

How to write blue letters, write status, comment on Facebook

You can write status or comment blue on Facebook very easily.

Writing blue text on Facebook for status or comment lines is an interesting and unique way for others. Although Facebook also supports colorful background styles with many different themes and textures, users can create artistic fonts on Facebook, such as bold, italic or with fonts. strange words. With the blue typography on Facebook, users will need to get their personal Facebook ID, then use the command line to write content to create a blue text. The following article will guide you how to read the blue text on Facebook.

1. How to post color status on Facebook computer
2. How to post Facebook status with multiple languages
3. How to post Facebook status with sticker
4. How to use the new Story feature on Facebook

Instructions for creating blue text on Facebook

Step 1:

To write blue text on Facebook, users first need to know the personal Facebook account ID. You can do so via the Findmyfbid website according to the article How to View Facebook ID? of Network Administrator.

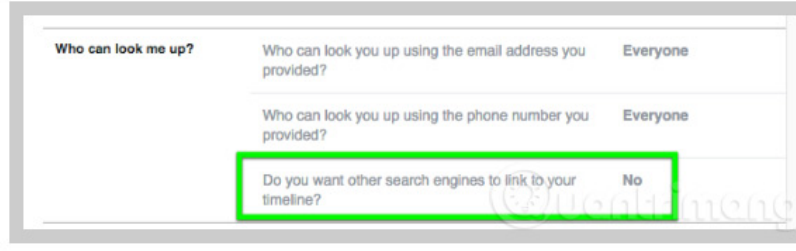

In case of error like image, user needs to access the Settings section on Facebook to change the settings again. Go to Settings and click on the **Privacy** section.

Error

Sorry, we could not find your Facebook numeric ID.

The most common reason for this failure is that you need to *temporarily allow search engine access* to the public information on your profile page. To do this, go to your Facebook [privacy settings page](#) and allow search engines to link to your timeline. Then come back here and try again. After successfully retrieving your Facebook ID, you can revert the privacy setting to it's former state.

Then look at the content on the right at the section **How people contact you** , look down on the option **Would you like a search engine outside of Facebook to link to your personal page?** and switch to **Yes mode** . Click the Close button to close the interface.

The user then returns to find the Facebook ID as usual.

Step 2:

Next, users access the link below to access Facebook page.

1. <https://mbasic.facebook.com>

Here we will write the status line with the formula **@ [0: [ID: 1: Your content here]]**. **@ [ID: #]** . In which ID is your Facebook ID found above. Finally press **the Post button** as usual.

The status line results on Facebook will be written in green as shown below.

With the blue Facebook comment line, we do the same, access the article on this interface of Facebook and write a comment on the command line as above.

The fact of writing blue text on Facebook is to put the link for the text. When you have completed the status or green comment on Facebook, when clicking on the user will be directed to your own personal page if using your Facebook ID. If you want to link to Facebook page of your friends or Facebook groups, users need to change to @@ [0: [ID: 1: Content written]]. @ [ID: website link to] is okay.

I wish you all success!
