

How to view Telegram Story secretly that no one knows

You can now view the secret Telegram Story completely without anyone knowing, through the Stealth Mode feature. When activating this setting, others will not know that you have viewed their Story.

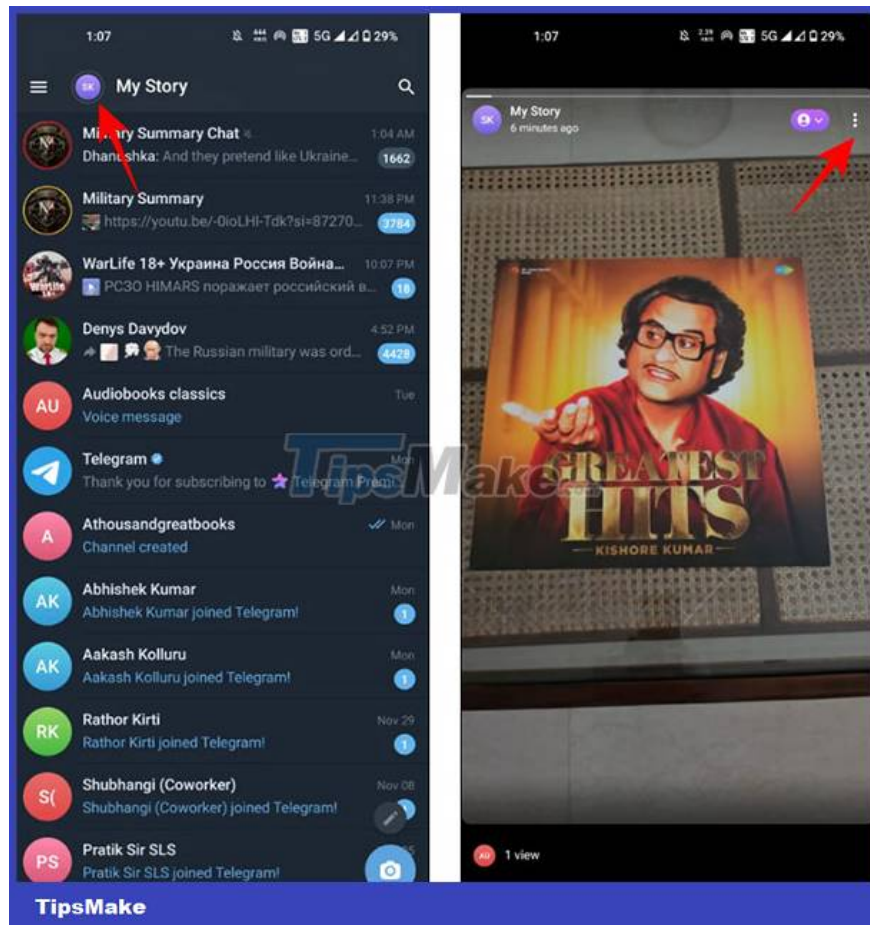

When you view someone else's Telegram Story, your information will be displayed to them when checking the posted Story viewing list. However, you can view the secret Telegram Story completely without anyone knowing, through the Stealth Mode feature. When activating this setting, others will not know that you have viewed their Story and will not appear in the list of Story viewers. The article below is a guide to viewing secret Telegram Stories.

Instructions for viewing Telegram Stories secretly

Note , currently this anonymous Telegram Story viewing feature only applies to the Telegram Premium version, so you need to pay attention.

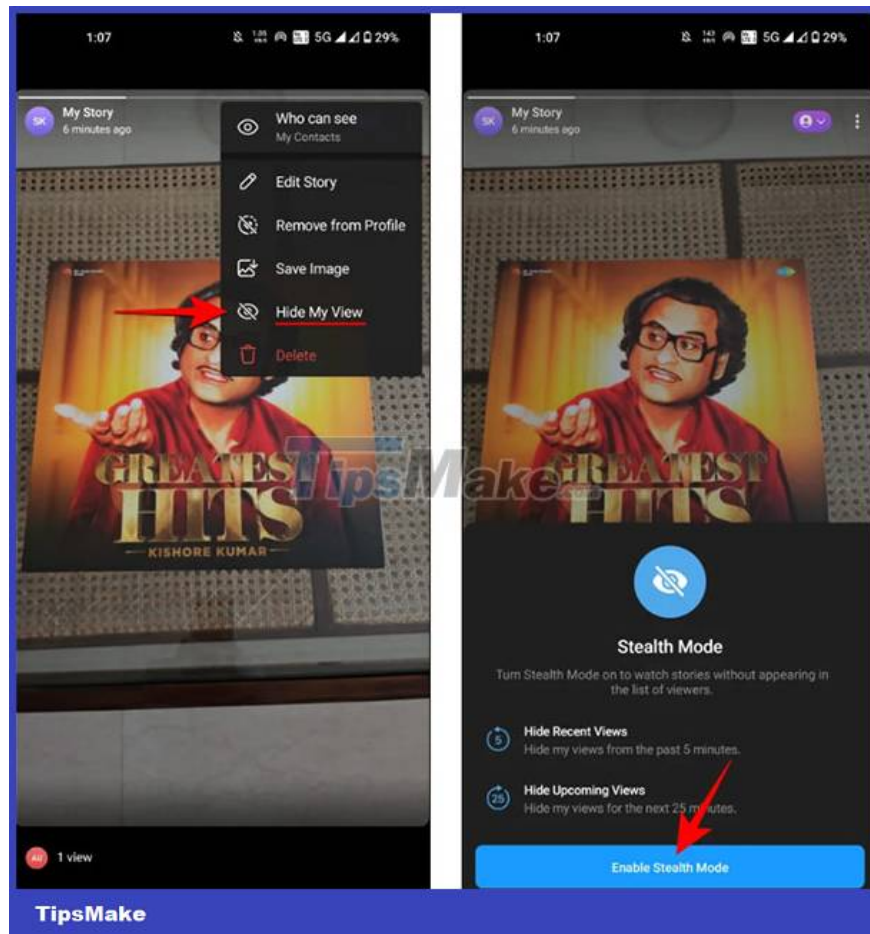

Step 1:

First, open the Telegram Story of someone who wants to see a secret. Next in the Story interface, users click on **the 3-dot icon in the top right corner of the screen.**

Step 2:

Showing options for Story, users **click Hide My View** to hide your Story views on Telegram. Now displayed below the Stealth Mode feature notification screen, users **click Enable Stealth Mode to activate the secret Telegram Story viewing mode that no one knows about.**

So when you watch someone else's Telegram Story video, they won't know you watched it. All Stories you have viewed in the previous 5 minutes will not have their names displayed and your Telegram Story views will be hidden for the next 25 minutes. This means that the incognito mode for viewing Telegram Stories will be activated for 25 minutes from the moment it is turned on and will hide the viewed mode of your Story 5 minutes before turning it on.
