

How to watch and download TikTok videos on Windows 10

The 6 Tik application on Windows 10 will help you quickly download the TikTok videos you want to watch to your computer without you having to set up an account.

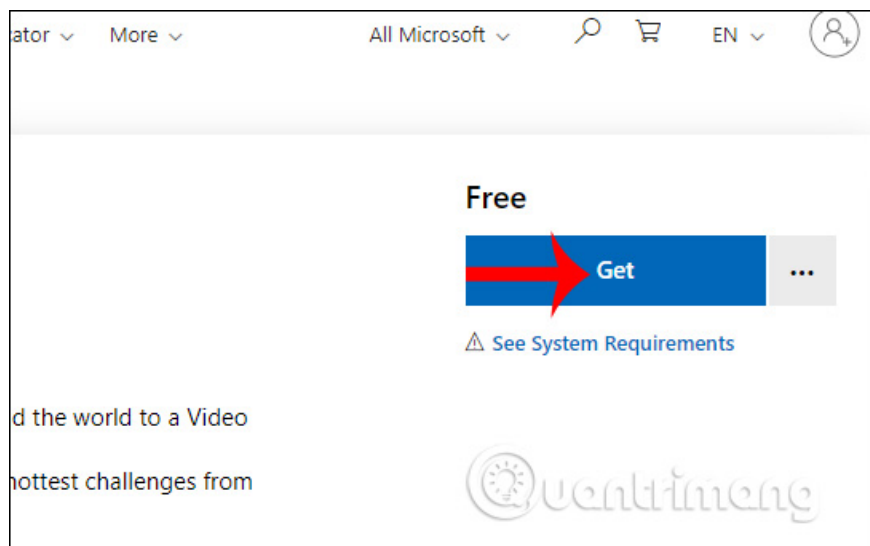

TikTok video store always brings users new things with interesting videos from many different accounts. So there are many applications that support us to watch or download TikTok videos on many different platforms without signing up for a TikTok account. 6 Tik is an application on Windows 10 that helps users find TikTok videos in many different accounts and download videos to your computer whenever you want without using other tools. The following article will guide you how to download TikTok videos on 6 Tik.

Instructions for downloading TikTok videos on 6 Tik Windows 10

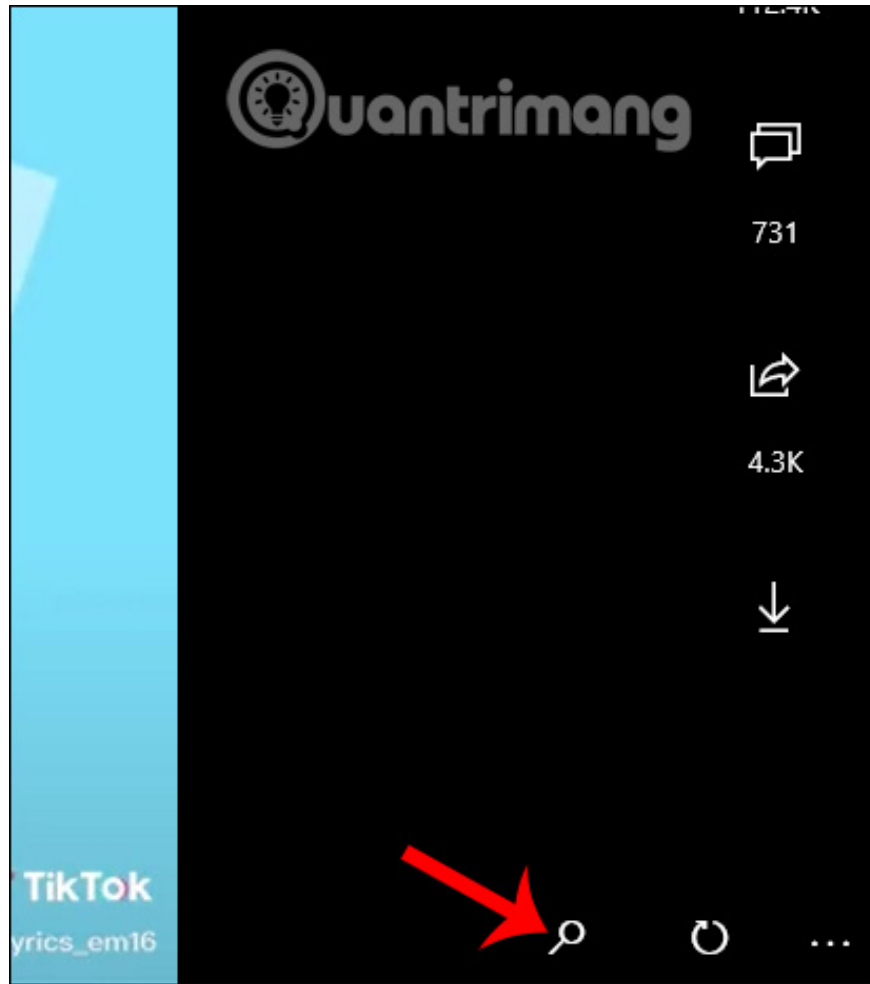

Step 1:

We download the 6 Tik application on Windows 10 by following the link below and proceed with the installation as usual.

1. Download the application 6 Tik Windows 10

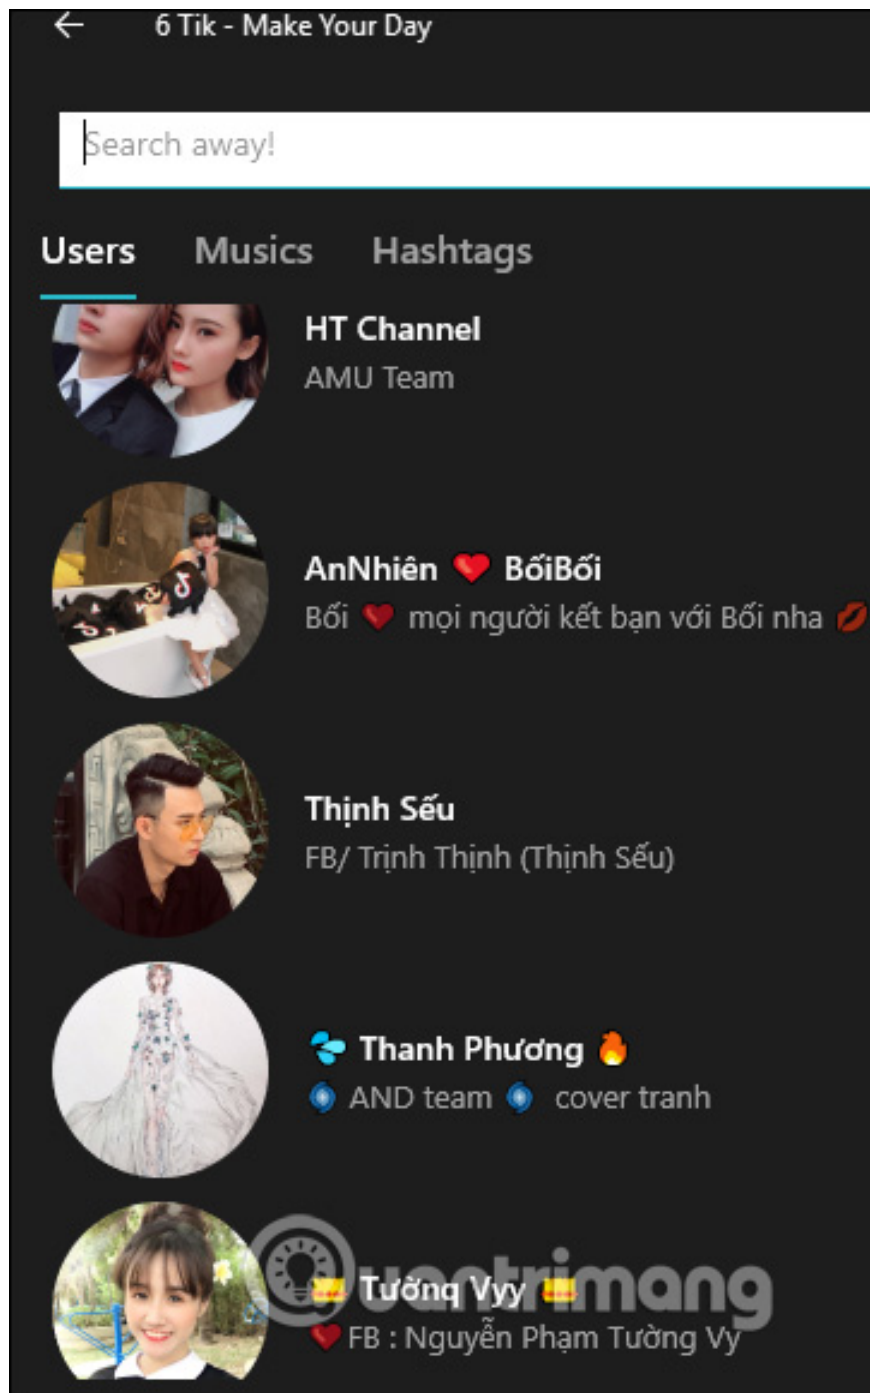

Display the application's interface, where users will see the application displays videos based on the computer's country location. Open the application, Trending videos are in the top. To **find other videos**, click on **the magnifying glass icon** as shown.

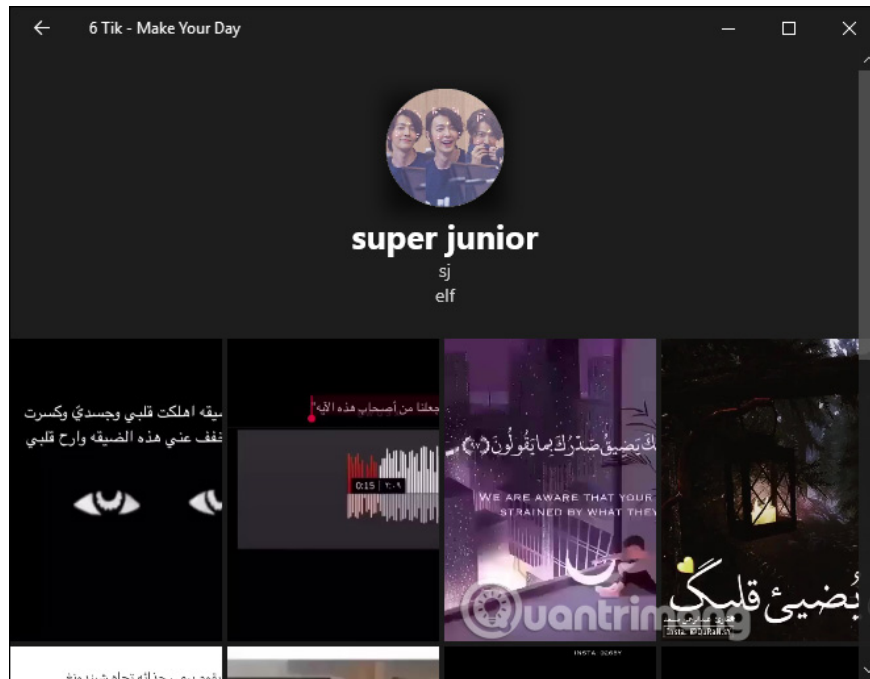

Step 2:

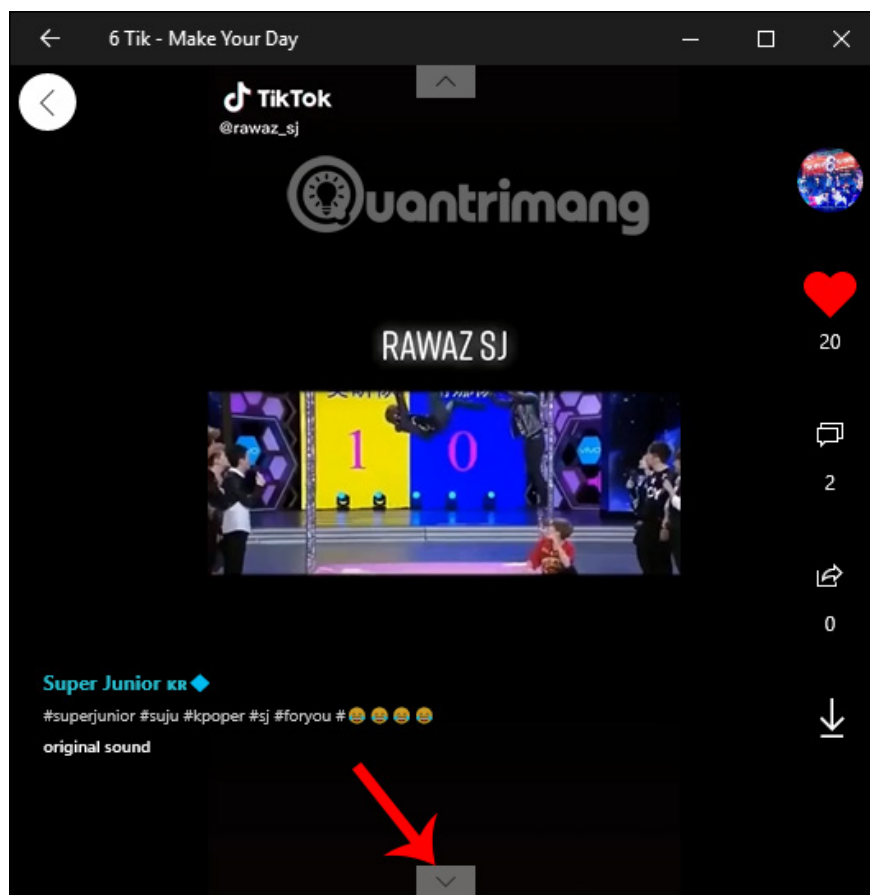

In the search interface, **enter the account name TikTok** want to watch videos.

When the account name has been displayed we click to view the interface.

Now you just need to click on the TikTok video. To switch to other videos, click the arrow icon as shown below. If you want to **download the video**, then click **the download icon** on the right side of the screen. The video is then downloaded to the computer. Note we can not like and comment on the video.
