

# Huawei is a true fan of the movie Frozen and this is proof

The code naming of the Huawei P40 trio shows that Huawei seems to be a fan of the popular Frozen movie.

Huawei has recently officially launched the trio of Huawei P40, P40 Pro and P40 +. All three smartphones will also be sold in China soon. Recently, a leaked expert revealed the actual photo of a trial version of Huawei P40 Pro +, showing some interesting details about how Huawei named its product lines during playback. equipment development.

Specifically, right before the launch, many rumors have revealed the code names of the Huawei P40 and P40 Pro, "Anna" and "Elsa". This name makes many technology users wonder if they have anything to do with the famous Disney movie Frozen. And the image below has finally officially confirmed that Huawei P40 is codenamed based on Disney's Frozen movie. Looks like Huawei is a true fan of this movie!

Do you see the words "LET IT GO" engraved by Huawei next to the lens information?

On the test version, the information about the lens engraved by Huawei is "**BLINK: VARIO-SUMMILUX-H1: 1.8-2 LET IT GO ASPH.**", where "**BLINK**" is the internal code name of LEICA used by Huawei in device development. This parameter cluster was changed by Huawei to "**LEICA: VARIO-SUMMILUX-H 1: 1.8-4.4 / 18-240 ASPH.**" on the commercialized version.

The information stream has been redeemed on the commercial version

The use of code names in the manufacturing process is used by many smartphone manufacturers around the world to avoid leaking information about the product before launch. However, the way Huawei names the code for its Huawei P40 series trio makes many tech fans feel quite humorous and a bit "cute". It seems that Huawei's engineering team are true fans of Frozen!
