

How to view more Spotify lyrics on Windows 10

The Spotify Lyrics .NET application helps you view many Spotify lyrics on Windows 10.

Spotify also has a karaoke mode, but the interface has additional effects, so it's relatively difficult to see. If you want a simpler, ad-free interface, you can use the Spotify Lyrics .NET application on Windows 10. The source of the application is from Musixmatch and Genius so you can be assured of the lyrics. Marketing. Spotify Lyrics .NET displays lyrics with the songs we play, including Vietnamese music. The app provides many words from different sources. The lyrics display interface on Spotify Lyrics .NET also has options for changing the look or resizing text. The following article will guide you how to use Spotify Lyrics .NET on Windows.

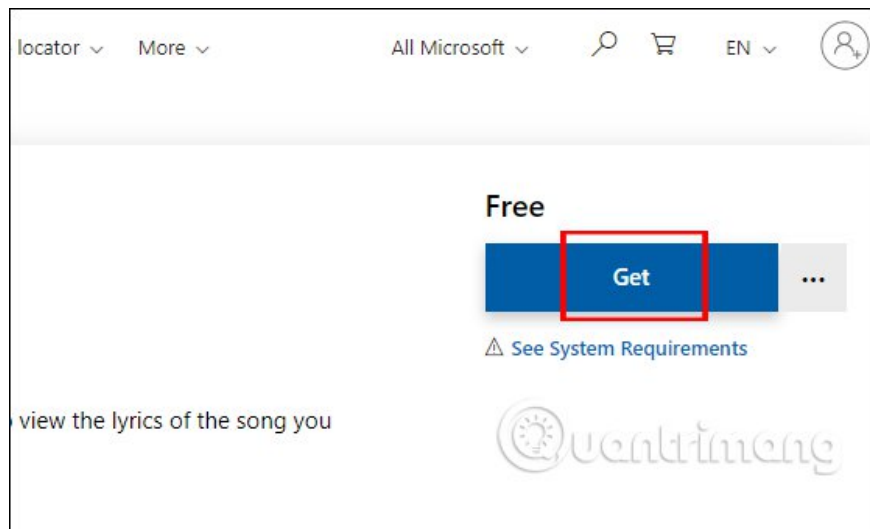

1. 15 Spotify tips you shouldn't miss for a better listening experience
2. How to back up, restore Spotify playlist
3. How to turn on the lyrics on Spotify
4. How to create a random playlist on Spotify

Instructions for displaying multiple Spotify lyrics

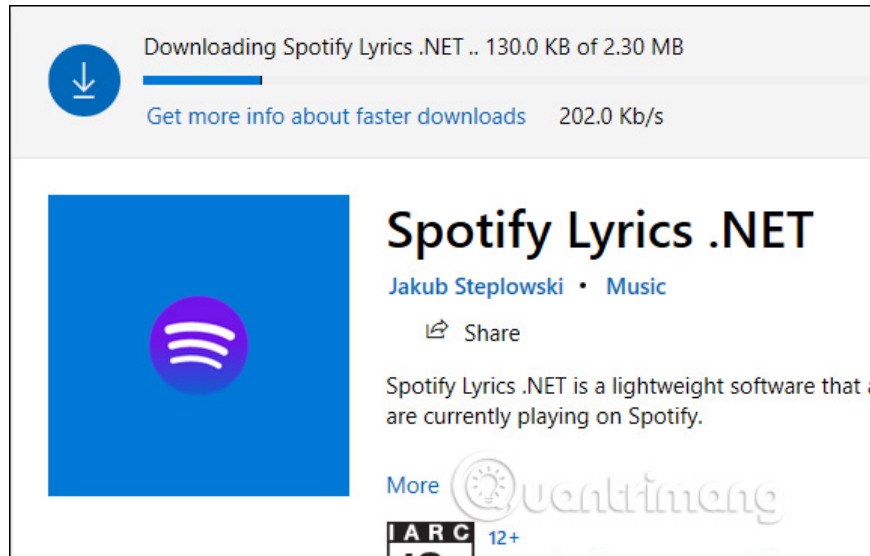

Step 1:

Users download the Spotify Lyrics .NET application on Windows 10 by following the link below. Note that the application only applies to the Spotify software installed on the computer only.

1. Download the Spotify Lyrics .NET application

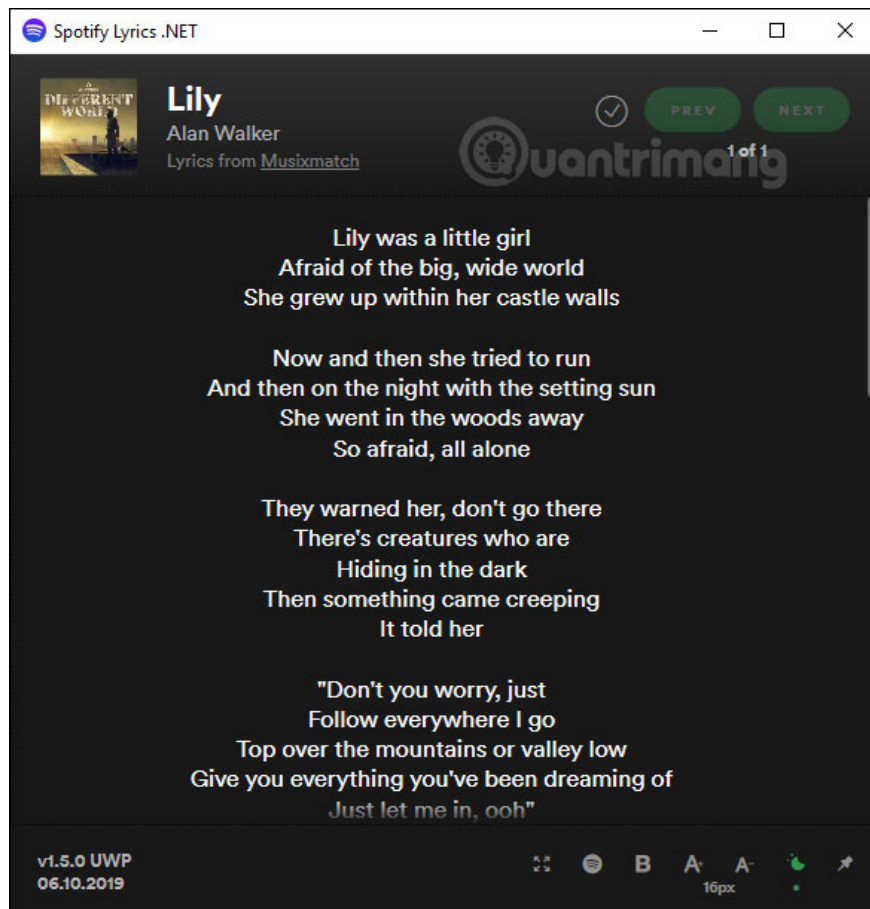

Wait for the installation to complete and then start the application.

Step 2:

Now open Spotify with the Spotify Lyrics .NET application and the application interface will search for lyrics based on the currently open song.

The application interface defaults to black background and white text to highlight lyrics content.

With Vietnamese songs, Spotify Lyrics .NET generally works well, showing lyrics for you to follow.

The screenshot shows a web browser window titled "Spotify Lyrics .NET". The main content area displays the song title "Để Mi Nói Cho Mà Nghe" by Hoàng Thùy Linh, with a note that the lyrics are from Musixmatch. There are "PREV" and "NEXT" buttons, and a "1 of 1" indicator. The lyrics are displayed in Vietnamese, with a watermark "uantrimang" visible. The lyrics are:

Để Mi nói cho mà nghe
Tâm hồn này chẳng để lặng lẽ
Thương cha xót mẹ
Thôi thì mặc phận đời mình chơi vơi
Để Mi nói cho mà nghe
Tết năm nay Mi vẫn còn trẻ
Xuân đương tới rồi
Nên Mi cũng muốn đi chơi

Này là mình đi theo giấc mơ sớm mai gọi mời
Nơi vòng tay ấm êm chẳng rời
Hoa ban trắng nở đầy con bản nọ
Hương sắc còn chưa phai
Đời mình đâu có mấy vui cố sao lại buồn
Biết ngày mai trắng đen hay tròn vuông
Em không bắt quả pao rơi rồi
Tiếc không một đời đơn côi

Để Mi nói cho mà nghe
(Để Mi...)

At the bottom left, it says "v1.5.0 UWP" and "06.10.2019". At the bottom right, there are icons for font size (B, A, A-), a green light icon, and a refresh icon, with "16px" displayed below.

Step 3:

For songs with different versions of the lyrics , you just need to click on the **Prev** or **Next** buttons above to see the lyrics versions.

I Love You 3000

Stephanie Poetri
Lyrics from [Genius](#)

PREV NEXT
3 of 5

[intro]
Baby, take my hand
I want you to be my husband
'Cause you're my Iron Man
And I love you 3000
Baby, take a chance
'Cause I want this to be something
Straight out of a Hollywood movie

[Verse 1]
I see you standing there
In your Hulk outerwear
And all I can think
Is where is the ring
'Cause I know you wanna ask
Scared the moment will pass
I can see it in your eyes

If there are Korean songs, there will be more phonetic transcriptions like this for you to sing along with.

Step 4:

Below the interface are options to change the font displaying the lyrics. If you want to increase or decrease the font size, then click on the letter A + or letter A-, remove the bold mode by clicking the icon B, turn off the dark background interface by clicking on the Dark mode icon.

In general, Spotify Lyrics .NET displays most lyrics played on Spotify including Vietnamese songs or Korean songs with hieroglyphs. However, when the music source is not available, the application will not be able to display the lyrics for you.

I wish you successful implementation!
