

HP Pavilion dv4-1200 series - Perfect quartet

After the Pavilion dv4-1100 series, HP continues to market 4 upgraded versions of dv4-1200 series through distributor FPT Distribution.

After the Pavilion dv4-1100 series, HP continues to market 4 upgraded versions of dv4-1200 series through distributor FPT Distribution.

This perfect quartet gives users more options with different configuration levels and selling prices.

HP Pavilion dv4-1200 series significantly increases processing performance

The four models of the Pavilion dv4-1200 series launched on the market include: Pavilion dv4-1201TU, dv4-1202TU, dv4-1203TU, dv4-1228TX, respectively upgraded on the respective versions of the dv4- series. 1100 before that. The Pavilion dv4-1200 series also has a low to high configuration, making it easy for users to choose according to their needs and financial capabilities.

In this upgrade, HP focuses on improving the processing speed of the machine through higher processors for all 4 models while the design and other features remain the same.

The Pavilion dv4-1201TU (upgraded from dv4-1101TU) is equipped with the highest processor in the processor line, the Pentium Duo Core T4200 (2.0GHz / 1MB), the FSB clock is upgraded to 800MHz from 667MHz first. here. A little more is the **Pavilion dv4-1202TU** with the new Intel Core 2 Duo T6400 (2.0GHz / 2MB) processor, which was released at the end of 2008, with different improvements to the 45nm architecture compared to 65nm of the processor lines. T5xxx before. Both models have a 160GB hard drive, 1GB RAM, webcam, mic, blue tooth, which are sold for \$ 888 and \$ 999 respectively (not VAT).

The Pavilion dv4-1203TU is slightly more configurable than the Intel Core 2 Duo T6600 processor (2.2GHz / 2MB), with up to 2GB of RAM. The hard drive is still at 160GB but has more protection against shocking technology. In addition, this model has a finger print fingerprint security feature and a flussed glass screen. Dv4-1203TU is sold for 1288 USD (not including VAT).

For users with high performance and graphics applications, the Pavilion dv4-1228TX is equipped with an Intel Core 2 Duo T7450 (2.13GHz / 3MB) with clock speeds of up to 1066MHz, 2GB 800MHz RAM memory , 160GB hard drive to prevent data protection. NVIDIA GeForce 9200M GS separate graphics processor, 512MB memory. Pavilion dv4-1228TX sells for 1388 USD (not including VAT).

In all four new models launched in this phase, the characteristics that make up the advantages of traditional Pavilion entertainment computers are still maintained like the scratch-resistant HP Imprint decorative technology, the glowing HP logo, the screen. 14.4-inch 1280x800 image, HDMI connection, eSATA connection, remote control for Media player application, DVD Lightscribe optical drive, Altec Lansing loudspeaker, webcam, mic, bluetooth . Standard 6-pin battery for operation Continuous motion from 1.5 hours to 3 hours depending on the application is running at the same time. In particular, the machine weight is only from 2.17kg - 2.4kg, which is ideal for models with 14-inch screen sizes.
