## 1. Watch YouTube, movies online with friends at the same time with MyCicle

MyCicle is a service that supports sharing videos at the same time, you can select videos on YouTube, Dailymotion, Vimeo, SoundCloud or computer videos and chat with friends by conversation or text. Follow these steps:

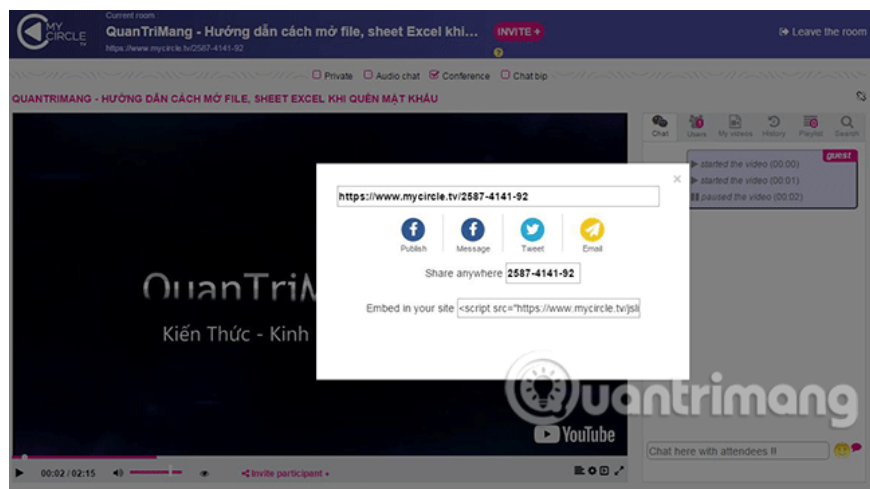

**Step 1:** First, we need to access the home page of *mycircle.tv* service to start the video sharer.

**Step 2:** At the search box, enter the name of the video you want to share (search on YouTube, Dailymotion, Vimeo, SoundCloud) or copy and paste the video link directly into the search box. Then click the right arrow as shown below.

In addition, you can also use videos from personal devices (computers, phones, .) to share and watch with friends by clicking *Upload and share* to perform, this function requires to have account.

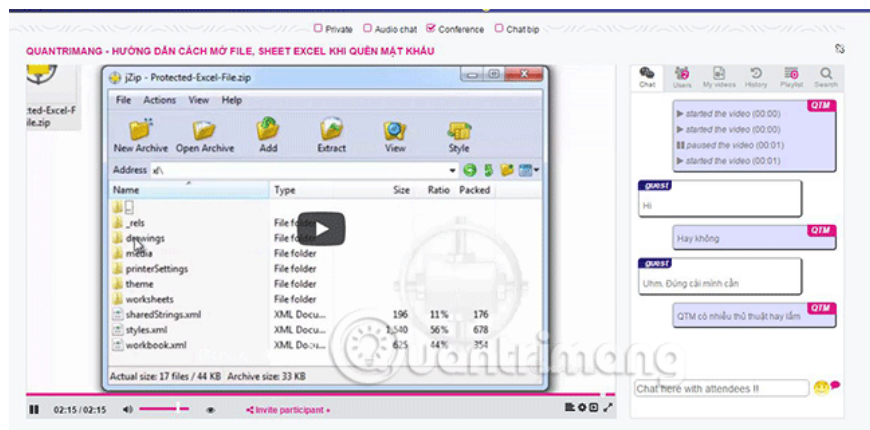

**Step 3:** After selecting the video, invite your friends to watch online by clicking on the *Invite* icon. Now there are many options for you such as copying the address to your friends, sharing on Facebook, sending messages via Facebook Messenger, . to invite friends to see.

For example, in this article we use the feature to send messages via Facebook Messenger to share videos and invite friends to watch.

**Step 4:** When sharing successfully, you and your friends will watch the video with the same content, the same video playback time. In addition, MyCircle also provides users to add *Chat* feature To chat and *Audio chat* to talk directly to each other is very interesting.

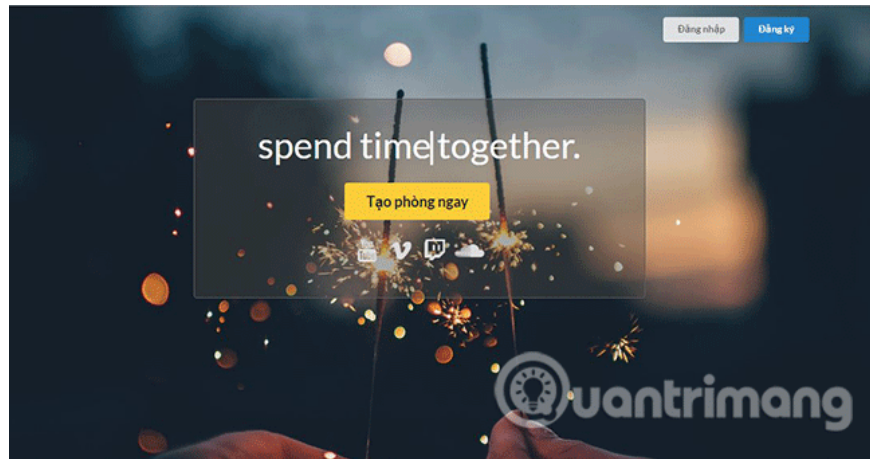

## 2. Watch YouTube, movies online with friends far away with Watch2Gether

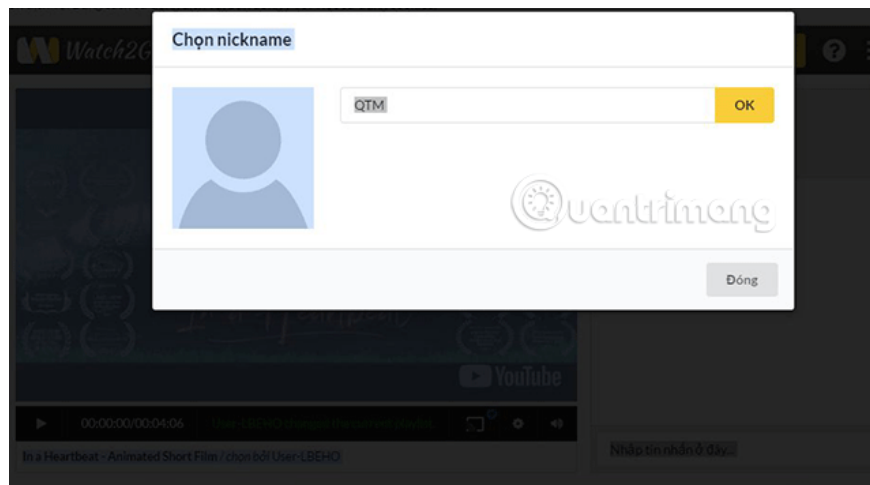

Watch2gether is a video sharing platform similar to MyCircle, which is a video sharing service through creating virtual movie rooms. However, Watch2Gether is more convenient with many good functions, especially Vietnamese support and video calling feature. To create a movie room, you can refer to the following guide:

**Step 1:** Access the homepage of the service under the *watch2gether.com* link .

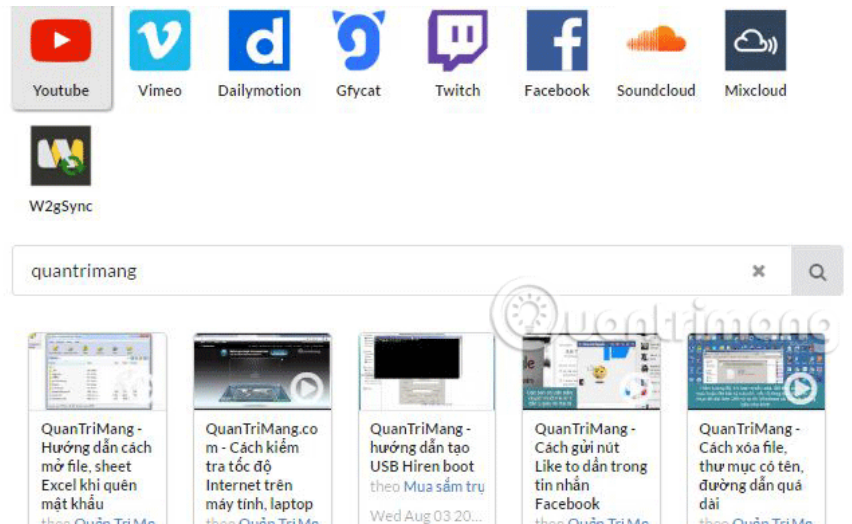

**Step 2:** Click *Create room now* you will be redirected to the movie creation room.

**Step 3:** Next, enter the room name you want to enter and click *OK* to confirm.

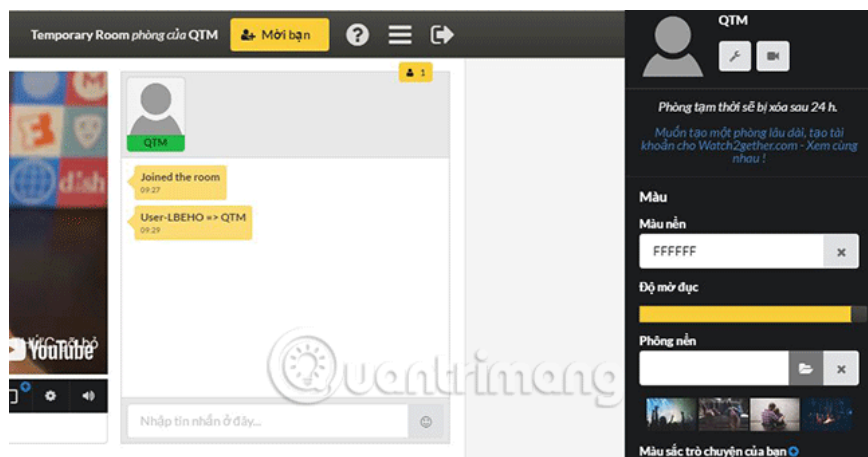

**Step 3:** At the interface you can search or paste the video link to launch the share.

**Step 4:** Click on the item to invite you and send the watch link for the person to share.

**Step 5:** During the viewing process, you can chat to your friends by clicking on the 3 tiles icon on the right side of the screen. If you want to make a video call, choose the video icon.

In addition, in the *My account* menu bar, you can set the transparency for the frame, background color, insert wallpaper for the view room, chat box color, and allow the management of selected videos and lists. play, . to your liking.

**Note:** This service is free for you to use and does not require an account, but there is a limit that you can only use the viewing room for 24 hours. For long-term use and activation of other functions, you should register an account.

So, we showed you how to use the MyCircle and Watch2Gether services to watch YouTube, movies online with friends at the same time.
