

HP launches a new, affordable mini netbook

Recently, HP has announced a 10.1-inch netbook model that is reasonably priced for students and business people who need to move a lot.

Recently, HP has announced a 10.1-inch netbook model that is reasonably priced for students and business people who need to move a lot.

Mini HP 1104 netbook

Mini 1104 is a netbook built to fit in bags, backpacks for school, work or travel with a size of 10 inches, weighing 1.26kg and battery life of up to 9 hours continuously.

This mini netbook is equipped with 1.6 GHz Intel Atom N2600 processor, 2GB RAM, 320GB hard drive and integrated VGA webcam for video chat on 10.1-inch screen.

In addition, the Mini 1104 comes with Wi-Fi and Bluetooth, comes with various connectivity options, including 3 USB 2.0 ports, headphone and mic jack, VGA video output, a multilateral card reader. Convenient (supports SD, SDHC, and SDXC formats), and an Ethernet jack. In addition, the 1104 also has a laptop lock slot.

Mini 1104 is installed with 32-bit Windows 7 operating system, not the 64-bit version commonly found on complete laptops.

The Mini 1104 is now available on HP's website with two different models: one with Gobi 3000 mobile broadband for \$ 469 and one with standard Wi-Fi and Bluetooth wireless connectivity for \$ 399.
