

How to watch YouTube videos like in the theater

The YouTube Ambilight gadget brings a whole new dimension of watching YouTube videos, like in the cinema room.

The YouTube video viewing interface is generally very simple and doesn't have any changes. If you want to change the look and create a new space when watching YouTube videos, you can install the YouTube Ambilight utility. This utility will create a small movie theater when watching YouTube videos, accompanied by a reflection effect from the watching video. At that time, the feeling of watching movies at the cinema was much more real, creating excitement for users. The following article will guide you how to use the YouTube Ambilight extension on Chrome.

Instructions for changing the look of YouTube videos

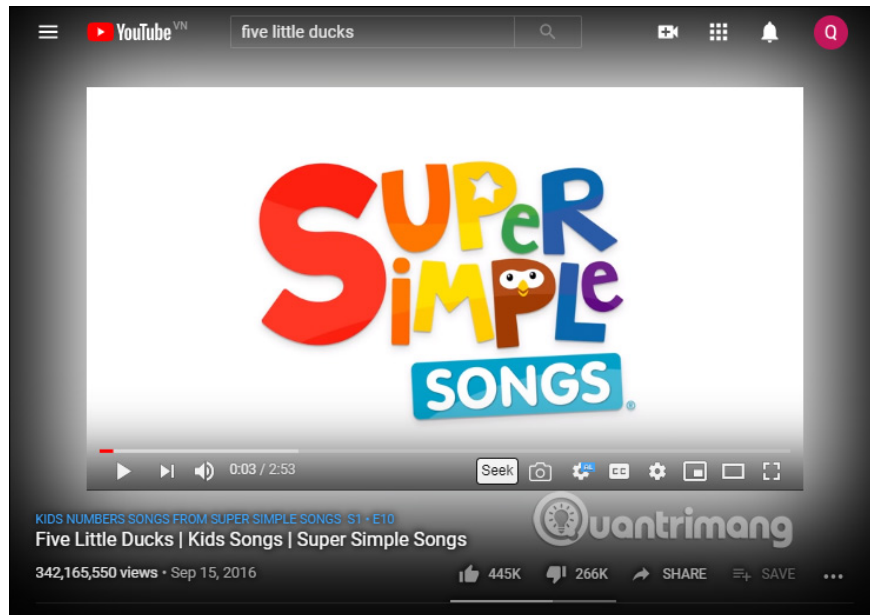

Step 1:

Users download the YouTube Ambilight extension on the Chrome browser below and then proceed with the installation as usual.

1. Download the YouTube Ambilight Chrome extension

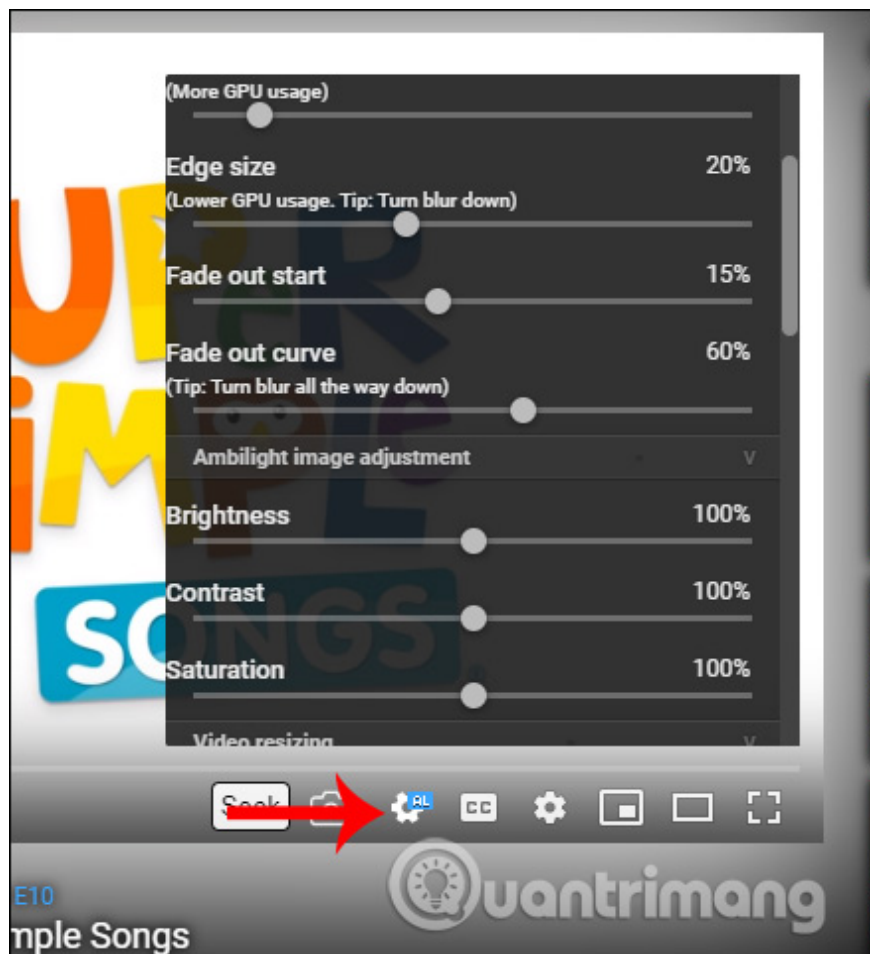

Step 2:

After installation is complete we open YouTube and immediately see the video viewing interface has been changed. The interface switches to a dark background like watching a movie in the theater, around the frame is the image and light reflected from the video.

Step 3:

If users want to adjust the effect when watching YouTube videos, we click on **the gear icon with the letter AL** . Then display the panel to adjust the effect such as light, contrast, light reflection area, or adjust the size of the video screen horizontally, . Each adjustment is divided into other groups. Video resizing, Other page content, .

The utility offers a completely different YouTube video viewing interface, making it feel like you have watched a movie at the theater. Bright screen effects can be changed according to each person's choice.
