

IBM upgraded new data backup technology for businesses

IBM® Tivoli® Storage Manager Suite For Unified Recovery (IBM TSM SURE) is IBM's latest product line for enterprise data backup solution.

IBM® Tivoli® Storage Manager Suite For Unified Recovery (IBM TSM SURE) is IBM's latest product line for enterprise data backup solution. With the application of professional and highly confidential technology, IBM is changing the way it protects and stores traditional data.

Today, protecting and storing information data is one of the major challenges of businesses. 24/7 availability of data, as well as key IT applications, is one of the factors that ensure the safety of the sustainable development of the business.

The introduction of the TSM SURE product line provides the most comprehensive, centralized and automated data protection. With these preeminent features, businesses can reduce the load of complexity during use, as well as the risk of data loss. In particular, TSM SURE also helps businesses reduce management costs, as well as identify problems during data storage.

IBM TSM SURE operating system

Another plus for TSM SURE is that IBM has applied its practical experience in the process of deploying technology applications into products. Thus ensuring an appropriate and effective operating infrastructure for businesses.

TSM SURE product package for businesses with a total storage capacity of less than 100 TB. IBM provides customers with items, including: TSM Extended Edition, TSM for SAN (for free LANs backups), TSM for Databases, TSM for Email, TSM for Virtual Environments, TSM for ERP, TSM Space Management, Fastback , Fastback BMR, Fastback for Exchange.

Enterprises can install this software on many non-Windows operating systems such as Unix, Linux ., creating maximum flexibility in many different working environments.

Besides, from November 1, 2012 to December 31, 2012, with special promotions of gratitude to customers, customers will be reduced to 50% and receive The New iPad immediately when buying backup solution. this professional.
