

How to Watch Live TV on Kodi on PC or Mac

This wikiHow teaches you how to watch Live TV using Kodi. Kodi is a free and open sourced media player app. It has the ability to stream live TV using IPTV. Before you can watch Live TV with Kodi, you will need to set it up. You will also...

Part 1 of 2:

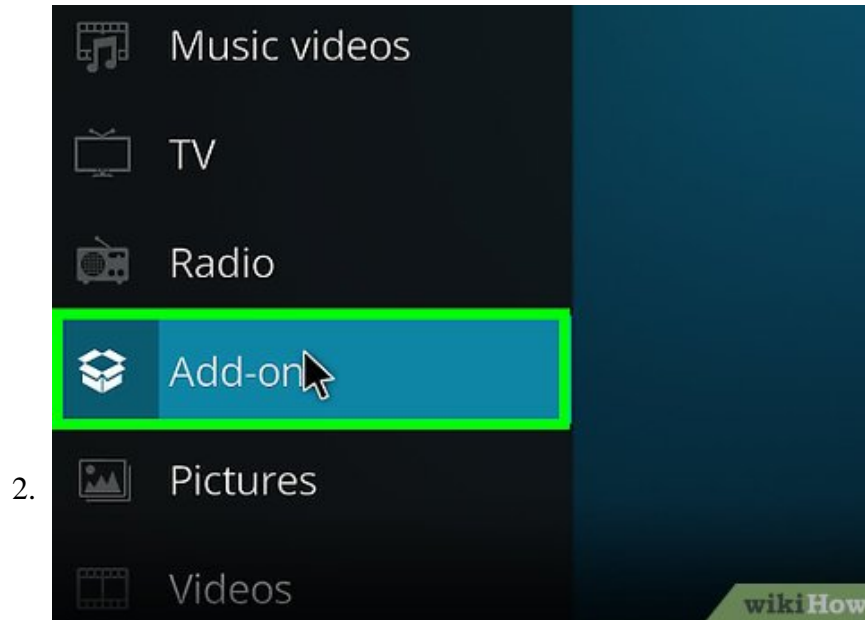

Setting Up Kodi for Live TV

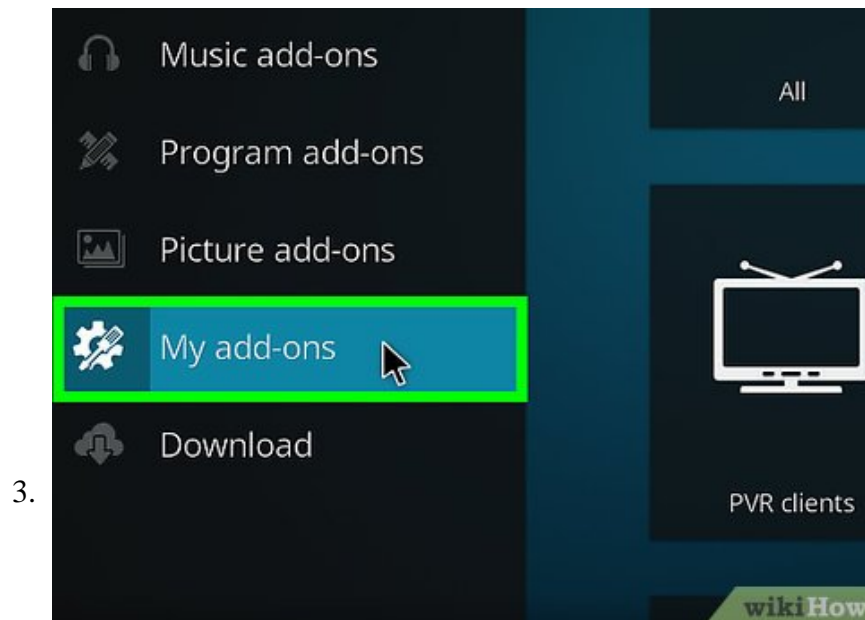

1.

Click to open Kodi. It's the app that has a blue diamond with a "K" in the middle.

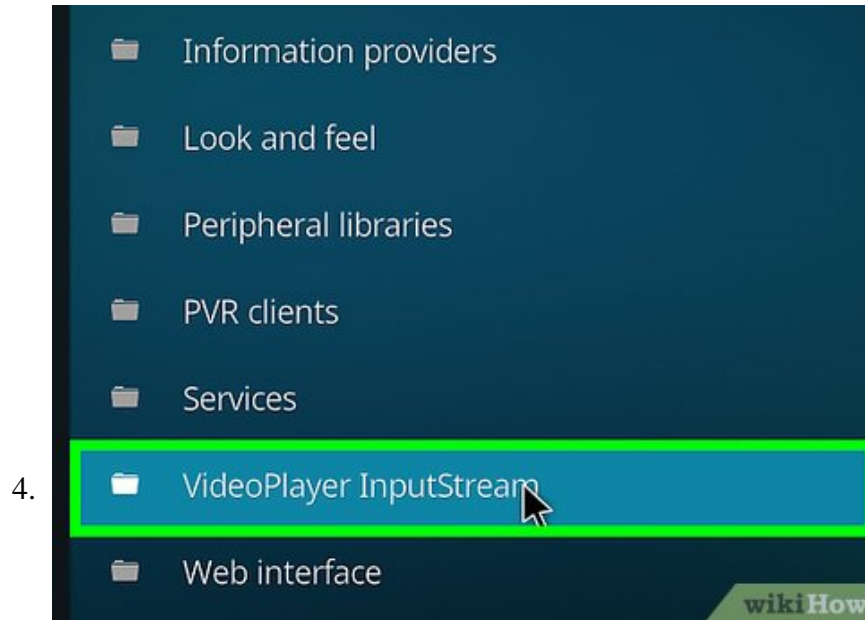

1. Click here to download Kodi. Click the Windows icon to download Kodi for PC. Click the Apple icon to download Kodi for Mac. Click the install file once it finishes downloading. By default, your downloaded files can be found in your "Downloads" folder.

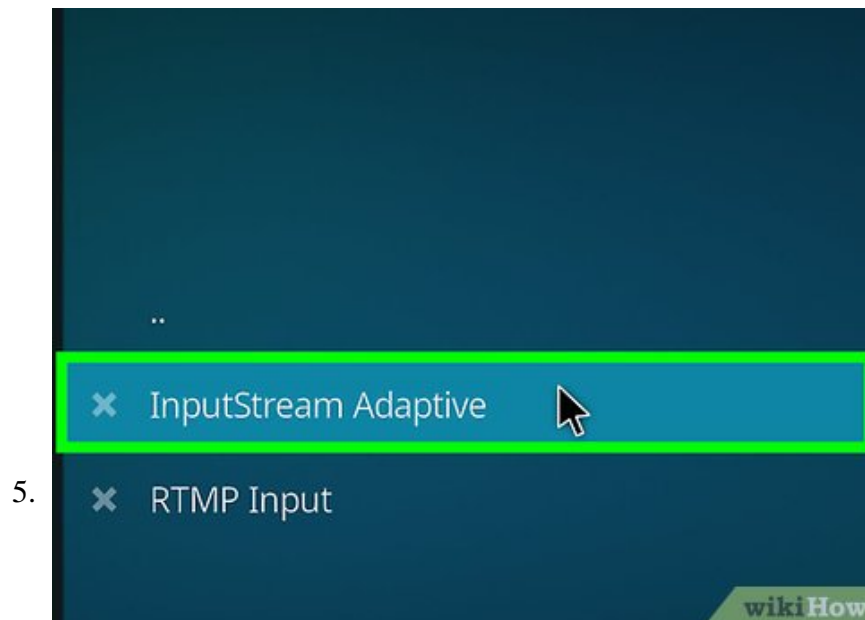

Click **Add-ons**. It's next to the icon that resembles a cardboard box in the column to the left.

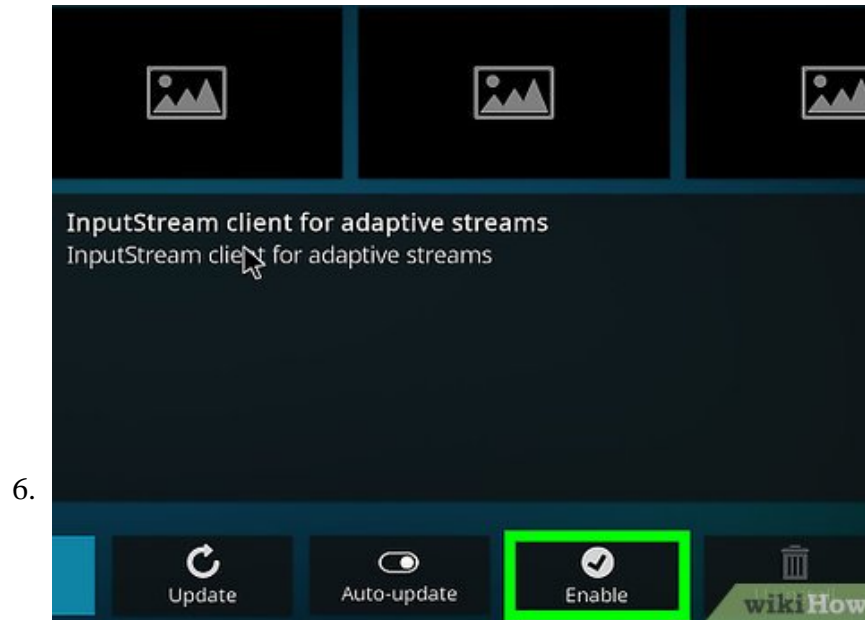

Select **My Add-ons**. Place the mouse cursor over "My Add-ons" in the column to the left to see more options.

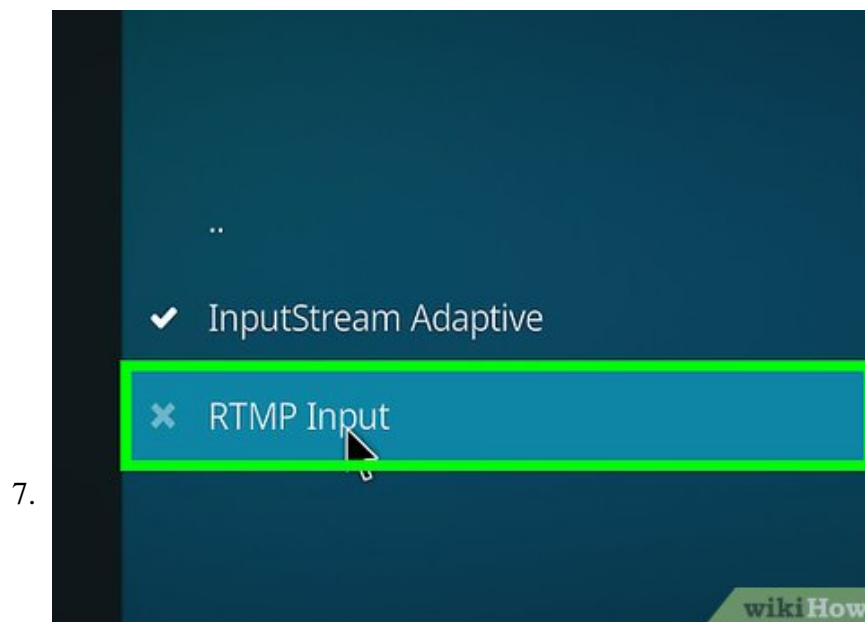

Click the `VideoPlayer InputStream` icon. It's the icon that has a "+" sign over a bracket.

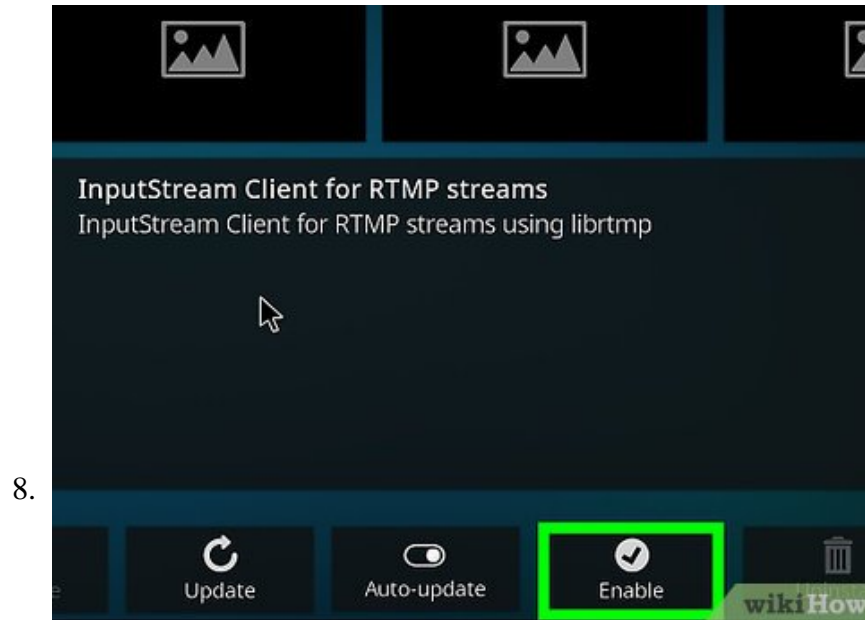

Click `InputStream Adaptive`. It's the first option in the "VideoPlayer InputStream" menu.

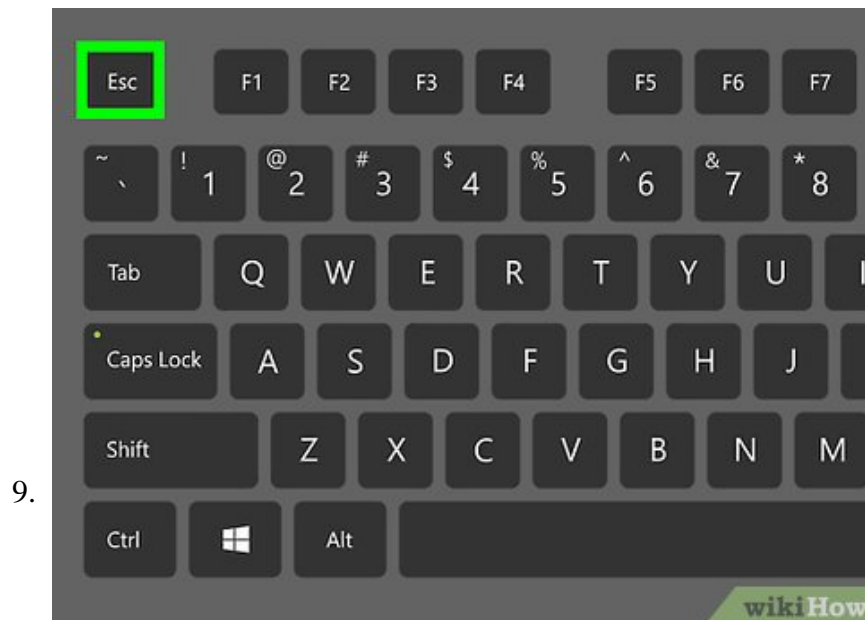

Click **Enable**. It's the fifth tab at the bottom of the screen. Press **Esc** to go back to the VideoPlayer InputStream menu.

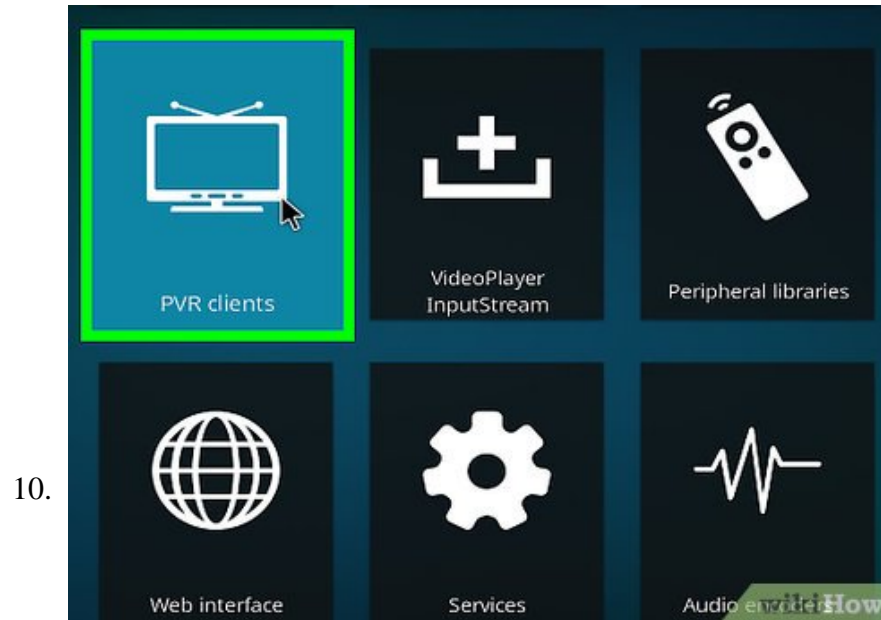

Click **RTMP Input**. It's the second option in the VideoPlayer InputStream menu.

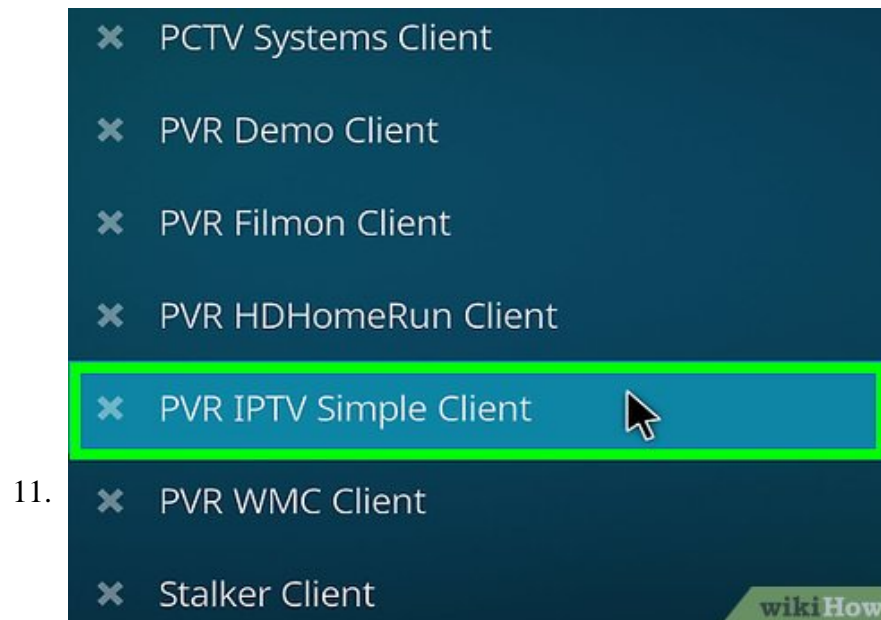

Click **Enable**. It's the fifth tab at the bottom of the screen.

Press **Esc** two times. This will back out of the RTMP Input menu, all the way back to the Add-ons menu.

Click **PVR Clients**. It's has an icon of a TV.

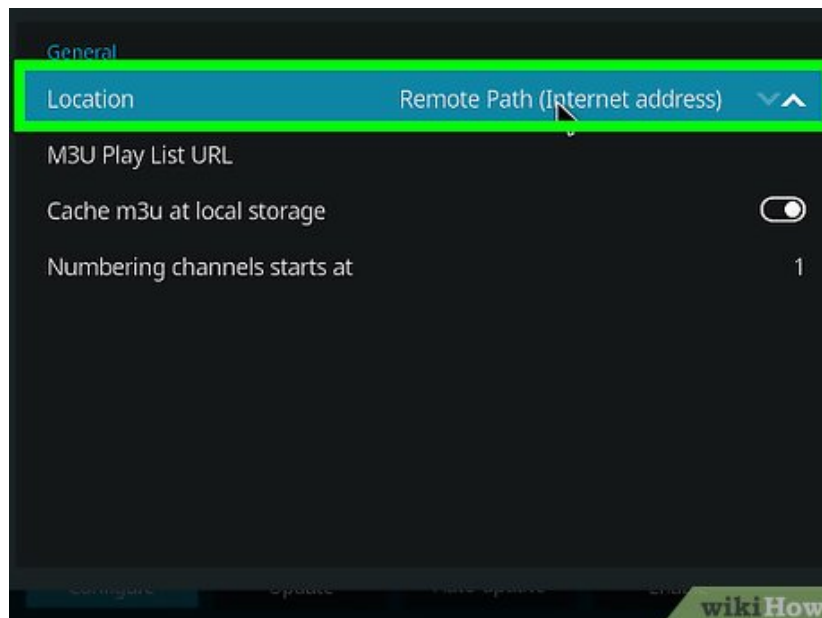

Click **PVR IPTV Simple Client**. It's towards the bottom of the list of clients.

12.

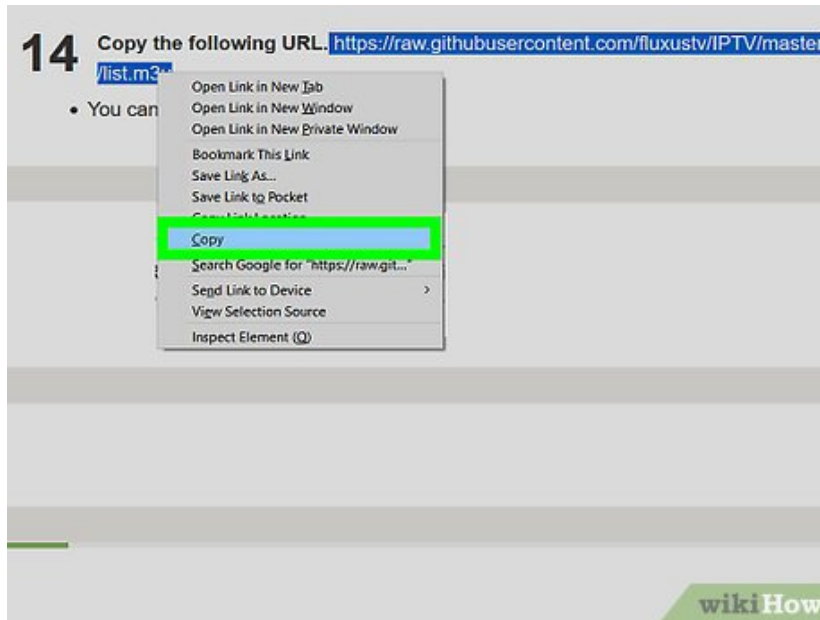

Click **Configure**. It's the second tap at the bottom of the screen. It has an icon with three slider bars.

13.

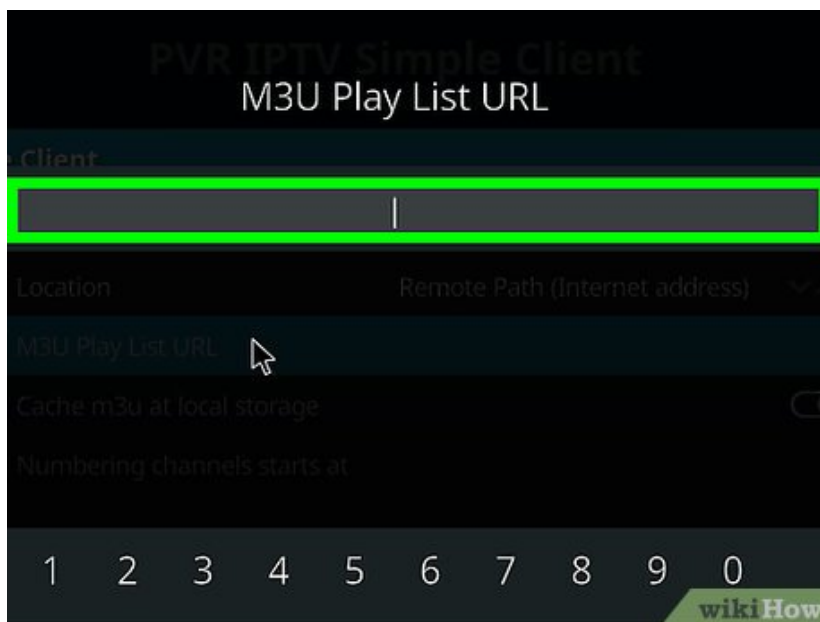

Select **"Remote Path (Internet Address)"** in **"Location"**. It's one of two options available under **"Location"**. You can toggle the two options by clicking the arrow buttons.

14.

Copy the following URL. <https://raw.githubusercontent.com/fluxustv/IPTV/master/list.m3u>

1. You can find more IPTV lists here.

15.

Paste the URL in "M3U Play List URL" and click **OK.** Click the bar where the URL goes. Paste the URL by pressing **Ctrl + v** on PC, or **Command + v** on Mac. Click "Ok" when you are done. You will be taken back to the PVR IPTV Simple Client main menu.

16.

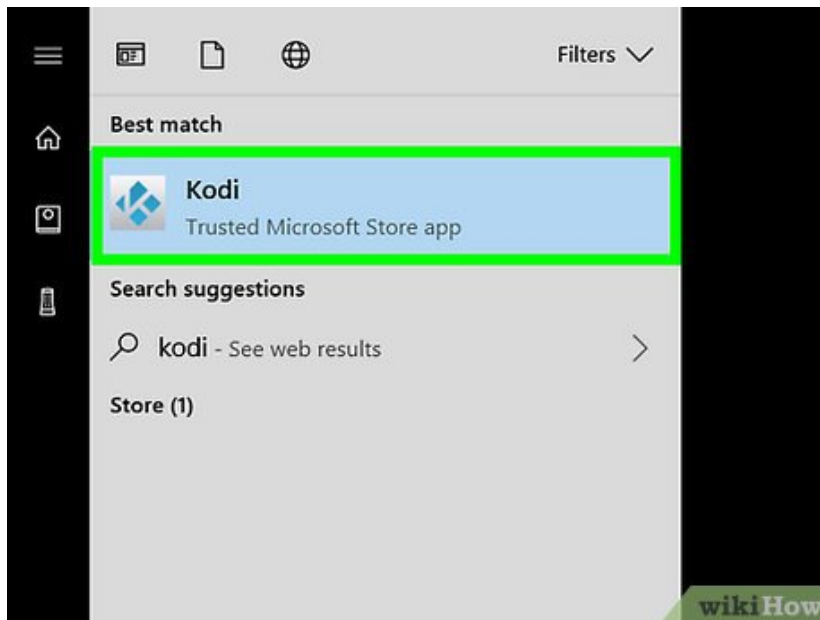

Click **Enable**. Kodi will now start loading all the channels. It may take a few minutes.

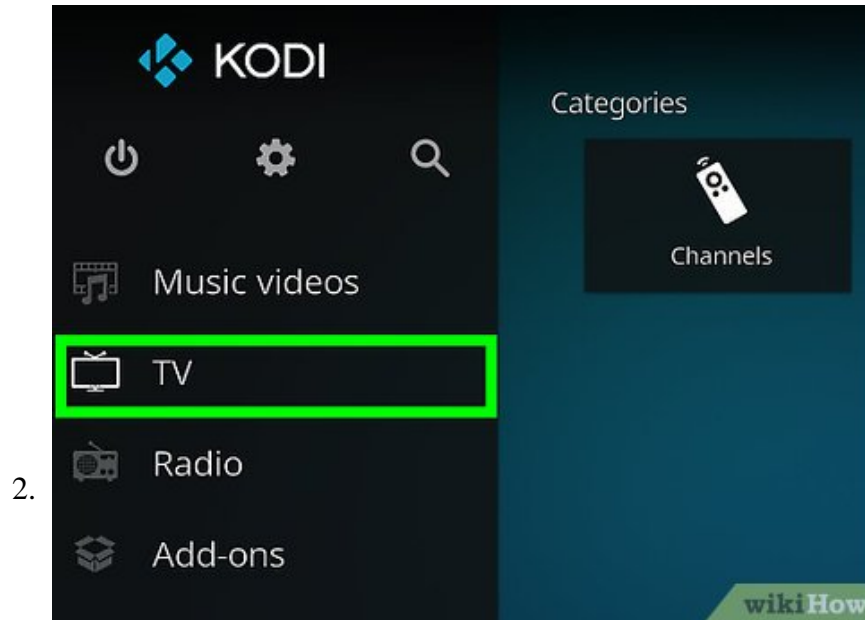

Part 2 of 2:

Watching Live TV On Kodi

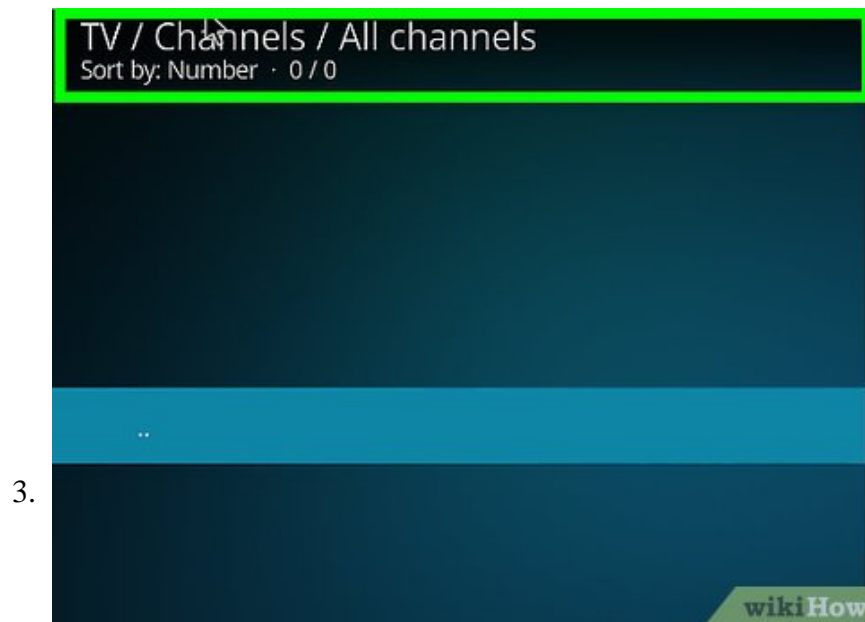

1.

Click to open **Kodi**. It's the app that has a blue diamond with a "K" in the middle.

Select **TV**. Place the mouse cursor over "TV" to see the live TV options.

Click **Channels**. This will list all the channels in the column to the left.

Click a channel. This will load the live channel. Some channels may not work.

1. To change channels, click the icon that resembles a remote in the lower-right corner. Then select a different channel.
2. To exit Kodi, click the white square in the lower-left corner. Click the power icon in the upper-left corner. It's the icon that has a circle with a line through the top. Then click "Exit".
