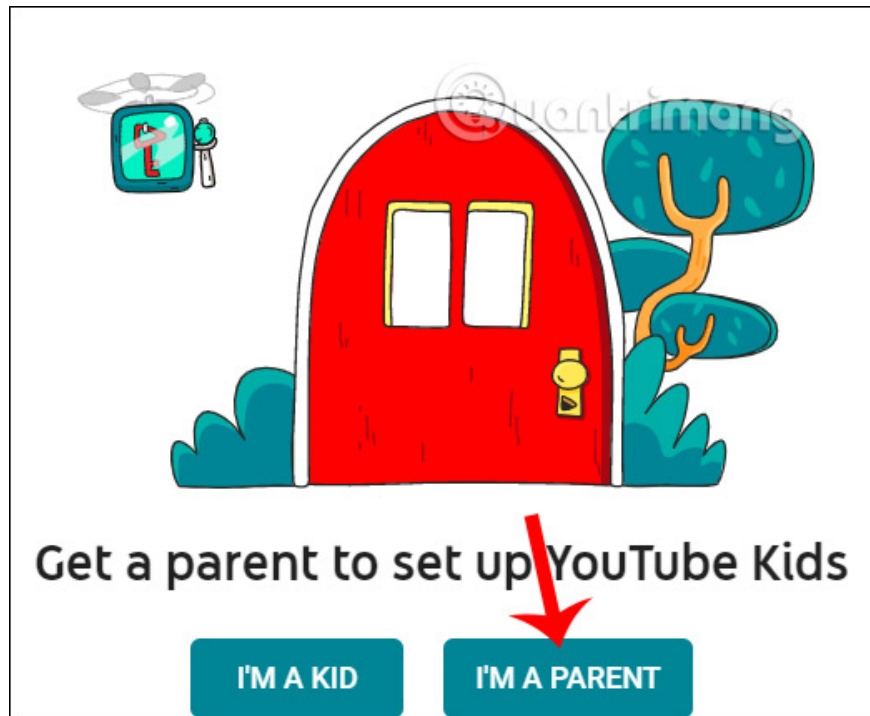

Instructions for creating a YouTube Kids profile on a computer

Step 1:

Users visit the link below to the YouTube Kids homepage.

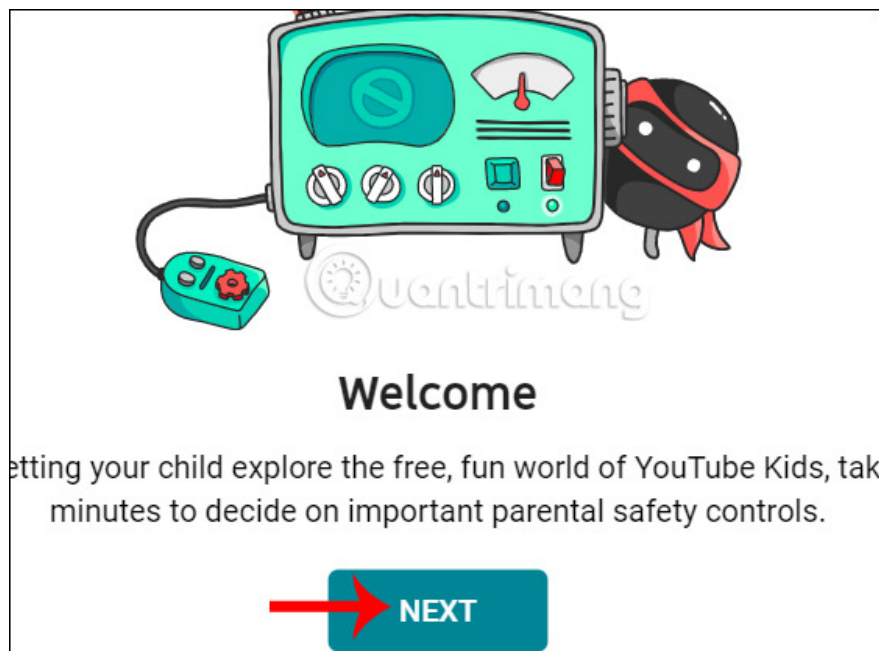

1. YouTube Kids homepage

At the homepage, we click **I'm a Parent** to set up a video watch profile for the kids.

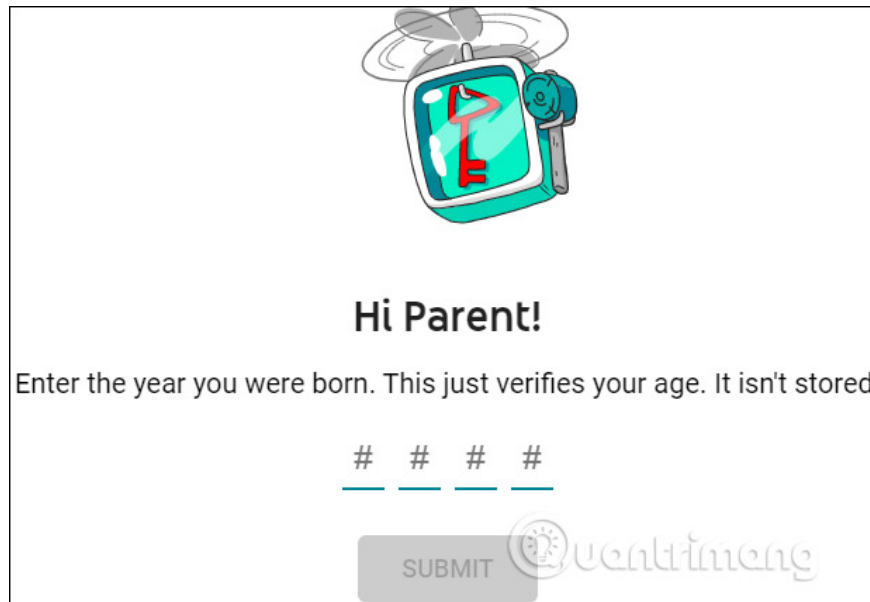

If you press I'm a Kid, you must set up on the YouTube Kids phone app yourself. In the absence of pre-installed applications, we can use some Android emulators on PC such as Bluestacks or Nox App Player, . to install the YouTube Kids application on the computer with many useful features and other interesting.

Then switch to the new interface, users **click on Next** to continue.

Step 2:

Next to YouTube Kids will ask users to **enter their birth year and** then **click Submit** below to confirm.

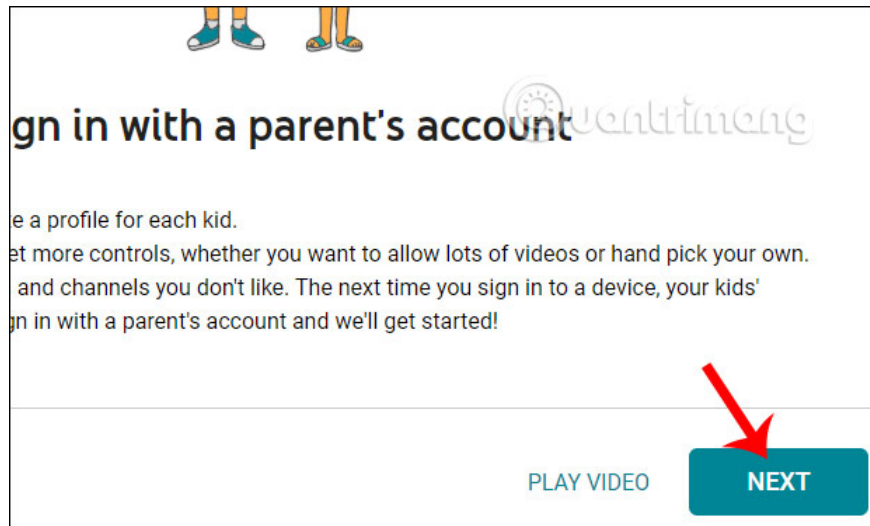

Now show the YouTube Kids introduction video, click **Show Text** to display the content.

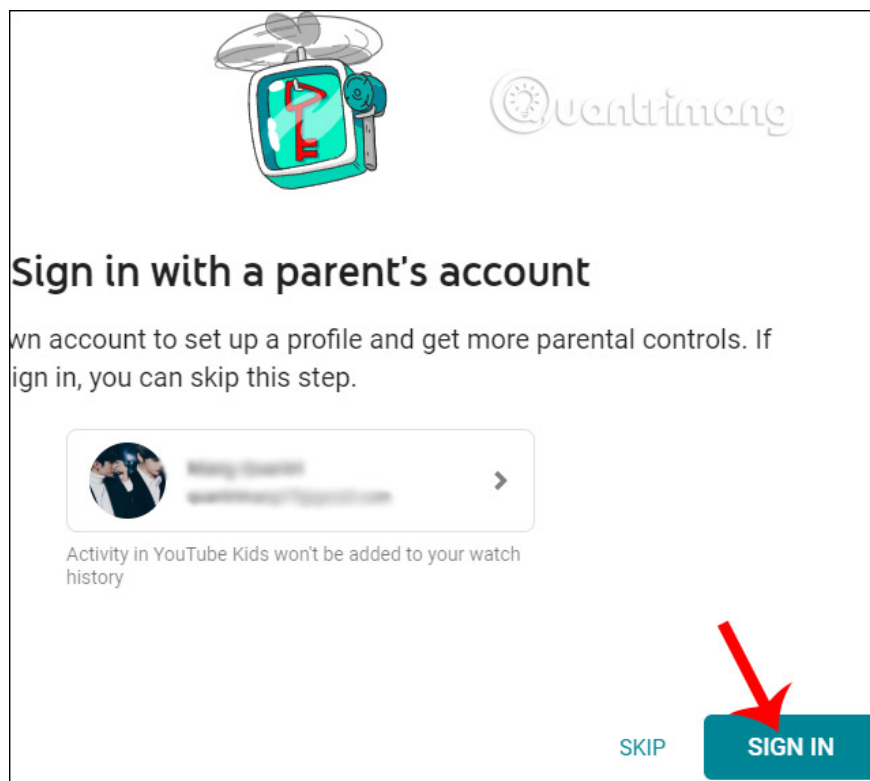

Step 3:

The application needs to **sign in to a Google account** to set up content to watch videos on YouTube Kids, click Next.

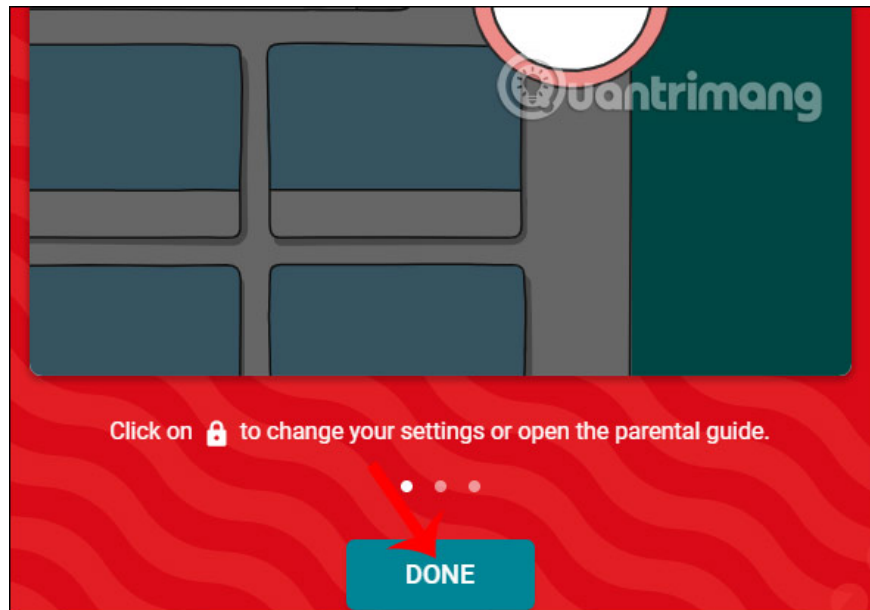

Then we enter the Google address to log into YouTube Kids, click **Sign in** .

YouTube Kids also has a non-account mode to use, but will have some restrictions on video controls for children. Then we will press Skip to skip the login interface.

Step 4:

Next, users will see an introduction to some set-up options with YouTube Kids, including blocking videos if needed, changing settings and viewing your child's video viewing history. Click **Done** to switch to the main interface.

Step 5:

The website has created profiles for babies, if you **want to use another profile** , click **Add another profile** , then enter your Google account password to verify that it's you.

Nice work, Mang Quantri!

The app is ready for Bim to use!

Bim

LET'S GO

ADD ANOTHER PROFILE

Now show the **baby's information filling** interface as shown below. Complete and **click Next** below to continue.

Kid's first name*

Age*

Birth month ?

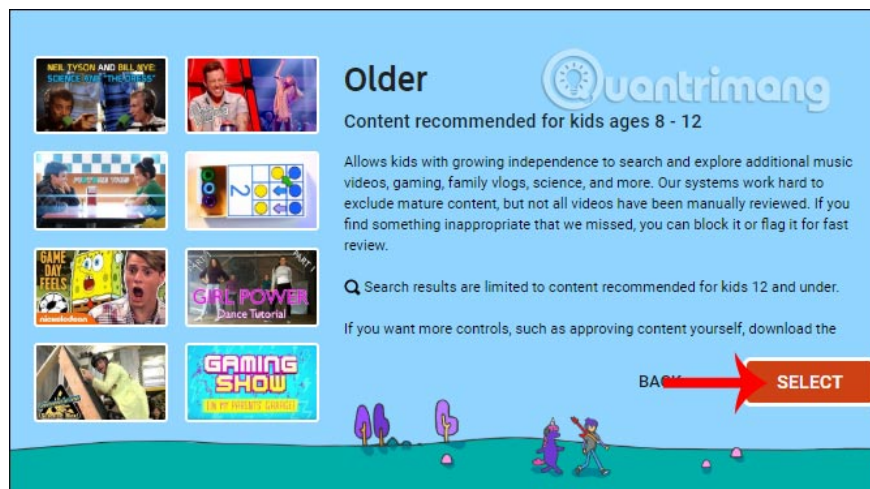

*Required field

Quantimang

Next we **choose the age for the child** to choose the type of video that will appear on YouTube Kids.

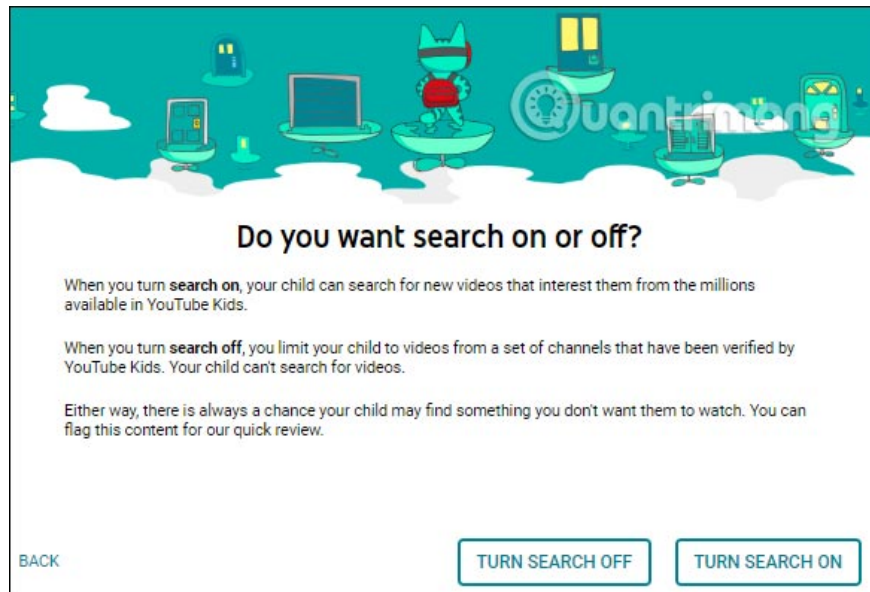

Now users will see the video will appear on YouTube Kids exactly the age of the baby you choose. Click **Select** to continue.

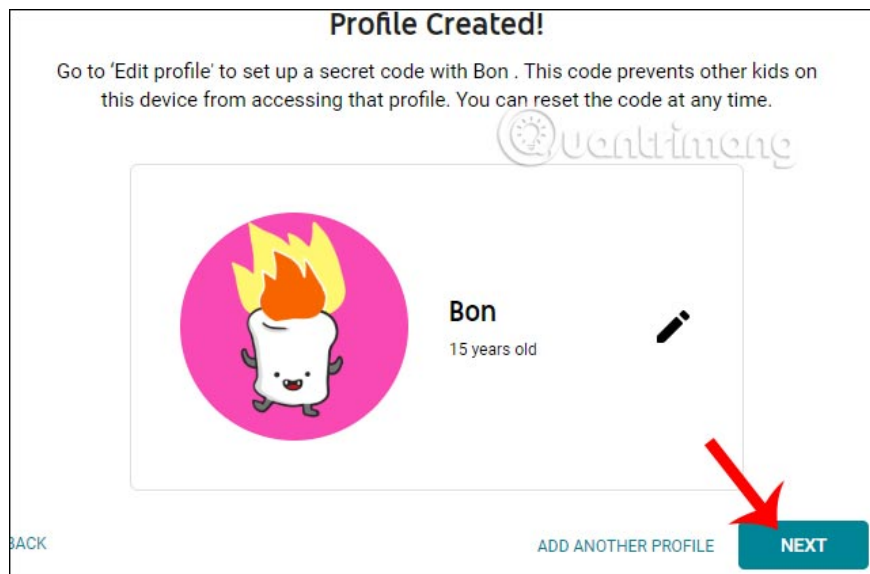

Step 6:

You are now asked by YouTube Kids if you want to **turn off (Turn on search off)** or **turn on (Turn search on) video search** .

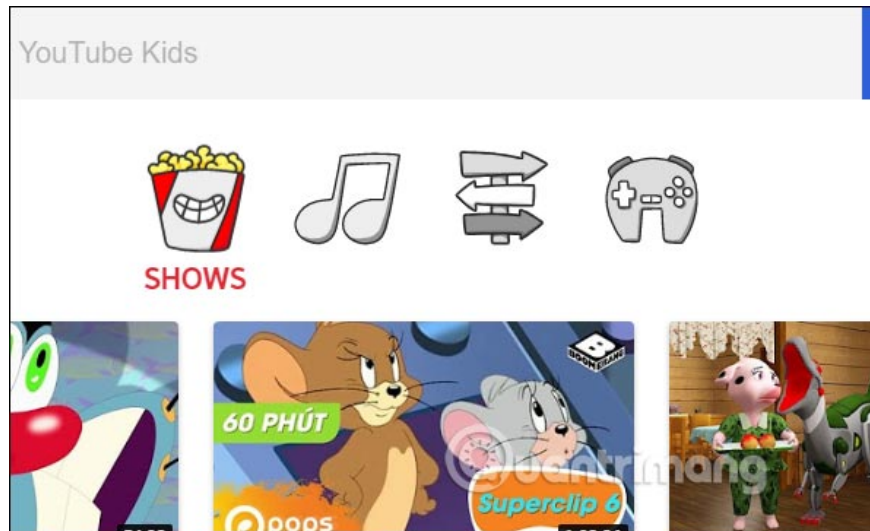

Finally, we have created successful records for children. Click Next to move to the main interface. 1 parent account can create many different child profiles.

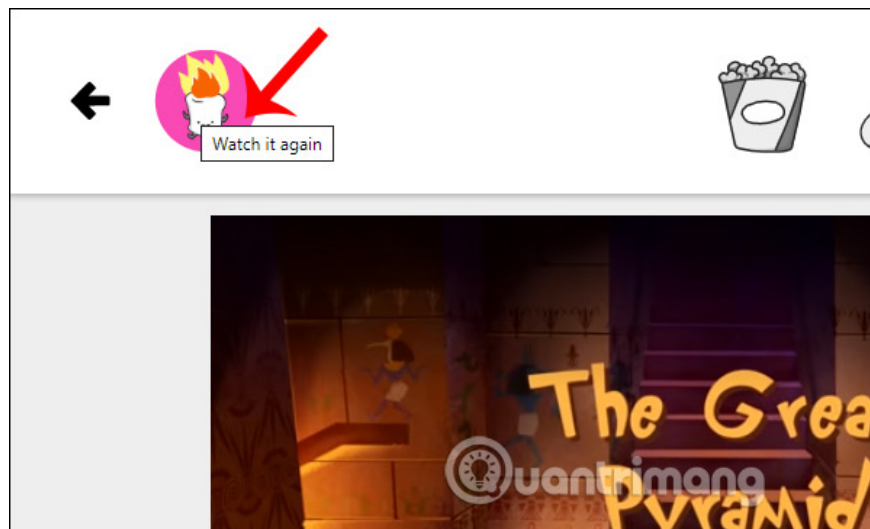

Step 7:

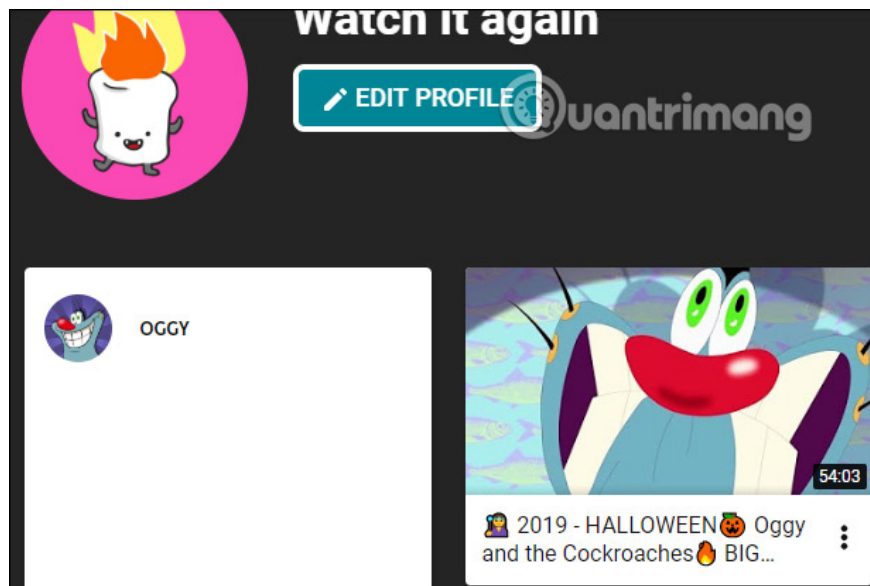

In the main interface of YouTube Kids we will see the **videos are arranged in many different categories** , including Show, Music, Explore and Gaming. Children just need to visit each item to search for videos.

The video viewing interface is very simple, there are no video viewing comments. To **review the video history** that your child has watched, click on **the profile picture in the top left corner** .

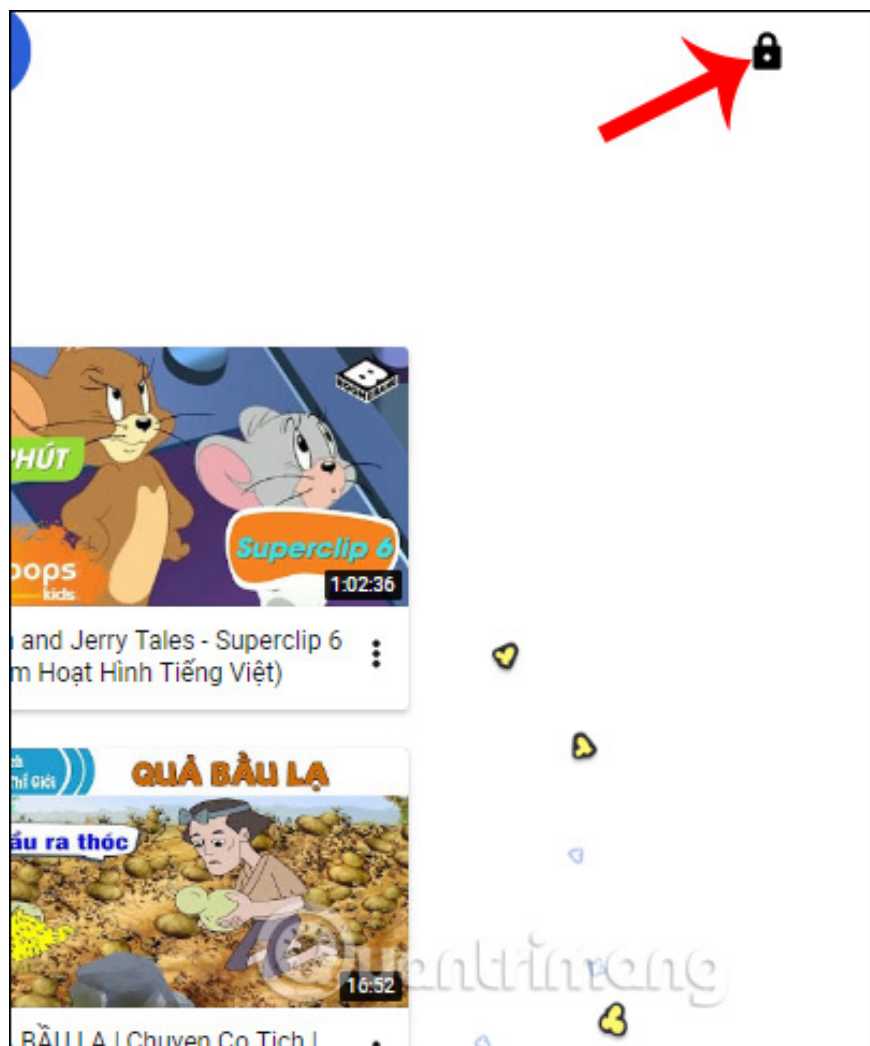

Shortly thereafter all videos that your child will have watched will appear.

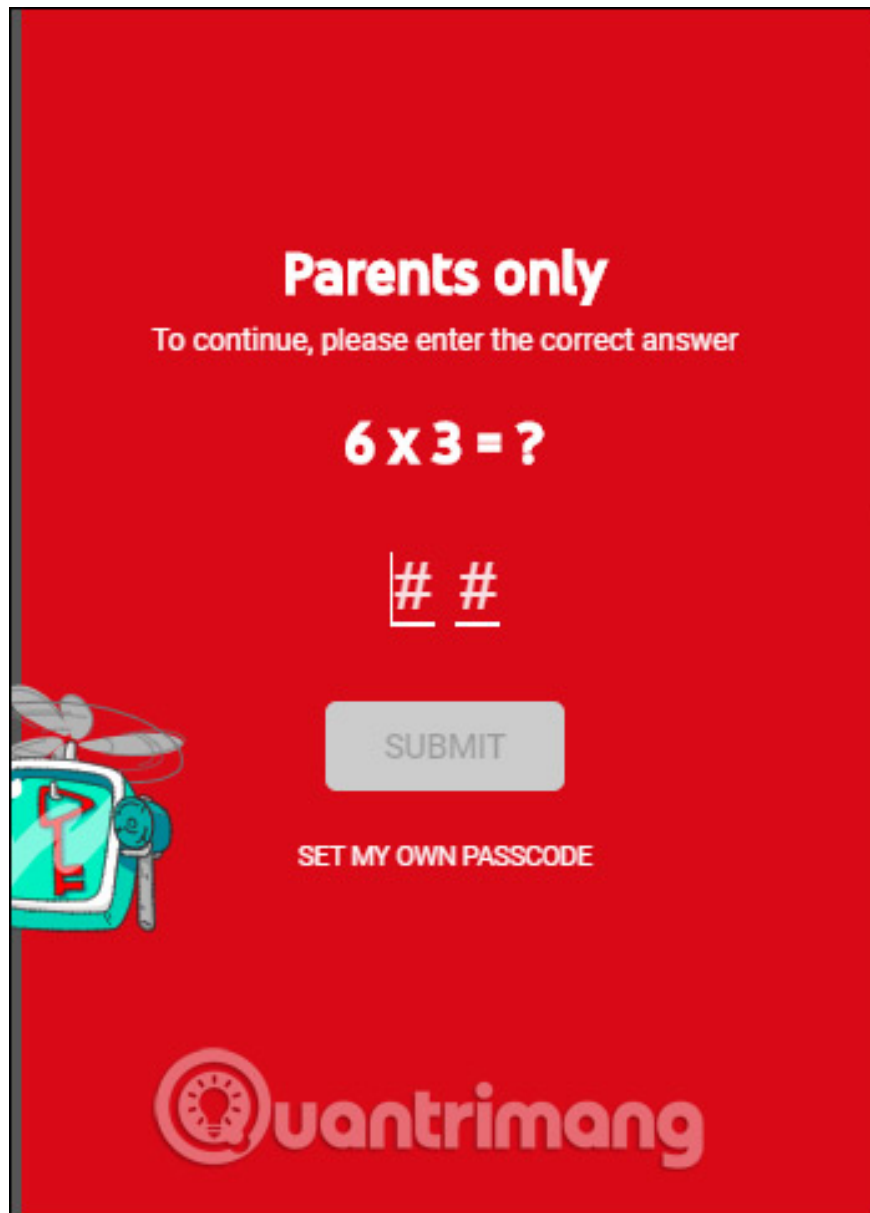

Step 8:

To view the controlled content on YouTube Kids, click **the lock icon** in the right corner of the screen.

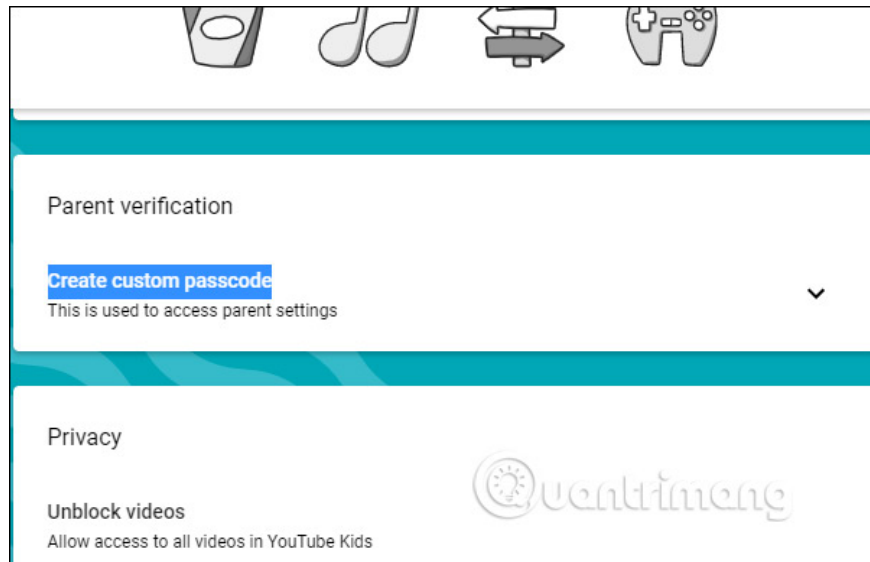

Then we get the question to access this section, **fill in the results** and **click Submit** below.

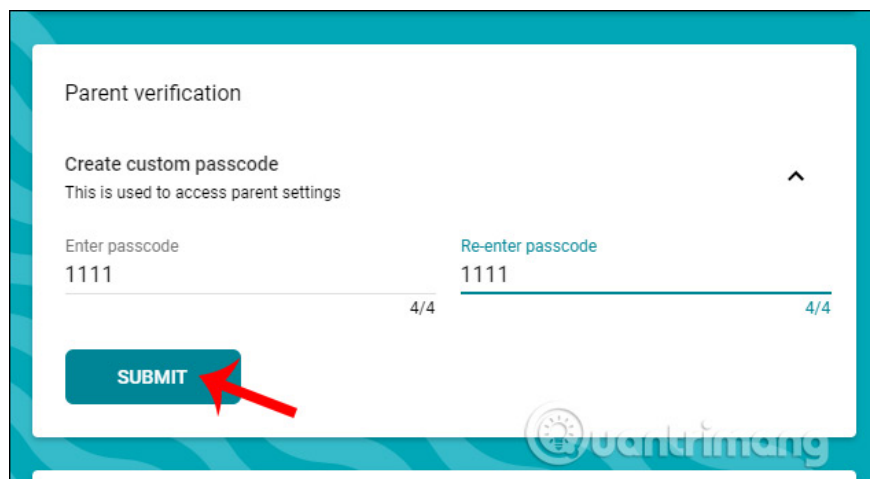

Step 9:

In the setting control settings interface for YouTube Kids, we will first **set the password** to access the Parent settings.

At **Parent verification**, click **Create custom passcode** to create a password.

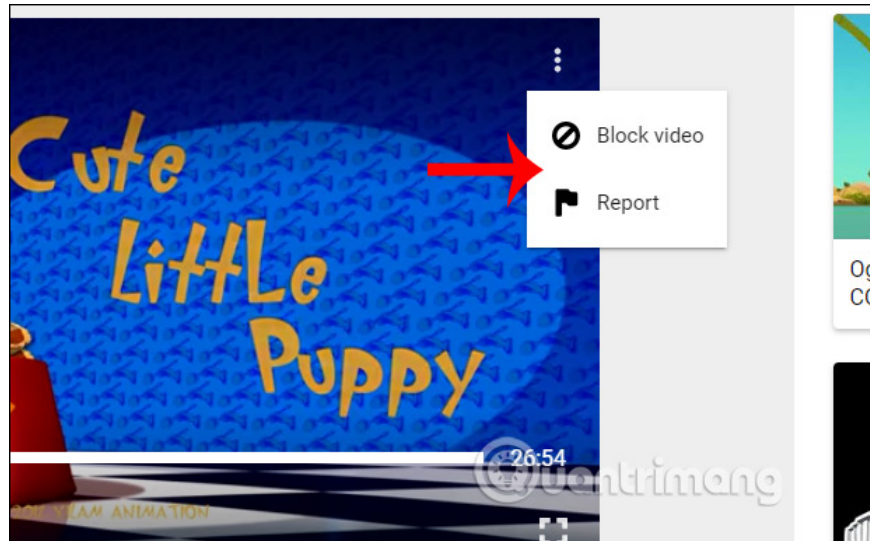

Enter the password and **click Submit** to confirm the password. Other settings the user follows the instructions.

Step 10:

In case we check the video content on YouTube Kids, then press **the 3-dot icon at the video** and select Report to report or Video Blog.

Above is the whole way to set up and use the YouTube Kids app on your computer. Content on YouTube Kids is strictly controlled to ensure the safety of young children, but users still have the option to block or report videos when they feel problematic.

I wish you successful implementation!
