

How will websites, YouTube and apps show up on this super-wide screen with this 32: 9 ratio?

Watch web browsers, Word and Excel applications and see how YouTube will display on Samsung's CHG90 super-wide screen, the world's first screen with a 32: 9 ratio.

Watch web browsers, Word and Excel applications and see how YouTube will display on Samsung's CHG90 super-wide screen, the world's first screen with a 32: 9 ratio.

Today's standard computer monitors all have a relative width of 16: 9 in height. Ultrawide monitors now have a 21: 9 ratio.

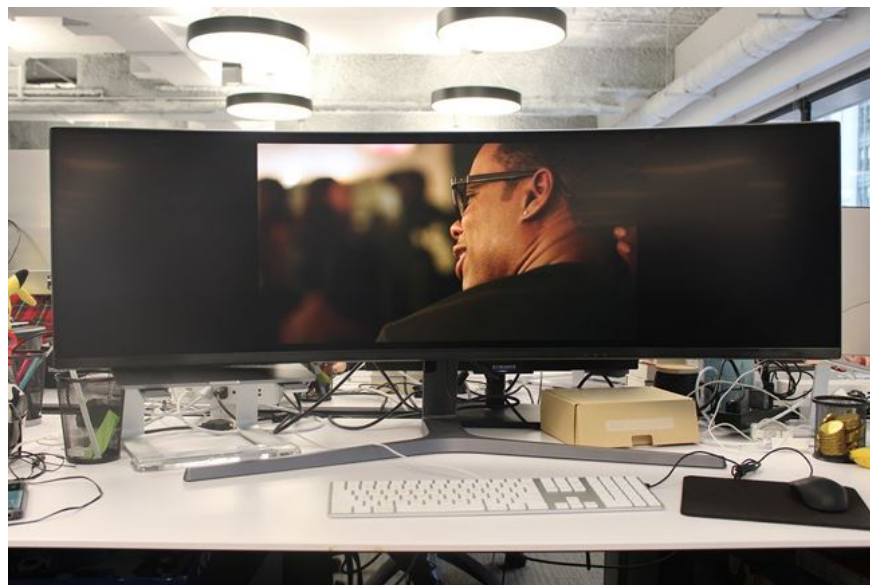

Samsung's CHG90 is a screen designed specifically for gamers. The size of the screen is 49 inches and its price is \$ 1,300.

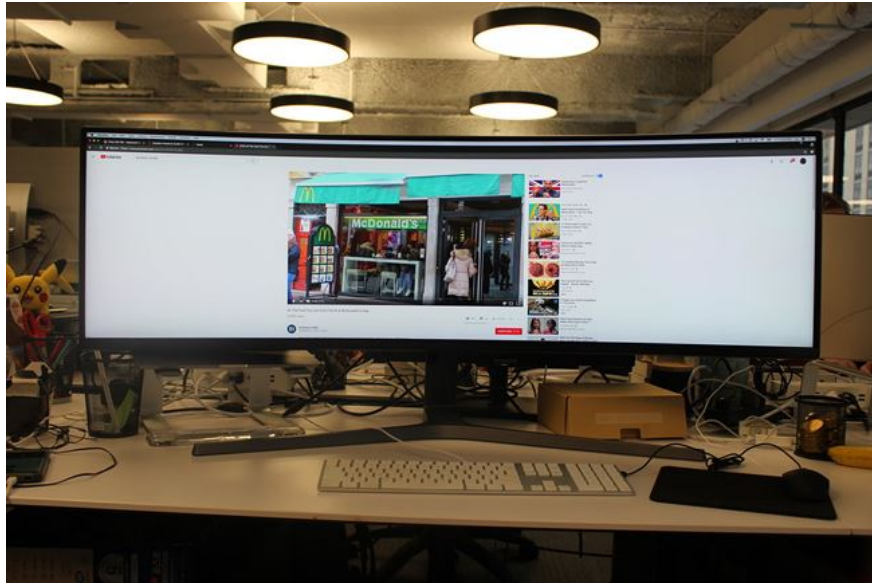

Let's see how other applications and software will show up on this screen just as big and curved as possible through Business Insider tests.
