

How to write in bold on Facebook

If you are a Facebook user, you will see some articles written in bold, underlined, upside down, ... In fact, on the Facebook application, there is no such format. , so how did they write such interesting words?

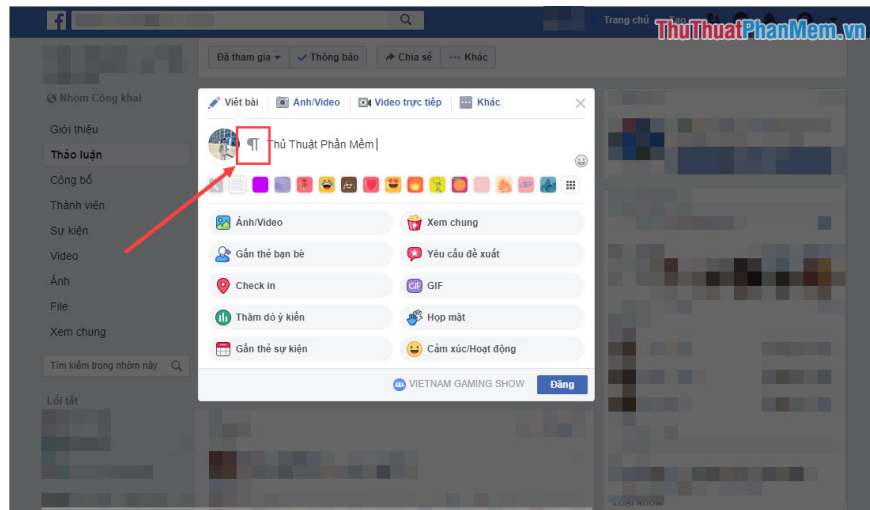

If you are a Facebook user, you will see some articles written in bold, underlined, upside down, . In fact, on the Facebook application, there is no such format. , so how did they write such interesting words? In this article, Software Tips will guide you how to write bold letters on Facebook.

I. Write bold letters on Facebook directly

***Note:** The feature in bold on Facebook is currently in beta, so you can only write on the Facebook Website interface (Computers) and only write in groups and groups. If you want to find ways to write bold text for both personal pages and all content on Facebook, go to section II.*

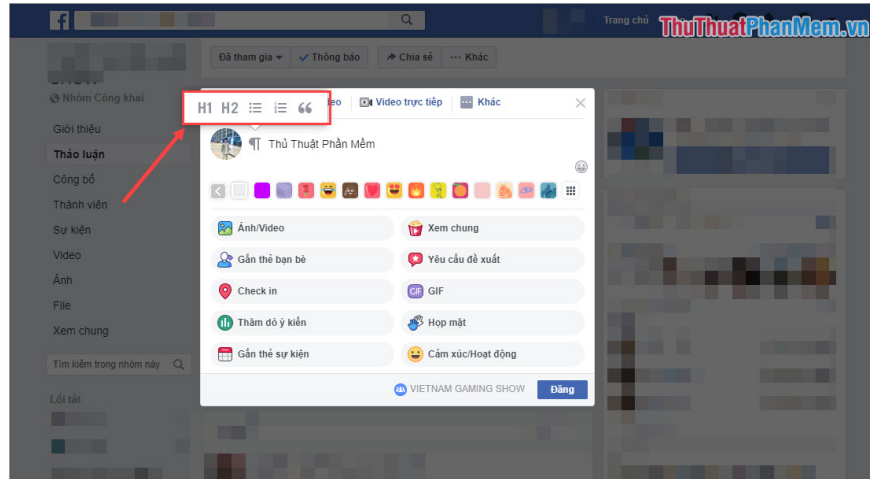

Step 1: You proceed to write Status normally. After writing, at the beginning of each sentence we will have the **Format** icon , you click to see the word format of Facebook.

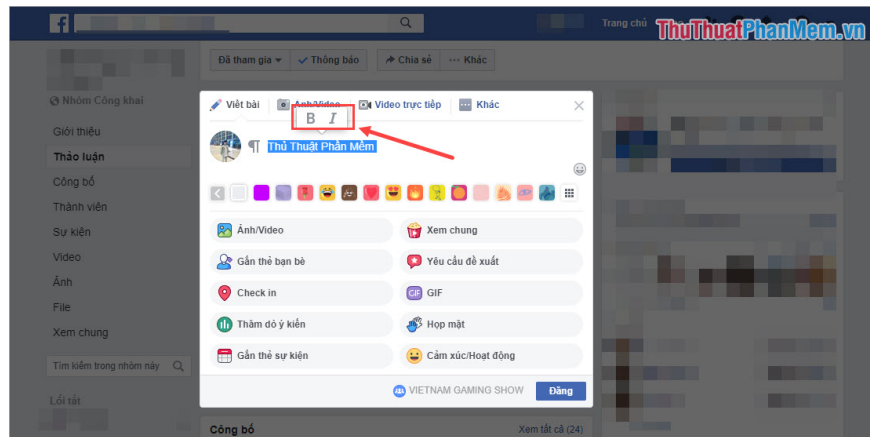

Step 2: We will have 5 main types of formats as follows:

1. **H1:** Heading 1 - Big headings
2. **H2:** Heading 2 - Small heading
3. Put a dot at the beginning of each line
4. Numbering each line break
5. Opening and closing a piece of content

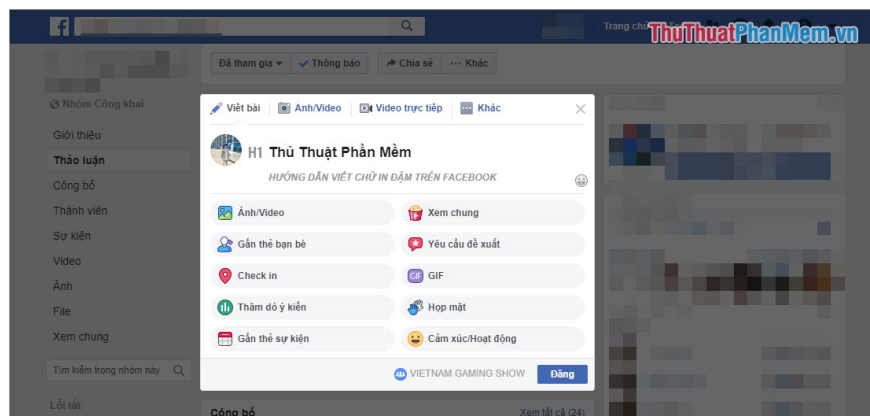

Depending on your needs, choose a suitable one. For this example, we will title it Software **Tips**, so we will need to set **Heading H1** for it.

Step 3 : Next, you highlight the entire text, it will display the icon **in bold** and **italics** . If you select **Bold** text, the **highlighted** words will be bold for you.

And this is our final result after formatting **Heading H1** and **Bold** .

II. Write bold text on Facebook indirectly

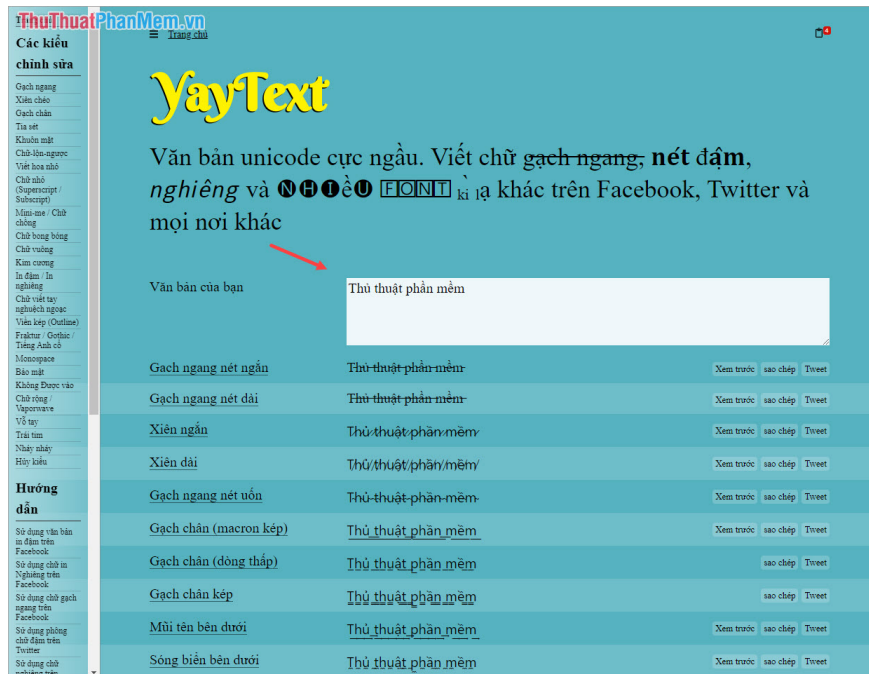

The indirect bolding on Facebook we will use via a third tool, it will apply to all content on Facebook.

Homepage: <https://yaytext.com/>

Step 1: You proceed to the homepage to use the tool. Then, you proceed to enter the text you want to write into the dialog box.

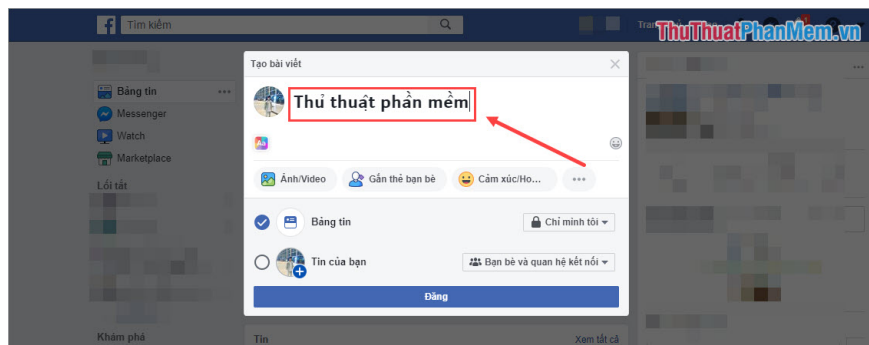

Step 2: After writing the text, you will see different word formats for you to choose.

Step 3: The boldface format is at the bottom, so scroll down to see. When you have selected a satisfactory format, click **Copy** to continue.
