

HP Mini 1103 - More options for young entrepreneurs

Are you looking for a HP Slate 500 to use in your free time but are considering cost? The HP Mini 1103 looks similar to the Mini 210 but you have more options for an affordable netbook

TipsMake.com - Want to have a HP Slate 500 for use in your free time but are considering in terms of cost? The HP Mini 1103 looks similar to the Mini 210 but you have more options for an affordable netbook . With a starting price of \$ 299, you'll own a 10.1-inch screen netbook with an Intel Atom N475 or N455 processor option, 1GB of RAM, a 3 or 6 cell battery and an operating system that can be Windows 7 Starter , SUSE Linux or FreeDOS.

If you are looking for a netbook with an HD touch screen, a Dual-core processor and a solid aluminum case, the Mini 5103 for \$ 399 is a good choice, but the Mini 1103 also has the right applications. Business integration with QuickSync and QuickWeb.
