

## HP's 2009 winter laptop collection

Among the upcoming Windows 7 products of the world's number one computer company, three laptops have never been announced

**Among the world's upcoming Windows 7 products, three laptops have never been announced, such as the Pavilion dv3 TouchSmart with a 13.3-inch touchscreen .**

There is also a thin 11.6-inch Pavilion dm1 equipped with CULV power-saving chip and Pavilion dv8 with 18.4-inch screen using Core i7 chip.

The image shows an HP Mini 110 laptop, a small netbook, and its matching protective sleeve. The laptop is silver and black, with a 10.1-inch LED widescreen. The sleeve is white with a floral pattern and a circular window showing the laptop. A mouse is also visible next to the laptop. The background features a decorative floral pattern.

**HP Mini 110 by Studio Tord Boontje**

Acclaimed designer Tord Boontje brings his emotionally-sensitive touch to the latest HP Mini 110 by Studio Tord Boontje.

The exclusive flora and fauna design is echoed in the matching post-consumer recycled protective sleeve, and the nature-inspired design is repeated on the included wallpaper and desktop theme. Show your commitment to making smart choices for the future whenever you take your mobile companion!
