

I have the unique venom in the world of snakes, the sea snakes are eating again and again in a moment

In the documentary series Animal Kingdom, there was a scene where Belcher sea snake swallowed its prey in size in less than 60 seconds.

Belcher sea snake, the world's most unique snake that can kill thousands of people with only a few milligrams of venom makes any enemy and prey terrified.

This snake usually lives in warm waters from the Indian Ocean to the Pacific Ocean. They have a flattened body structure and are similar in size to sea eels. They have quite eye-catching colors, black and white or dark blue stripes. Belcher sea favorite food is puffer fish, pangasius .

The world's most unique snake species is related to terrestrial cobra.

With a tremendous amount of venom and the ability to swallow prey of the same size and length, the Belcher sea snake is a haunting "horror" for many animals in the ocean.

In the "Animal Kingdom" documentary series, there was a scene where Belcher sea snake swallowed its prey in size in less than 60 seconds. After curling up to make the prey poison faster, he had a hearty meal.

1. Birds flying in the sky also have days of death by a group of crabs
2. If you suffer from the world's most poisonous spider, how will your body be destroyed?
3. Listed 10 largest species of creatures in the ocean
