These products use aluminum and magnesium casing, so they have a MacBook design, which is both durable and glossy.

The HP Envy 13 is equipped with a HP Radiance 13 inch bright screen, 1366 x 768 pixels, about 2.5 cm thin, weighing 1.69 kg. It has a metal armrest and VGA webcam can work in low light conditions.

The product incorporates an Intel Core 2 Duo SL9400 1.86 GHz and 3 GB RAM and ATI Mobility Radeon HD 4330 512 MB graphics to achieve high performance while ensuring long battery life when working mobile. In addition, the system has 250 GB hard drive, 2 USB ports, standard Wi-Fi connection, Bluetooth, HDMI .

HP Envy 13.

Meanwhile, the Envy 15 is one of the thinnest and lightest 15-inch laptops. Metal etching technology on the lid and armrests bring a sense of luxury. The magnesium alloy case makes the Envy 15 light, 2.5 cm thick and weighs 2.35 kg.

The product uses Intel Core i7 processor, DDR3 1066 MHz RAM up to 16 GB with four SODIMM memory slots, 15.6-inch LED BrightView HD screen, ATI Mobility Radeon 4830 discrete graphics with VGA Nightvision Webcam Light sensor to automatically adjust according to the environment.

HP Envy 15.

The Envy series is sold in the Asia-Pacific region from October 22, with the starting price of Envy 13 being \$ 1,699, while the Envy 15 is \$ 1,899. Customers who buy the device will be issued a certificate of ownership from HP.
