

HP 430 - 'Great' laptop for students

Beautifully designed, fully meeting the needs of office application handling as well as entertainment features, the HP 430 laptop is suitable for students and office staff when the price is about VND 12 million.

Beautifully designed, fully meeting the needs of office application handling as well as entertainment features, the HP 430 laptop is suitable for students and office staff when the price is about VND 12 million.

HP 430 harnesses the power of microprocessors equipped with Intel Sandy Bridge Core i5 -2540M 2-core CPU with 2.6 GHz speed and the ability to automatically accelerate Turbo Boosts to 3.3 Ghz. 2GB RAM (Dual Channel DDR3 speed 1333 Mhz) and 250GB hard drive (SATA II speed 7200 rpm) makes the machine stable and durable, while meeting the needs of a regular user like running Office software, internet, image storage, music .

In addition, the HP 430 laptop has a DVD Super Multi drive that supports reading and writing 2-layer DVD discs, SD and MMC memory card readers, 3 USB 2.0 ports to connect to a keyboard, mouse or portable hard drive.

The device is equipped with an HDMI port that allows users to connect to a large-screen TV, a VGA port to connect to a projector, a network port, headphone and mic jacks. In addition, the device is equipped with Altech Lansing speakers for good sound quality, enough to fill a room of 30 square meters.

With a silver aluminum alloy case, the design is quite solid, the edges are rounded, users will have a more compact feel than the actual size. The HP 430 has a 14-inch BrightView LED display with a resolution of 1366 x 768, providing true color and brightness that significantly improves when working in low light conditions. Machine weighs about 2.2 kg including 6-cell battery included.

Products are currently sold at the agent system of FPT Distribution nationwide.
