

Huawei nova Y91 launched: Rabbit ears like iPhone 14 Pro Max, equipped with 'surpass' Galaxy S23 Ultra

Huawei has just launched a mid-range phone nova Y91 with an iPhone-like notch design and equipped with a 'dinosaur' capable of 'surpassing' even the Galaxy S23 Ultra.

Huawei nova Y91 comes with a 6.95-inch LCD touch screen, 1080 x 2376 resolution with 90Hz refresh rate and 270Hz touch sampling rate. The phone is powered by Snapdragon 680 chipset combined with 8GB RAM and 2 memory options 128GB/256GB. It also has a 'huge' battery of up to 7,000 mAh and supports 22.5W charging included in the box.

At the back, the phone is equipped with a dual camera set in a prominent large circular module containing a 50MP main camera with f/1.8 aperture and a 2MP depth sensor. On the front, it also has an 8MP selfie camera to support shooting more effectively.

Huawei nova Y91 runs EMUI 13 interface and does not support 5G or Wi-Fi 6. Other standout features are Bluetooth 5.0 and USB-C port but no 3.5mm headphone jack.

The phone has built-in fingerprint security with the power button on the right edge. The device measures 171.6 x 79.9 x 8.9mm. It will be available in two colors, Moonlight Silver and Starry Black.

With a beautiful, unique, fancy design with a notch like the iPhone 14 Pro Max and a super-large screen, 'surpassing' even the Galaxy S23 Ultra, Huawei nova Y91 is considered a good candidate for the throne. mid-range Android phones'.
