A complete guide on how to watch and stream live on Bigo Live. Download for free to easily join, increase interaction, and earn money effectively.

## *Watch and stream live on Bigo Live*

**Step 1:** Register an account

- Refer to the instructions on how to register a Bigo Live account .

**Step 2:** On the main interface of the application, you will see other accounts that are live streaming for users to watch and follow. Simply select each user's profile picture to view that account.

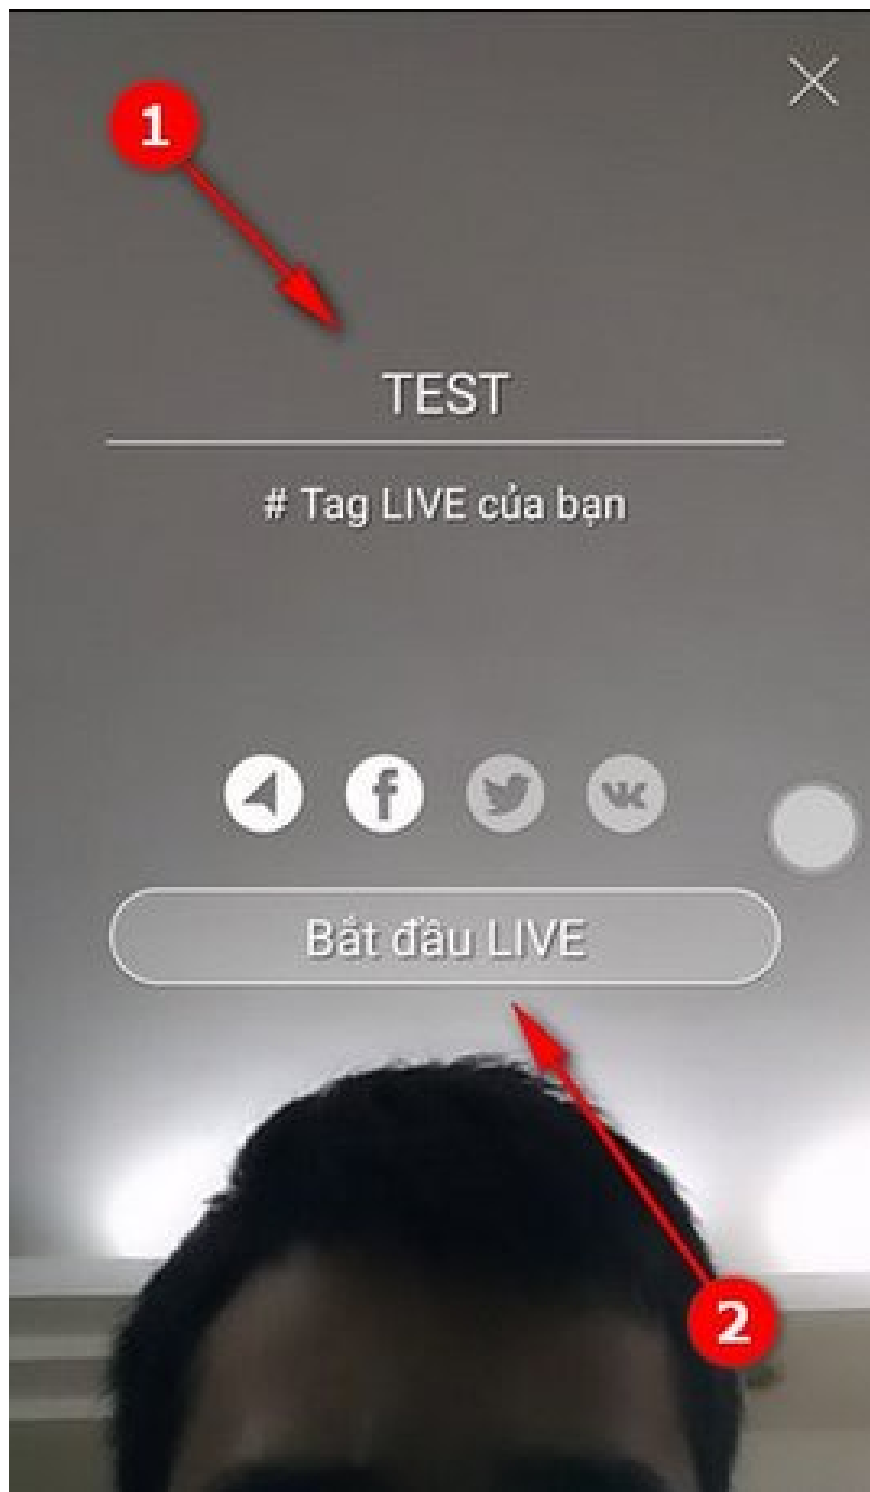

You can join conversations with other users, send gifts to the person live streaming, or **register to become a Bigo LIVE IDOL** to become an idol and join the showbiz world.

**Step 1:** To start a personal live stream, click the camera icon in the middle of the frame in Step 1.

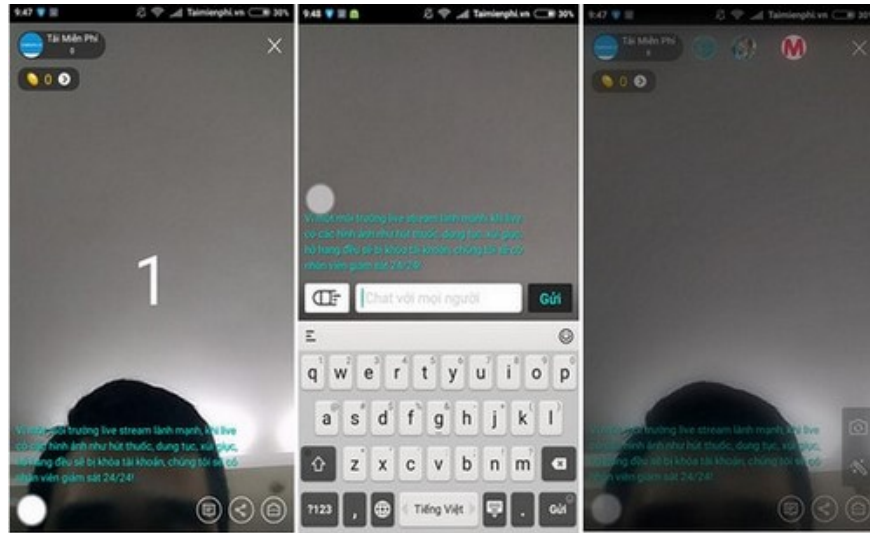

**Step 2:** Enter the name of your live stream channel. Note that you can use Vietnamese, English, with or without accents. Press Go Live to start broadcasting.

- Note: Bigo Live will give users 3 seconds to prepare and set the best frame and camera angle.

- To chat with viewers watching the broadcast, simply tap the icon in the bottom left corner of the screen to open the chat window, then type your message and tap the Send button.

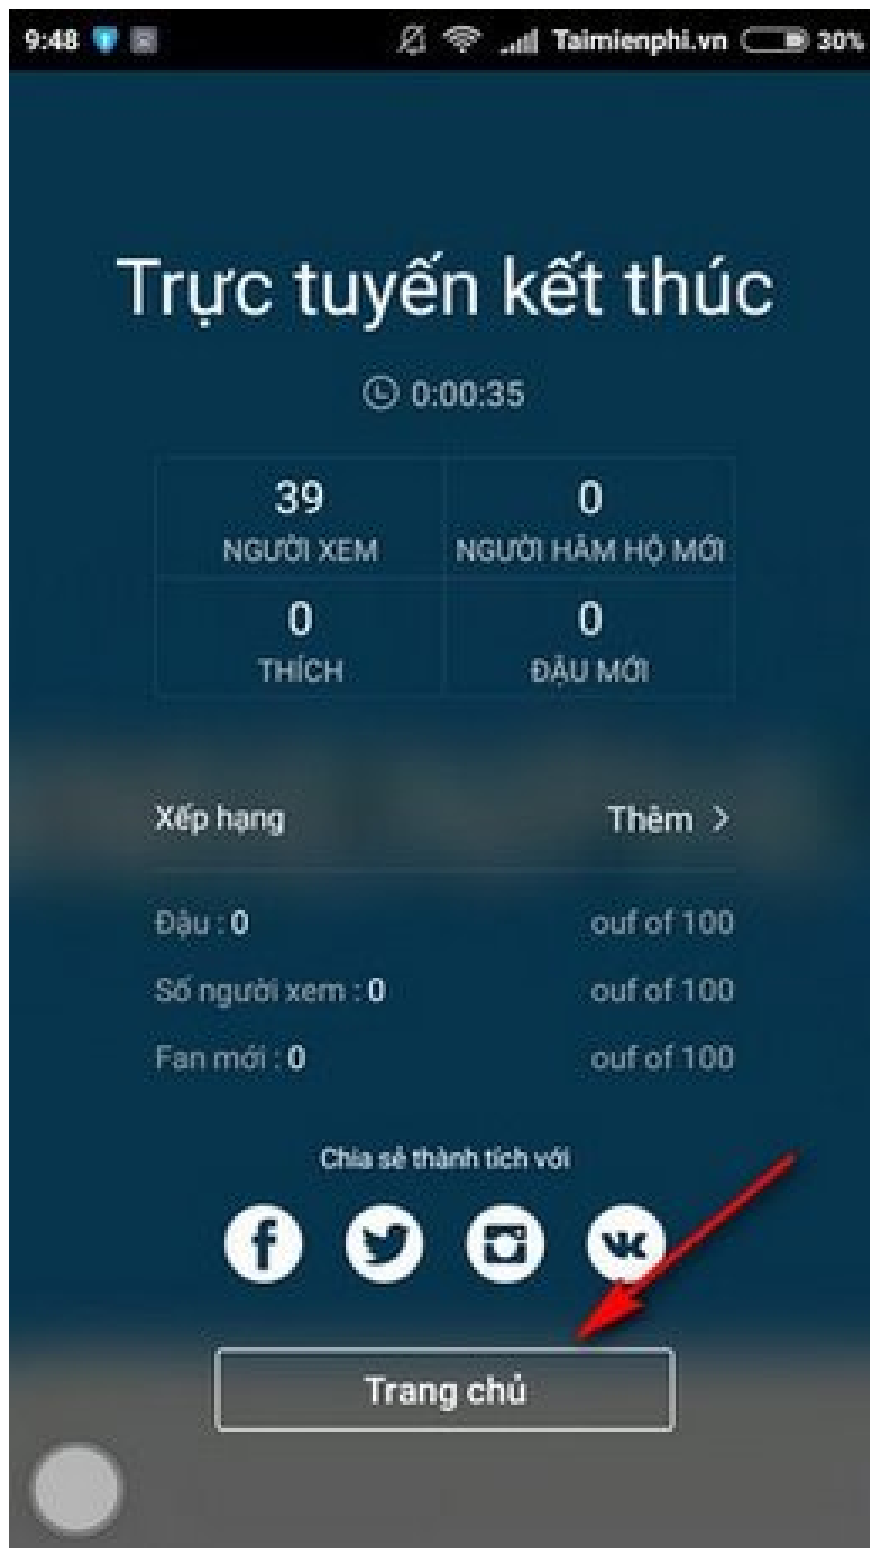

- Notably, users can also customize whether to turn on the front or rear camera during live streaming by tapping the icon in the bottom right corner of the screen. Within that icon, select the rotating camera, click the lightning bolt icon for flash, or the beauty mode icon at the bottom.

**Step 3:** If you no longer want to live stream, simply click the 'X' in the upper right corner of the screen. Then, click 'Sure' in the pop-up window to exit the live stream.

After the live stream ends, users will receive statistics on the number of viewers, the number of new fans who registered, the number of likes, and the number of beans awarded. Press **Home** to return to the main interface.

Bigo Live is a popular live streaming platform that makes watching and broadcasting live streams easy. If you want to **use Bigo Live on your computer**, you can use an emulator to experience all the features.
