How to write text in Paint. As you know, Paint is a simple graphics application available on Windows operating systems. Paint is a tool for you to draw and edit images simply, Paint also supports you the ability to write text on photos.

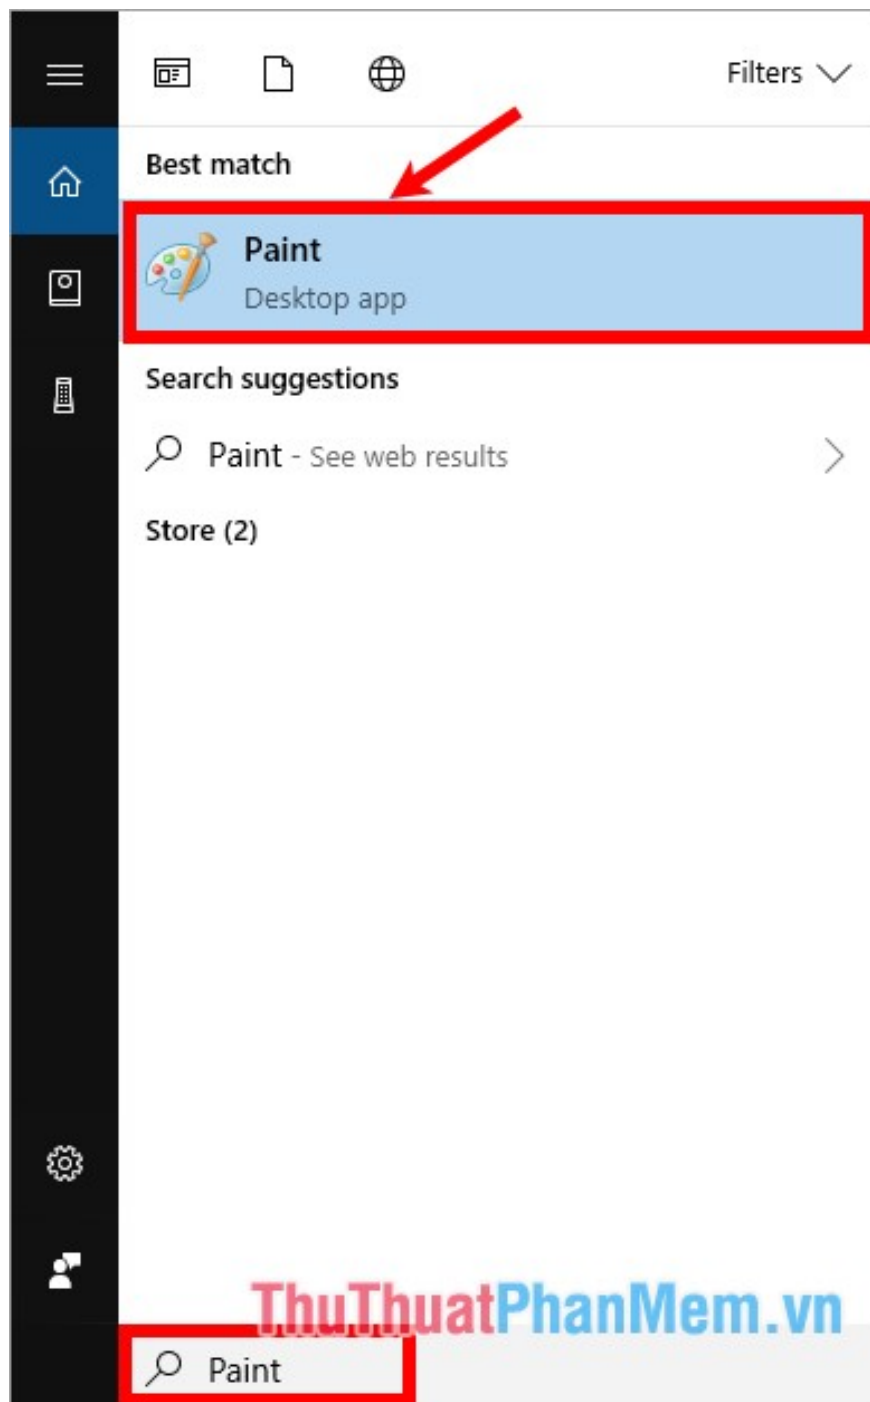

As you know, Paint is a simple graphics application available on Windows operating systems. Paint is a tool for you to draw and edit images simply, Paint also supports you the ability to write text on photos. If you need to write text on images without requiring too many effects, you can use Paint.

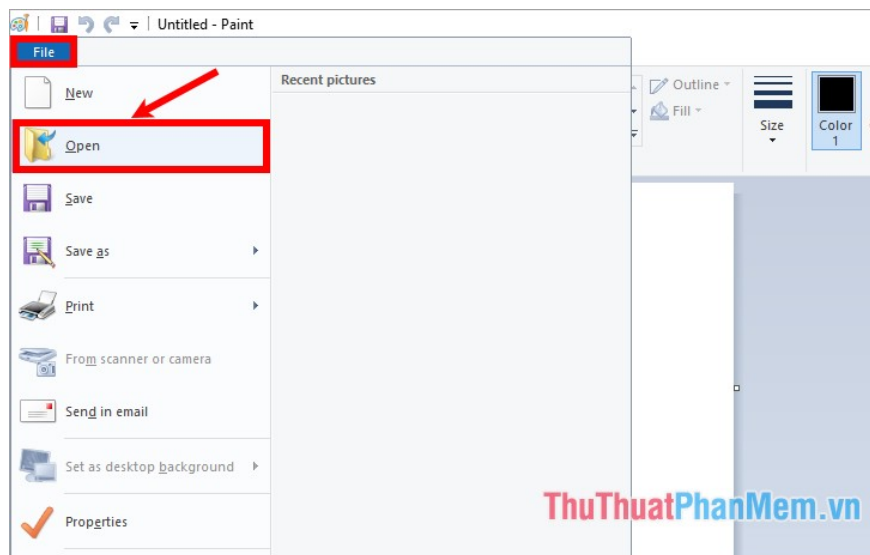

Below is a guide on how to write text in Paint, please refer to it.

## Step 1: Open the image on Paint

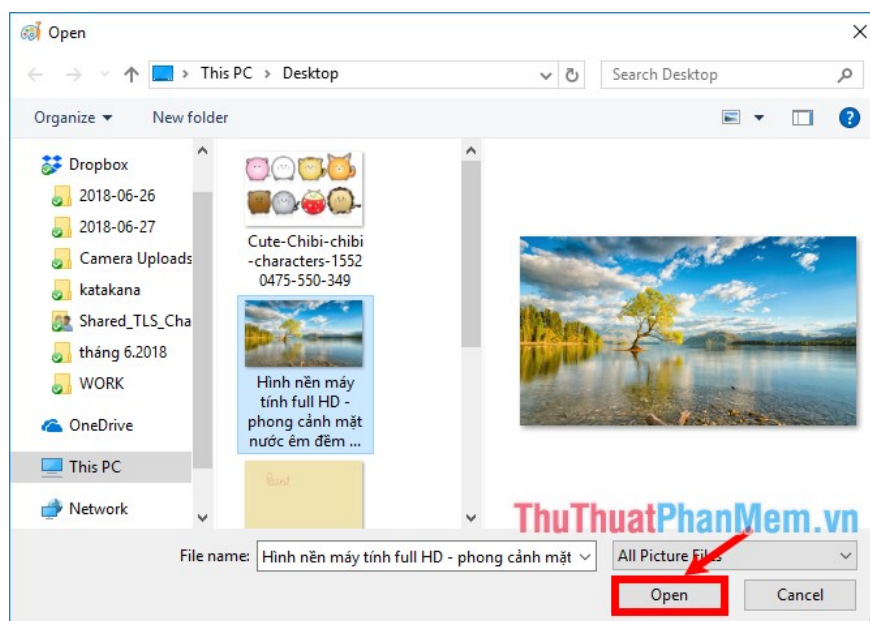

Open Paint by entering keywords **Paint** in the search box **search box** then select the Paint application.

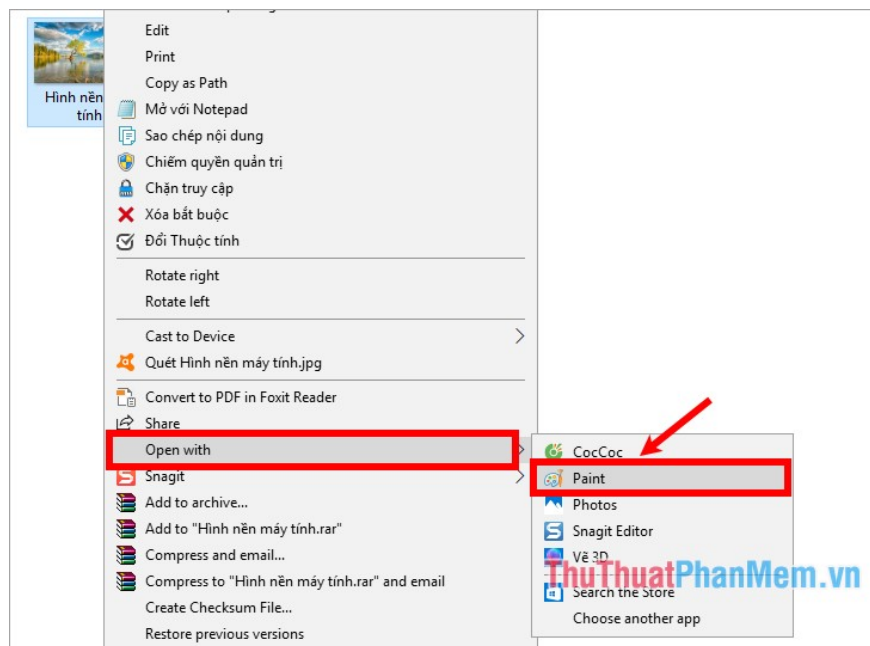

On the Paint interface, select **File -> Open** (or **Ctrl + N**) to open the **Open** dialog box .

Navigate to the directory containing the image file and select the image to edit then click **Open** .

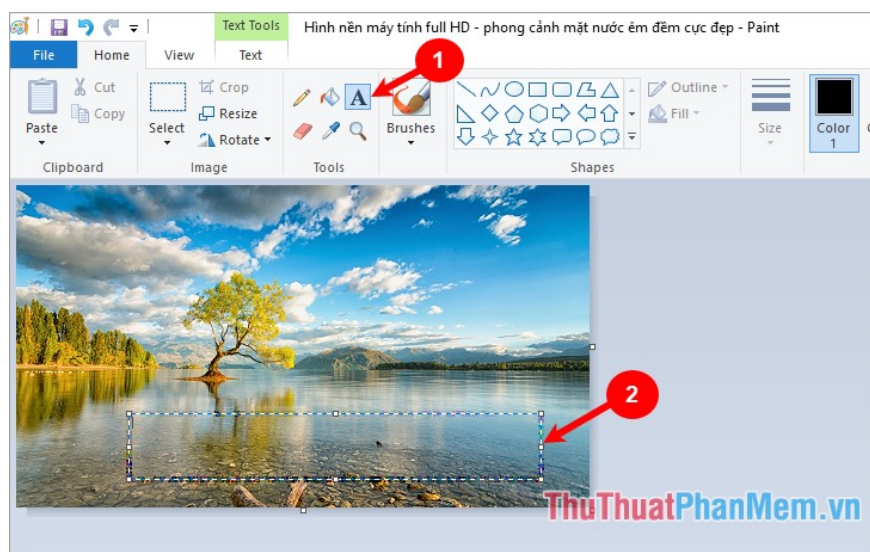

Or you can right-click on the image to edit -> **Open with** -> **Paint**.

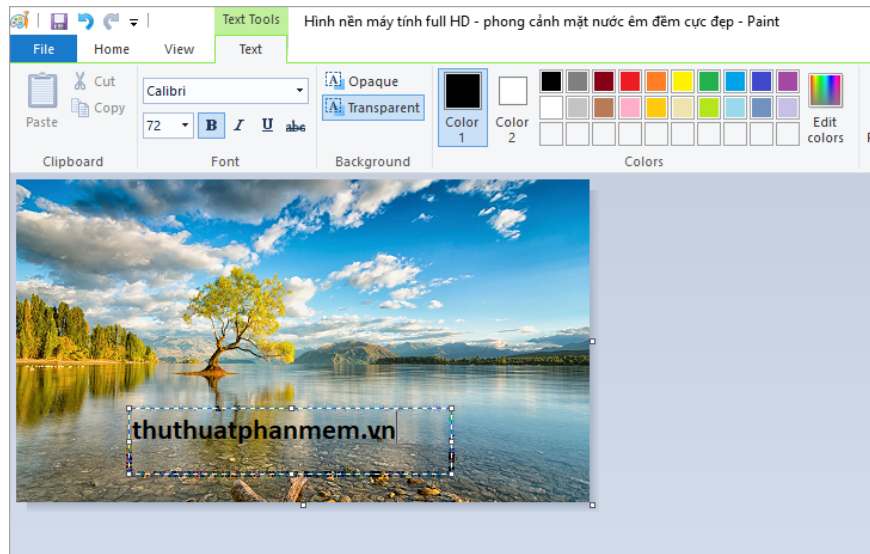

## Step 2: Insert text on the image

Click on the **Text** icon (letter A), then you place your mouse on the position to write text on the image, hold and drag the mouse to select an area to write text.

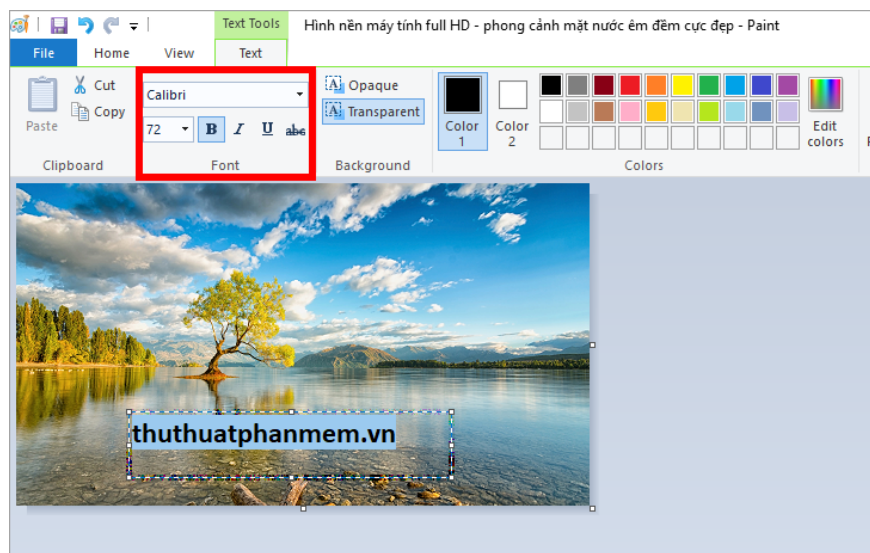

After you have the text area, place your cursor in the area and write the content that you want to add to the image.

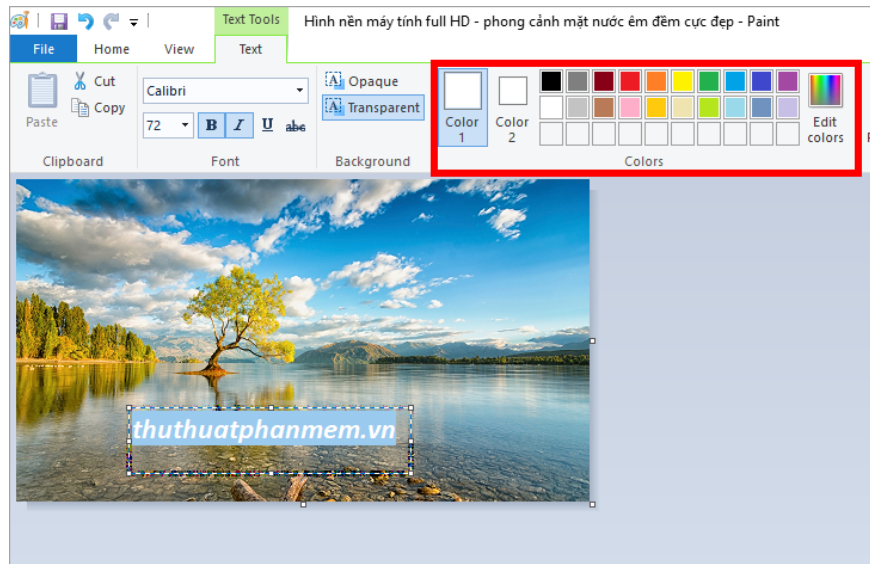

### Step 3: Edit the text

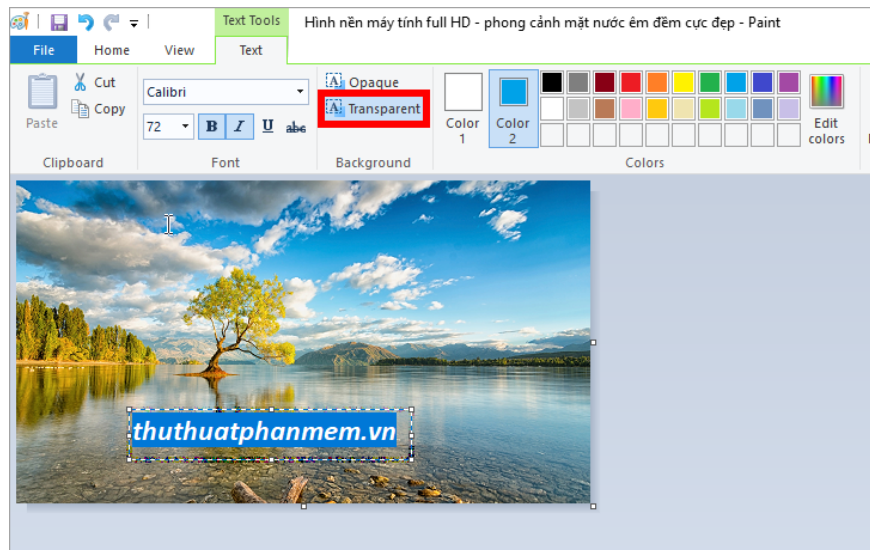

Select (highlight) the text you need to edit, then select the **Text** tab in the **Text Tools** section , where you can edit the font, font size, and font style in the **Font** section .

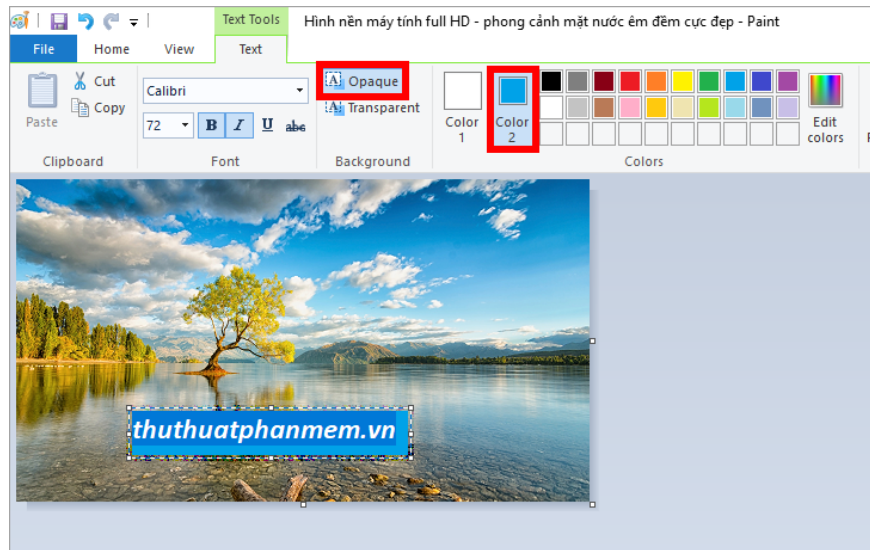

Change the color of text in the **Colors** palette .

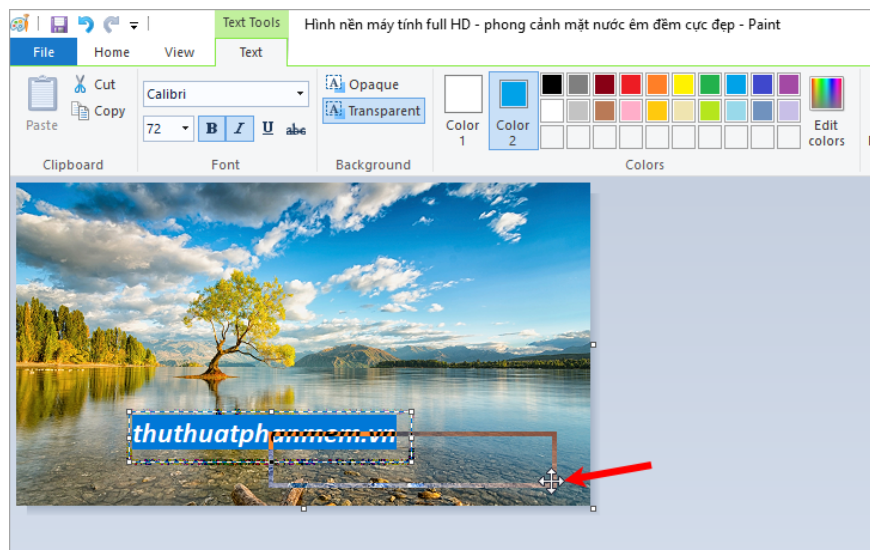

In the **Background** you have two options: **Opaque** (using the background color), **Transparent** (transparent background).

If you choose **Opaque** you can change the background color by choosing **Color 2** and choosing any color in the palette.

To move the text to another position, you put the cursor on the edge of the writing frame when the mouse pointer appears as a four-way arrow, then hold down the left mouse button and drag to the position you want to write the text.

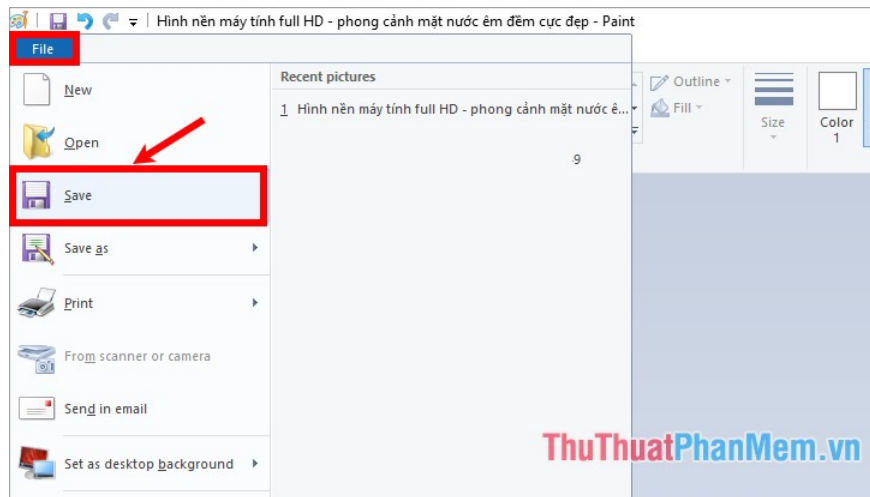

After you have finished editing, you just need to put the mouse outside the text box and you're done.

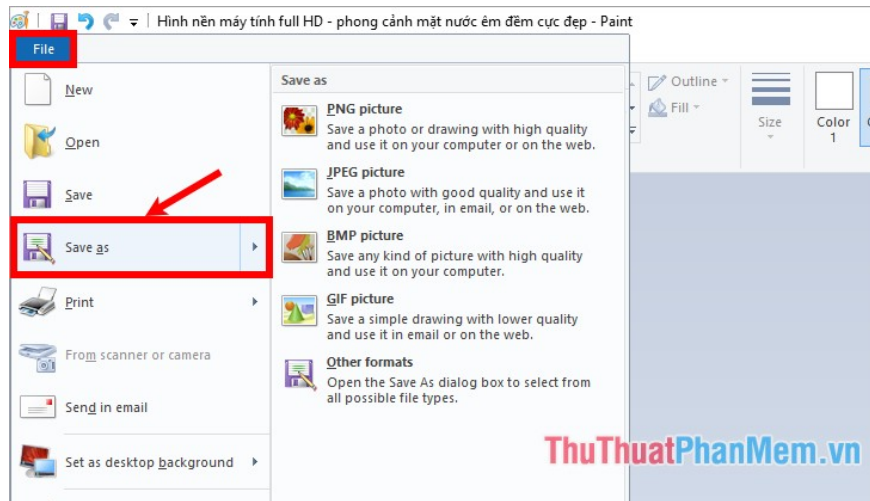

#### Step 4: Save the image

After writing the word, you can choose **File -> Save ( Ctrl + S )** to save immediately to the original image file.

Or you can choose **File -> Save As** to save the image as a new image file.

Thus, with simple actions, you can write words in Paint quickly, you will not spend much time when you have to insert text into the image when using Paint. Good luck!
