## Step 2:

Below are the different background themes for us to choose from. Each theme has many different types of backgrounds that are very interesting. Zalo also has the same color scheme as on Facebook, if you don't want to use landscape backdrops.

In each thumbnail of the background will include the type of font as well as the color of the text so that users can preview the status when posting will show the font.

### Step 3:

Select a background style and write the state as usual. Next we add the location, tag our friends if we want. In case the background is not suitable, you can click on **the icon of the square** below to show the background themes.

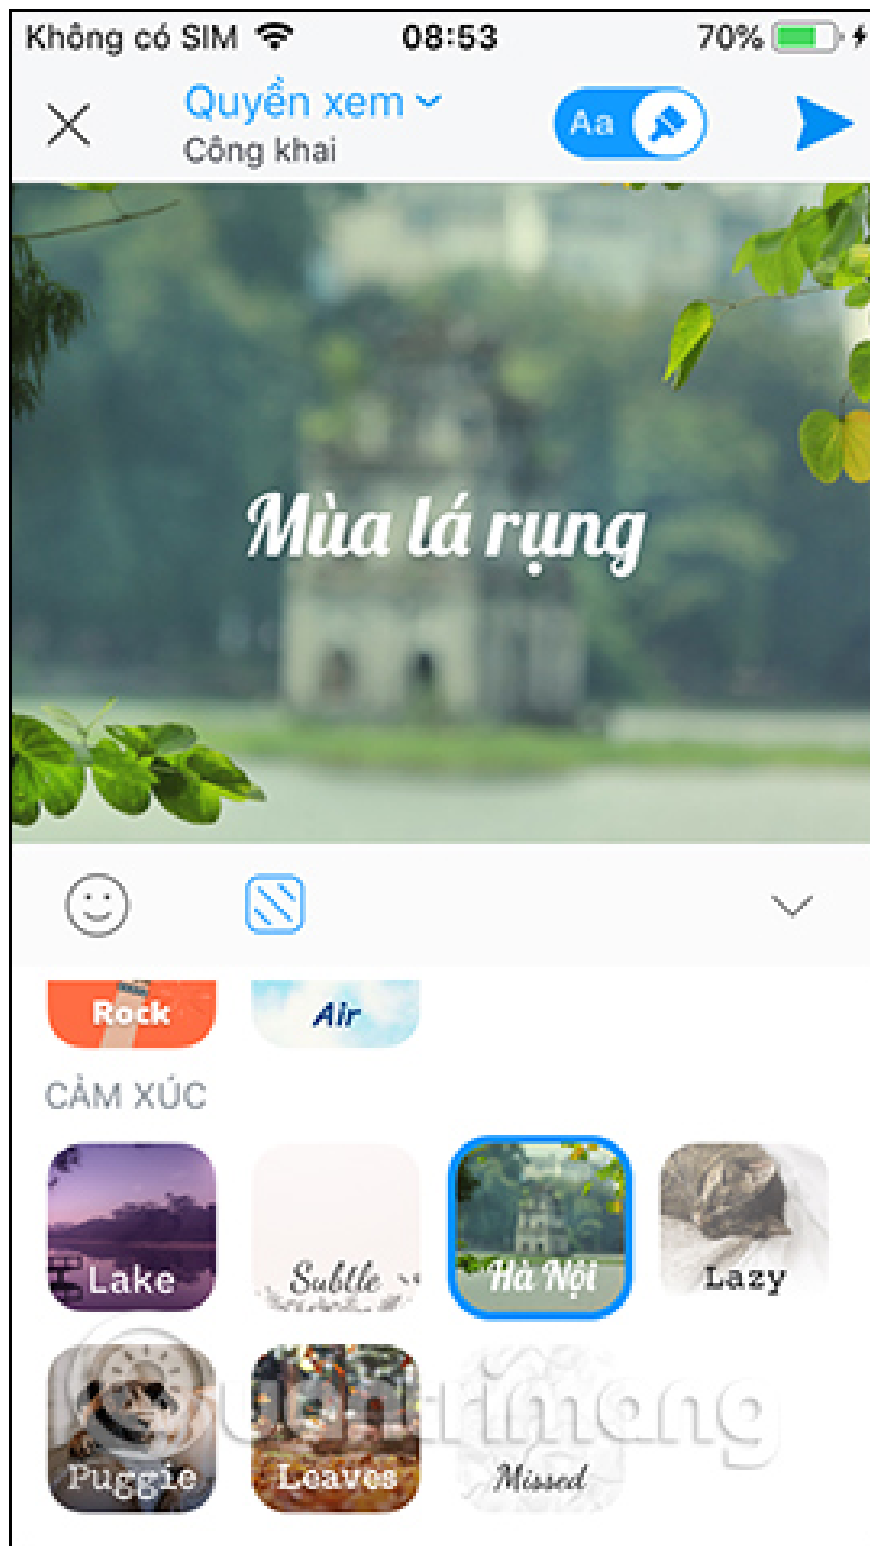

Here you click on the theme of the wallpaper you want to change.
