

Huawei P20 phones will have rabbit ears like iPhone X

Huawei P20 phones are becoming more and more clear.

Huawei P20 phones are becoming more and more clear. *VentureBeat* recently posted a photo of the P20 Lite, supposedly a full line of products, alongside the P20 and P20 Pro. All will have slots on the screen like the iPhone X and the 18:9 screen.

Accordingly, the P20 Lite will have a size of 5.6 inches, resolution of 1080 x 2250 and fingerprint sensor behind. The device uses 8 core Kirin 659 chip, 4GB RAM, 64GB internal memory capacity, 3520mAh battery and runs Android 8.0 Oreo.

Previously, it was also believed that Huawei will offer a phone with 3 cameras, probably P20 Pro. And the P20 only has dual cameras.

If true as rumors, Huawei is not the only Android phone to follow the path of iPhone X

At Mobile World Congress 2018, we have also witnessed a lot of small Android companies that launched rabbit-ear phones like those of the iPhone X. There are rumors that Google is also preparing to put this design into its phones. .

It is not known what the actual appearance of these phones will be, but if they do have rabbit ears, then it is not unexpected.
