

HP Chromebook x2, the world's first removable Chrome OS computer

HP has just announced the world's first Chrome OS 2 in 1 computer called the removable xx Chromebook.

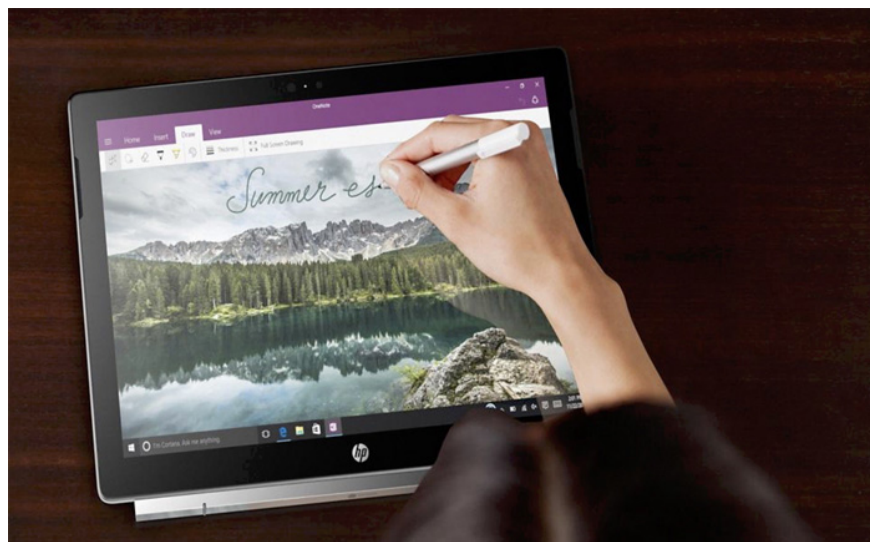

HP has just announced the world's first Chrome OS 2 in 1 computer called the removable xx Chromebook.

In tablet form, Chromebook x2 also comes with a keyboard and pen. But the most special thing about this product is the keyboard, which can be attached via hinges to act as a laptop. 48Wh battery is placed entirely inside the tablet.

HP Chromebook specifications x2

1. Core processor m3-7Y30.
2. RAM of 4 GB or 8 GB.
3. 32 GB internal memory, can be expanded up to 256 GB with Micro SD card.
4. 12.3-inch IPS LCD screen with a resolution of 2,400 x 1,600 pixels, supports a stylus to take notes or do many other things.
5. The shell is coated with white aluminum with high durability.
6. 13 MP rear camera and 5 MP front camera.
7. Dual speakers Bang & Olufsen.
8. HP Chromebook x2 is only 15.3 mm thin, weighs about 3.14 pounds and is compatible with digital pens.
9. Battery life is up to 10 hours.

The HP Chromebook x2 will be available from June 10 and will be available for sale starting at \$ 599.
