

# Huawei launches MatePad Pro tablet, smart keyboard connection, supports two-way fast charging

Huawei continues to introduce MatePad Pro tablets users with many exciting new features such as the ability to connect a smart keyboard, support for two-way fast charging and display of a smartphone screen.

After introducing the Mate Xs smartphone, Huawei continued to introduce MatePad Pro tablets with many interesting new features such as the ability to connect a smart keyboard, support for two-way fast charging and display. smartphone image.

Huawei MatePro is equipped with a 10.8-inch FullView perforated screen that accounts for 90% of the front, high resolution 2560 x 1600 and a richness of 280 PPI, color gamut DCI-P3. The screen border of the device is only 4.9 mm, much thinner than the 2018 iPad Pro from Apple (8.3 mm, accounting for 84.6%) and Galaxy Tab S6 from Samsung (8.5 mm, 83%).

The thickness of the device is only 7.2mm, weighs 460g. The Vegan Leather version is 7.99 mm thick and weighs 492g.

MatePad Pro is equipped with up to 4 speakers along with 4 microphones that help give users a better audio and recording experience than previous generations.

In terms of configuration, MatePad Pro owns Kirin 990 5G chip that delivers superior performance, faster and smoother upload / download speeds.

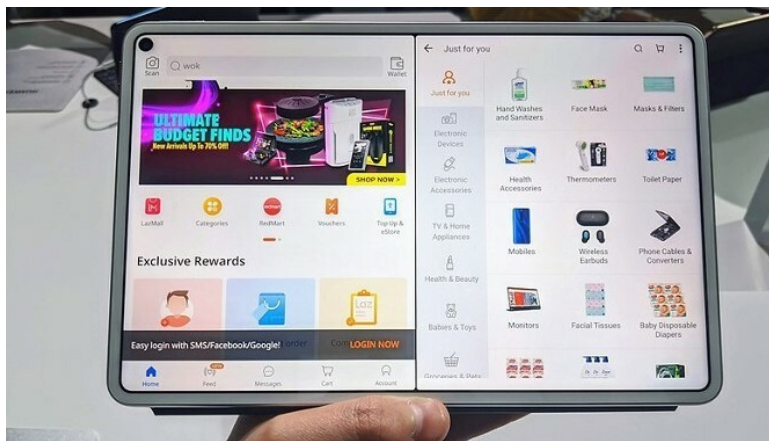

MatePad Pro is equipped with conventional 40W super fast charging technology and up to 27W wireless super fast charging technology. This is the first tablet model in the world to own this technology. It also has built-in wireless reverse charging.

For the first time, Huawei brings a split screen feature to MatePad Pro, allowing two apps to run in parallel at the same time or two monitors running only one application.

The Multi-screen Collaboration feature on MatePad Pro allows the device to use apps on smartphones and tablets. This useful feature helps users not to use two devices independently of each other.

Accessories included with Huawei MatePad Pro include:

1. A leather case and keyboard with two deep grooves helps keep the tablet in two different directions and when folded, it is still not too thick.
2. M-Pencil pen with pressure 4096 times. The pen has built-in wireless charging and when charging attaches to the side of the device.

Huawei MatePad Pro has two versions. The first version is Fiber Glass with 4 colors for users to choose according to their preferences are orange, green, gray and white. The second version of Vegan Leather is only available in red and blue.

Price of Huawei MatePad Pro and MatePad Pro 5G:
